HARDWIRE POWER HARNESS

Y-SPLITTERS (WATERPROOF)

INCLUDES -
WIRE MOUNTS, SELF-TAPPING SCREWS, BOOSTER, VELCRO, ZIP TIES

MOUNTING KIT

INSTALLATION

STEP 1

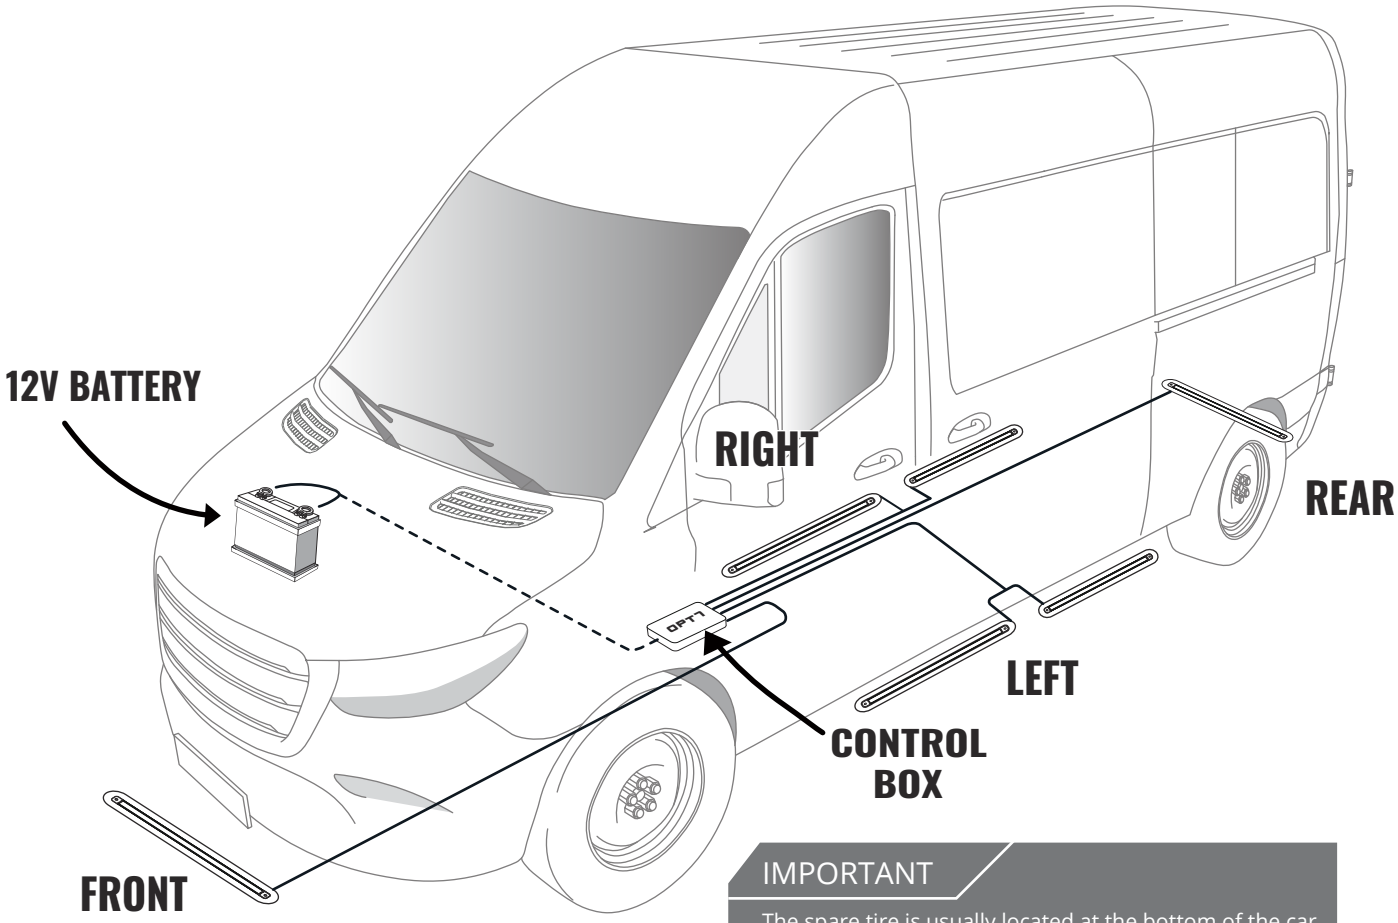

Inspect kit to ensure all contents was included.

STEP 2

Decide where to locate the control box and ensure wiring has enough length for light bars to be installed in desired location.

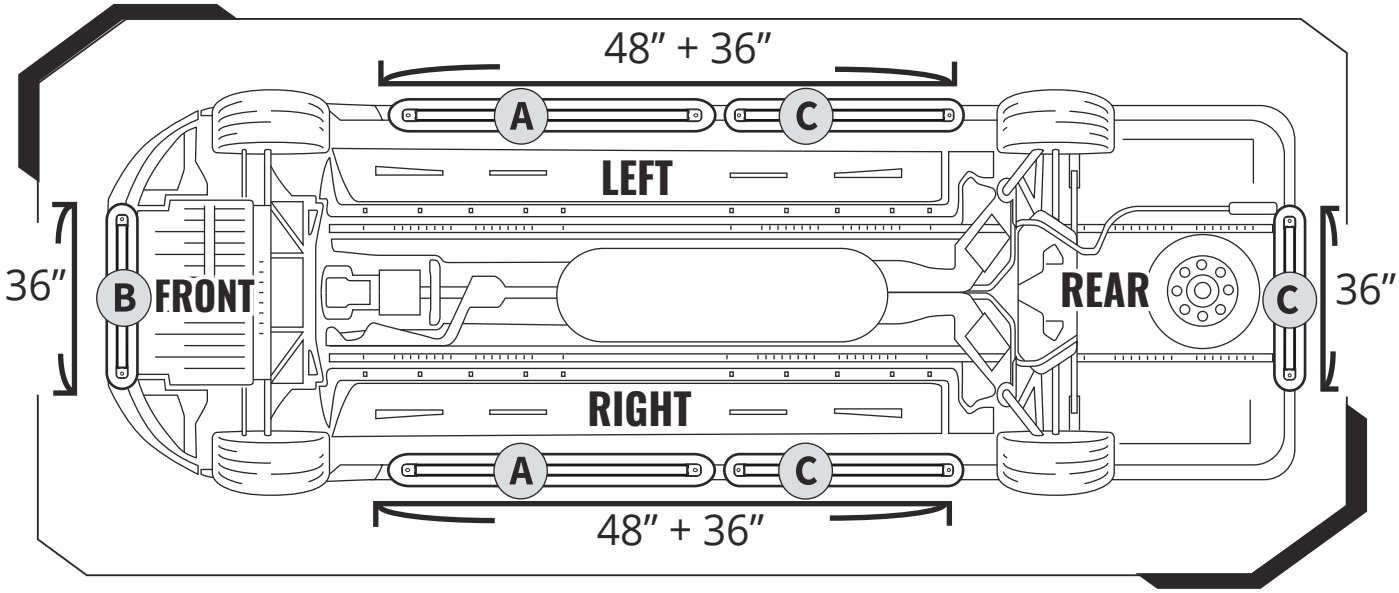

IMPORTANT

The control box is waterproof, but it should still be installed in a safe area of the vehicle. Please avoid installing it in the engine bay or on heated surfaces.

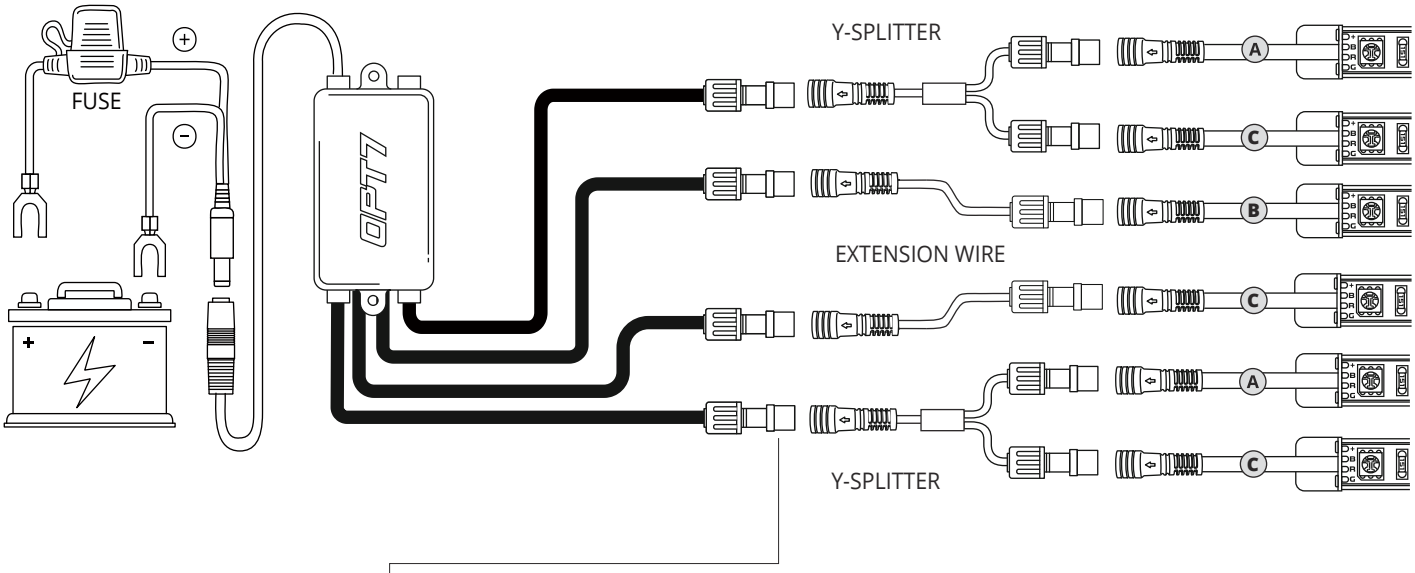

IMPORTANT

The spare tire is usually located at the bottom of the car. Please pay attention to the position of the spare tire of your vehicle after installing the rear light bar. Please find a suitable place to install the rear light bar to prevent the spare tire from being used normally.

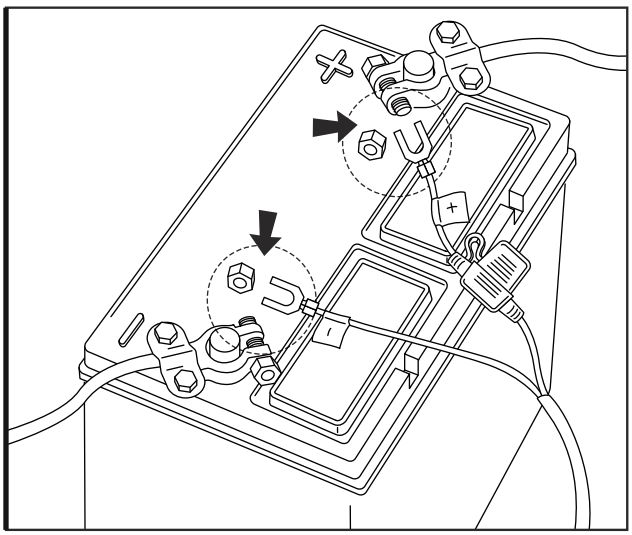

OPT7

EXAMPLES

The extension wires are on the led bar.
Lay out the bars to measure the length prior to install for a successful installation.

- B 1 x 36” (two-section movable 18") LED Bar + 8ft extension wire
- A 1 x 48” (two-section movable 24") LED Bar + 8ft extension wire +
- C 1 x 36” (two-section movable 18") LED Bar + 18ft extension wire
- A 1 x 48” (two-section movable 24") LED Bar + 8ft extension wire +
- C 1 x 36” (two-section movable 18") LED Bar + 18ft extension wire
- C 1 x 36” (two-section movable 18") LED Bar + 18ft extension wire

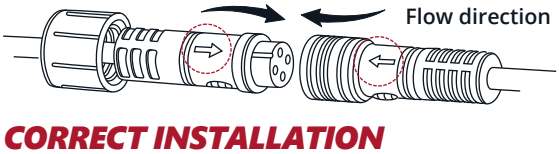

HOW TO CONNECT POWER HARNESS TO YOUR VEHICLE

- Connect the Red wire (+) of power harness to the vehicle battery's positive terminal.
- Connect the Black wire (-) of power harness to the vehicle battery's negative terminal or an unpainted area on your vehicle's frame.

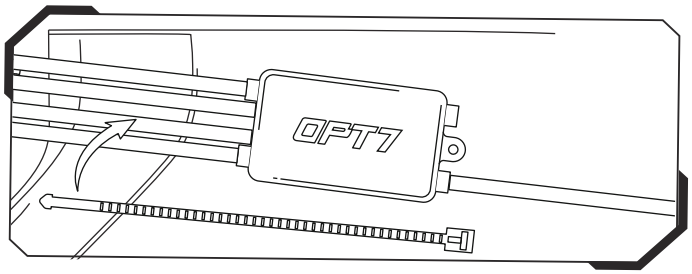

WARNING **Please ensure the Underglow LED Bars / Control Box / Wirings are all mounted away from heated surfaces exceeding from 85°C or 185°F.**

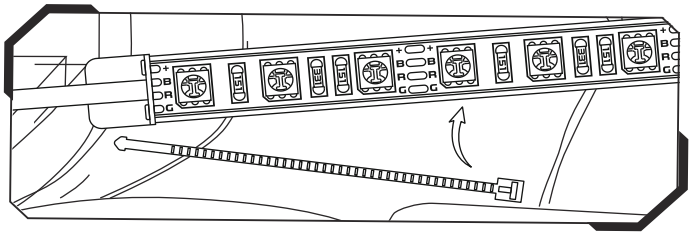

IMPORTANT

BE SURE TO CONFIRM THE CORRECT DIRECTION OF THE ARROW!!
TO AVOID PRODUCT DAMAGE DUE TO INCORRECT INSTALLATION.

CORRECT INSTALLATION

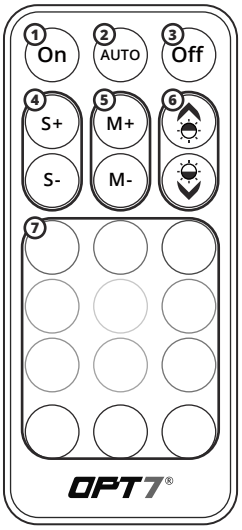

STEP 3

Secure Control box in desired location with Velcro or zipties.

***Ensure the control box is mounted away from water and heated metal surfaces for optimal performance.**

STEP 4

Secure the light bars using the zip ties to tie all the wiring away from the moving components.

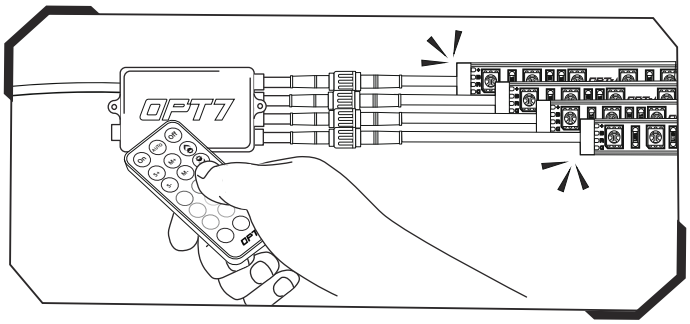

STEP 5

Using the included 21Key E-Z Remote, select your desired color or pattern.

1	Power-ON
2	Automatic Color Change
3	Power-OFF
4	Speed +/- 10 evels
5	Mode +/- 24 Mode
6	Dimmer 10 Levels
7	Color Selection 12 Colors

NOTE: When you use this product, keep it within 10m/33ft as much as possible.

HOW TO PAIR THE REMOTE?

***Pair the Device*:**

To pair the remote, reconnect the power, then aim the remote at the control box and hold the ON button until the LED strips flash white.

Unpair the Device:

To unpair the remote, reconnect the power, then aim the remote at the control box and hold the OFF button until the LED strips flash white.
