How to Link Devices to Alexa and Google Home

This guide explains how to connect your LinknLink devices to **Amazon Alexa** and **Google Home** using the **LinknLink App**, allowing you to control your devices with voice commands.

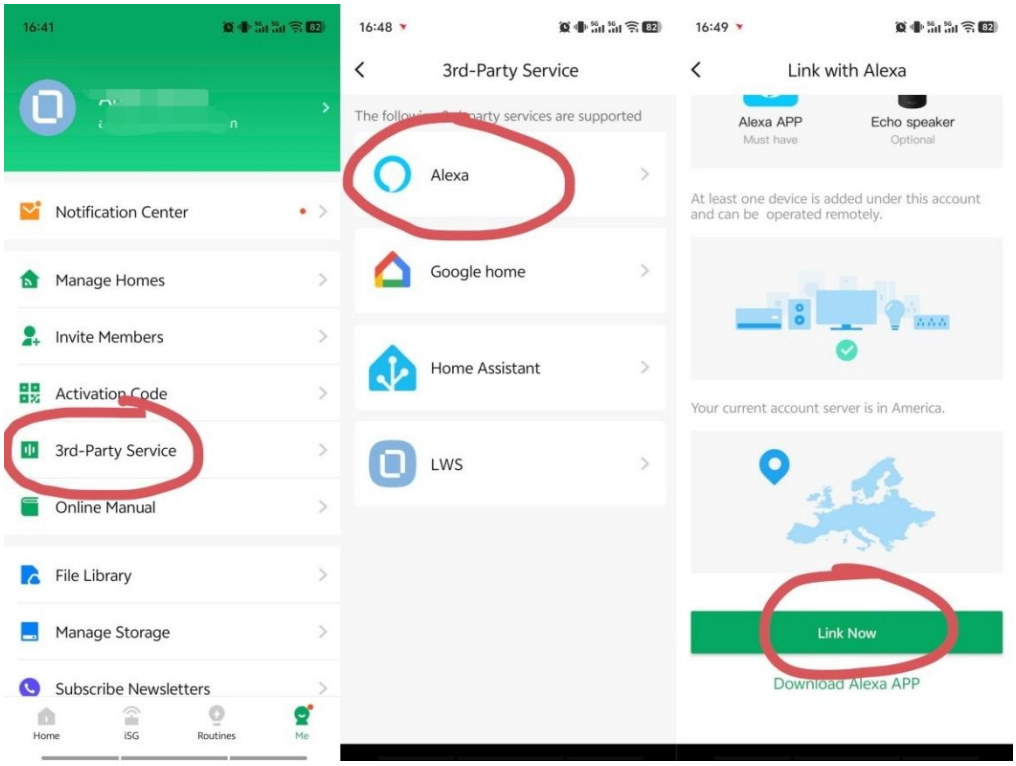

Before You Start

Please make sure that:

- Your LinknLink device has been successfully added to the **LinknLink App**
- The device is **online**
- Your phone is connected to the internet
- You have an active **Amazon Alexa** or **Google account**

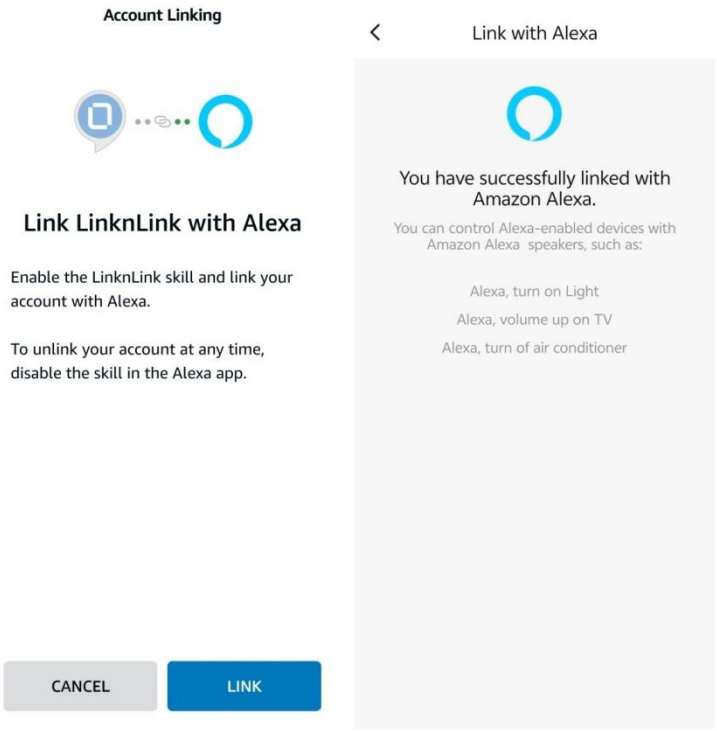

Link LinknLink to Amazon Alexa (from LinknLink App)

1. Open the **LinknLink App**
2. Go to **Me → 3rd Party Services**
3. Click **Alexa**
4. Scroll down and click **Link Now**

You will be redirected to the **Alexa App** or the Alexa login page.

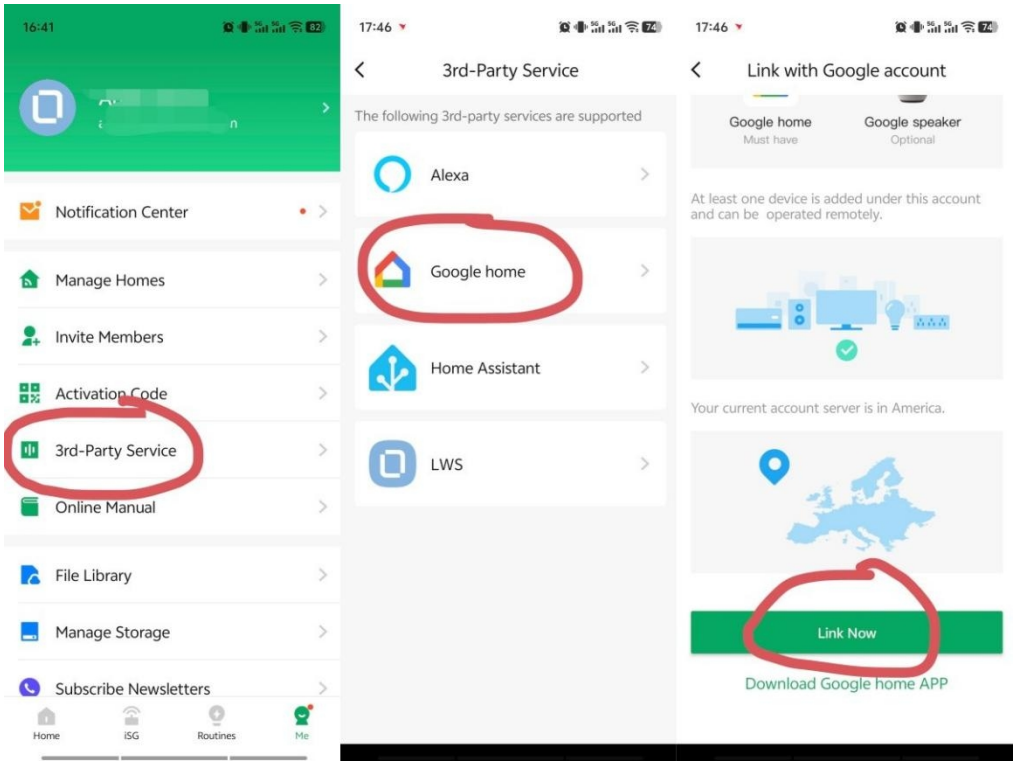

5. Click LINK to authorize Alexa to access your LinknLink devices

After linking, come back to Alexa App and Alexa will automatically start discovering your devices.

Link LinknLink to Google Home (from LinknLink App)

1. Open the **LinknLink App**
2. Go to **Me → 3rd Party Services**
3. Click **Google Home**
4. Scroll down and click **Link Now**

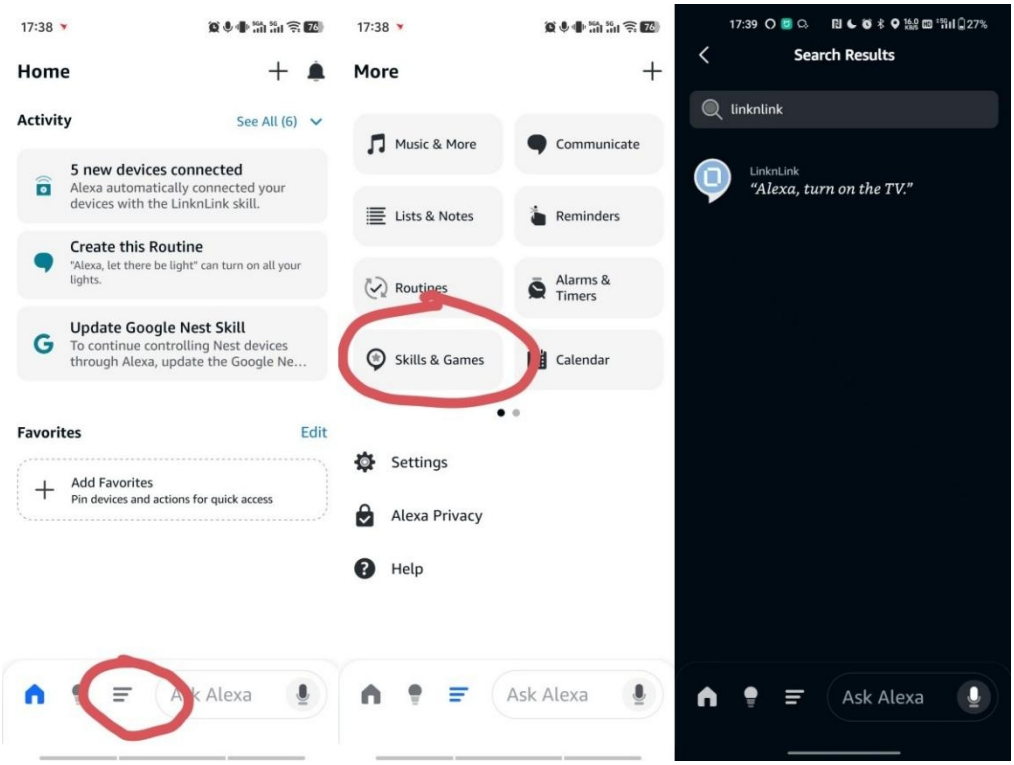

You will be redirected to the **Google Home App**.

5. Click Continue to authorize Alexa to access your LinknLink devices

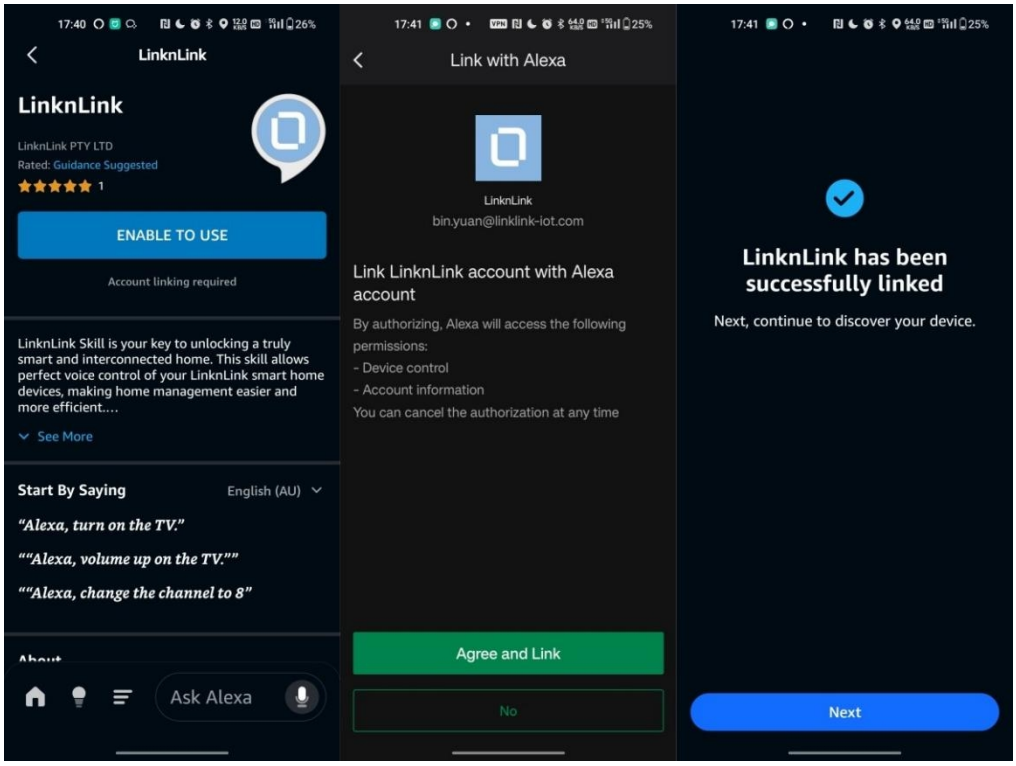

Your devices will then sync automatically to Google Home.

Link LinknLink to Amazon Alexa (from Alexa App)

1. Open the **Alexa App**
2. Click **Menu** → **Skills & Games**
3. Search **LinknLink** skill

4. Click ENABLE TO USE and click Agree and Link on next page

Notes

If devices do not appear, try **refreshing** or **restarting the Alexa / Google Home App**
