OSMO POCKET 3

Notes

1. Osmo Pocket 3 has a built-in 1300mAh battery. It can be charged to 80% in 16 minutes and 100% in 32 minutes. The data was tested in a laboratory environment with the DJI 65W PD charger (sold separately).
2. Tested in a 25° C (77° F) laboratory environment with Wi-Fi off and screen off, and should be used for reference only.
3. 4K/120fps video recording is only supported in Slow Motion mode. Tested under 25° C (77° F) laboratory conditions, the max recording time of a single continuous video is approximately 22 minutes (approximately 18 minutes in Europe).
