## CHARGER CARE & MAINTENANCE

CAUTION – Make sure charger is unplugged from electrical outlet before performing any maintenance.

A minimum amount of care can keep your battery charger working and looking good for years.

1. Clean the clamps after each use. Wipe off any battery fluid that may have come in contact with the clamps to prevent corrosion. Battery fluid may be neutralized with a solution of water and baking soda.
2. If needed, the case may be wiped clean with a soft cloth.

There are no user-serviceable parts inside.
