TopScan

The TopScan is a pocket-sized tool that turns a phone into a scan tool and keeps up with its users as they go beyond basic scans. Connect the TopScan to the OBD2 port and begin diagnosing through the tool's app. The TopScan excels at the fundamentals. Capable of reading and clearing fault codes, and supports 60+ different vehicle makes across American, Asian, and European vehicles.

The TopScan provides a comprehensive maintenance knowledge base to quickly get started on auto repair jobs. Access 8 maintenance services, AutoVIN technology, vehicle performance testing, and even bidirectional control through your phone. Added benefits of the TopScan include a full-system DTC Repair Guide and one-click I/M Readiness.

TopScan offers two versions: the Lite and Pro. The TopScan Pro steps beyond the lite version by offering IMMO functionality and a total of 13 reset functions, including Injector Coding, Tire Pressure Reset, and Sunroof Initialization. Whether you're a DIY enthusiast or a professional technician, the TopScan has got you covered.

FAQs

Engine Volume Efficiency

Volumetric efficiency(VE) is one of an important engine performance parameter, which indicates the performance of the engine.

The higher the volumetric efficiency, the better the power output of the engine.

The TopScan comes with VE checking functions, enter the value including Engine Size, Engine Speed, MAF, Intake Air Temp, Cylinders, and Air Intake Pressure to calculate the VE of an engine.

FAQs

FAQs

Question

What should I do if a communication error occurs?

Answer

Follow the steps below to identify the problem:

1) Check if the ignition is ON.

2) Check if the TopScan is securely plugged into the vehicle's OBD-II port.

3) Turn the ignition off. Then, turn it on after 10 seconds and continue the operation.

4) Check if the vehicle's control module is defective.

FAQs

Question

Do I need to update the firmware before using it for the first time?

Answer

Yes. Firmware will automatically update to the latest version once the TopScan is connected with your phone via Bluetooth. You can also tap Me > Firmware Update to update the firmware manually.

Question

Can multiple devices be bound to one TopScan app account?

Answer

Yes.
