Muzata

CR09

User Guide

1600698(20221115)

1. Overview

Muzata CR09 hydraulic crimper tool is forged and custom-designed to provide more strength and power. With custom dies for stainless steel make it perfect for crimping the stainless steel cable railing kits. The crimper is designed with an oil switch knob to build the force up to 45KN. The comfortable ergonomic cushioned handle makes it easy to grip and control.

2. Specifications

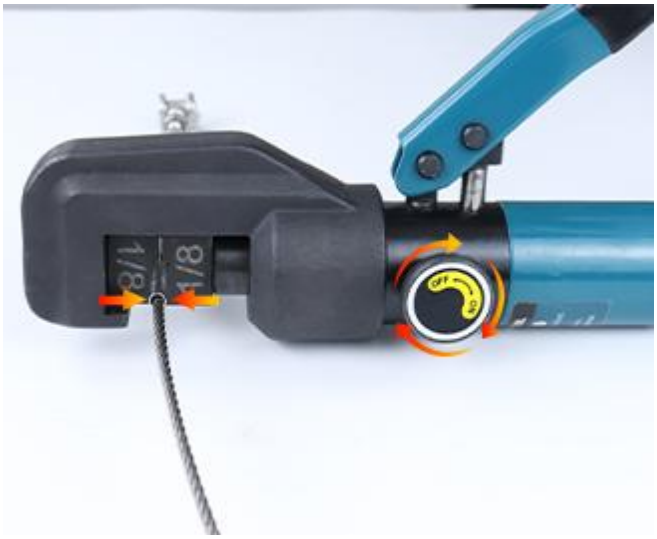

Model	Material	For wire rope size
Muzata CR09	Steel	1/8"

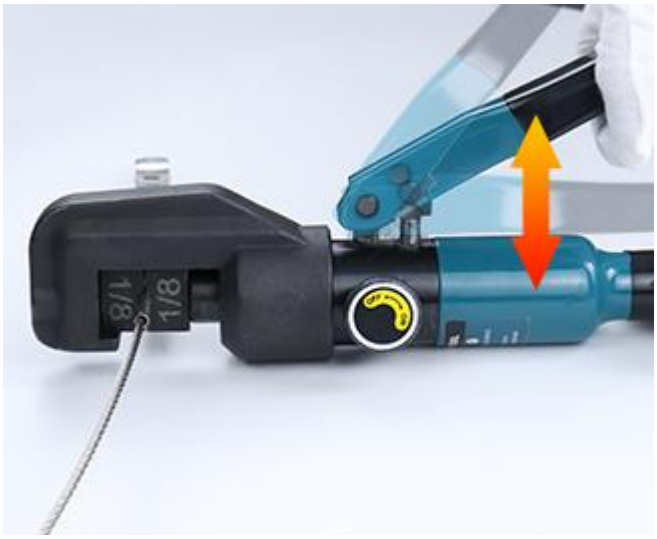

3. Operation steps

Step 1 - Turn off the knob and put in dies.

Step 2 - Put in the terminal and turn on the knob.

Step 3 - Press the handles repeatedly until the terminal is fully swaged.

Step 4 - Turn off to get terminal out.

Tips

Please note that the knob requires an excess of power to be fully tightened . When you find the crimper could not provide enough pressure, please check the knob and make sure it is fully tightened or need further tightening up.

4. Free design service

We offer custom cable railing design service for free. If you are a beginner or not sure about how to do it, please reach us. Our experts can do all the planning, designing and budget work for you without extra charge.
