Product Introduction

Display Screen

1. Indication
2. Flag
3. Measuring Circle
4. Golf Ballistic Compensation
5. Angle
6. Battery Power
7. Distance/Speed Unit
8. Measuring
9. Height
10. Horizontal Distance

About Battery Power:
Three cells of battery power: 75%-100% Power
Two cells of battery power: 50%-75% Power
One cell of battery power: 25%-50% Power
Space battery power: less than 25% Power

Function

1. On/Off

Short Press Power/Measurement Button to power on, Automatically power off with 8s inactivity (Press any button can wake it up)

2. Slope Switch

The rangefinder designed with a unique slope switch.

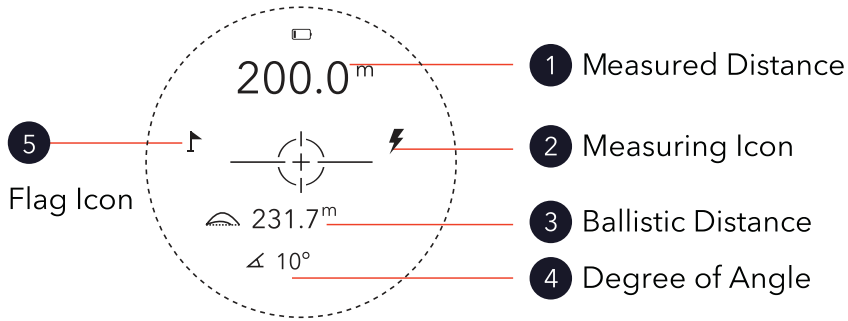

When slope switch is on ( ), ready for amateur use and training. When slope switch is off ( ), it can be used in professional events and meets the regulations of golf championships.

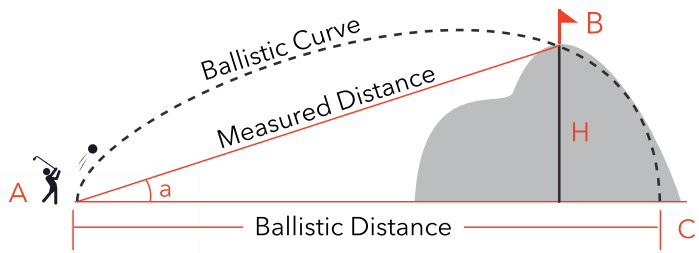

3. Mode setting

Short press the Mode/Unit Transfer Button to switch between three measurement modes.
① Golf Ballistic Mode
② Speed Measuring Mode
③ Ranging Mode
Long press the Mode/Unit Transfer Button to switch distance unit Y or M and speed unit km/h or mph.

Function

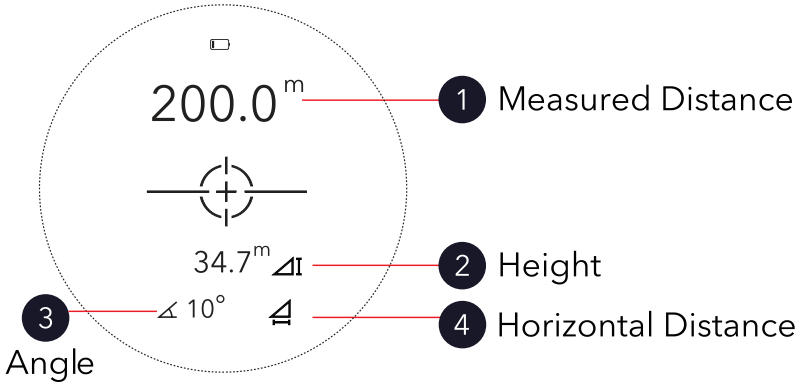

4. Golf ballistic mode

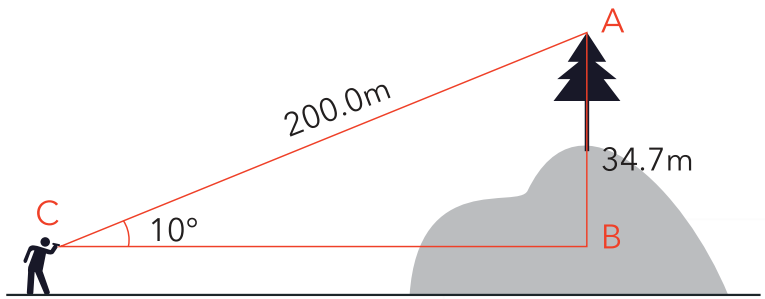

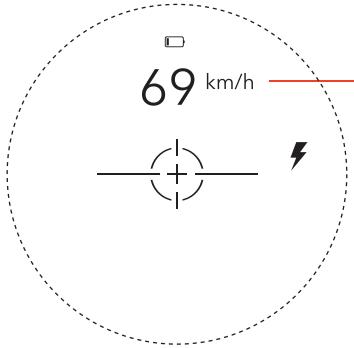

Ballistic Distance and Degree of Angle will only be displayed when Slope switch is turned on.

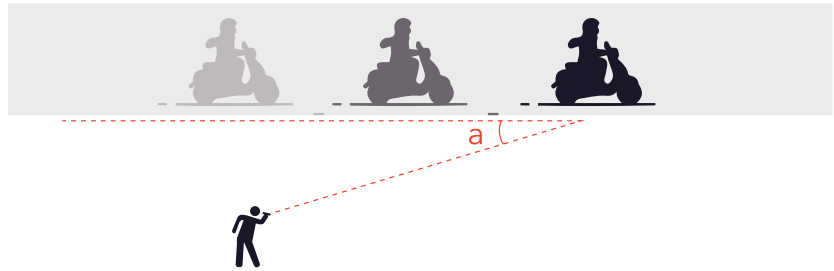

5. Ranging Mode

6. Speed Measuring Mode

Speed Measurement Range: 18~300km/h
Measuring Method:
In the Speed Measuring Mode, press the power/ measurement button, align the Crosshairs with the object to be measured, and move slightly with the object to measure the speed of the object.
The horizontal angle between the Measurer and the measured moving object should be less than 10°, the smaller the angle, the higher the accuracy.

Specification

SPECIFICATION	
SIZE	115*75*45mm
Weight	180g
Measurement Range	1200Y
Accuracy	± 0.3(300Y) ± 0.5(1200Y)
Unit	M ,Y
Golf Ballistic	√
Flag Lock	√
Horizontal Distance	√
Speed Measurement	√
Vibration	√
Slope Switch	√
Laser Wavelength	905 nm

Specification

SPECIFICATION	
Magnification	7X
Objective Lens Diameter	21mm
Eyepiece Diameter	15mm
Diopter	±6°
Eye Relief	3.7mm
Battery	750 mAh
Charging Pot	Type-c
Waterproof	IP54
Magnet	Yes
Field of View	7°
Display	Transflective LCD
USB-C Output	5V/2A

ATTENTION

1. Before use, please ensure to calibrate the rangefinder eyepiece until you can see objects clearly with your eyes. The data observed at this point is the most accurate.

2. During use, maintain a steady hand to ensure that the rangefinder lens remains stable during measurement.

3. Keep the rangefinder lens and eyepiece clean for effective focusing.

4. Environmental Conditions: Different environmental conditions may impact the performance of the rangefinder. For instance, extreme weather conditions such as rain, fog, mist, or intense sunlight can potentially reduce the accuracy of the rangefinder.

5. Target Surface: The reflective properties of the target surface can influence the measurement results of the rangefinder. Particularly, for highly reflective surfaces or materials like glass, the rangefinder may struggle to accurately measure the distance.

6. Battery Status: If the rangefinder is battery-powered, low battery levels can lead to unstable performance and reduced accuracy. Ensure the use of fully charged batteries and regularly check the battery status.

FAQ

Charging:

Use the type-c charging cable to charge, the red light means it is charging, and the green light means it is fully charged.
Fully charged for 30000 measurements.
When screen shows one cell of battery power recommend charging.

Display Is Not Clear:

Rotate the eyepiece knob to adjust the diopter until focus in target.

Clean:

Please clean eyepieces or objectives with the included microfiber cloth.
For a deeper cleaning, use camera lens tissue and camera lens cleaning fluid. The cleaning solution needs to be dipped on the cleaning cloth, and the cleaning solution cannot be directly applied to the lens.

Water Proof:

The waterproof level of this product is IP54, and the product cannot be directly exposed to heavy rain or soaked in water.

Customer Service

WORDS FROM HEART

Since our products are related to the safety of customers, we are committed to producing the best product quality and high-quality after sales support.

In view of no product is flawless, we sincerely believe the true measure of the company's character is what it does *after* its product does not meet expectations, we feel sorry for those customers, but deeply grateful for them to make us one more step closer to your most trustful brand.

We are willing to provide 1 month free return for your product, 2 years limited warranty, and lifetime technical support. Your product is guaranteed to be free of defects in materials and products from the date of purchase. In addition, you can also exchange your 2 years old product for a discounted price by contacting us online.

Behold the motif of complexity to us, simplicity to others, it's such a pleasure to listen to your advice, and we will promptly address any problems that arise.

Wish you all the best, sincerely
Redtiger Customer Service Team".
