CARROPECAS

CARROPECAS AFM/DFM DISABLER USER MANUAL

Enhance Your Ride, Unleash the Power!

1. **Introduction:**

   - The Carropecas AFM/DFM Disabler is meticulously engineered to deactivate the Active Fuel Management (AFM) and Dynamic Fuel Management (DFM) systems in your V6 or V8 GM vehicle.
   - Enjoy continuous operation in full-cylinder mode, saying goodbye to the 4-cylinder mode.

2. **Plug-and-Play Installation:**

   - Effortless installation – simply plug the AFM/DFM Disabler into your OBD-II port.
   - No need for complicated reprogramming of the factory ECU.
   - Rest assured, it won't void your manufacturer's warranty.

3. **Compatibility Assurance:**

   - Check compatibility before purchase for seamless integration.
   - Compatible with most GM V6 and V8 engines.

- Not suitable for 2019+ Silverado and Sierra models (5.3L/3.6L engine, 10-speed transmission) and 2022 Refresh truck or SUV models.

4. User-Friendly Operation:

- Intuitive indicator lights for easy operation.
- Sequential flashing upon insertion, settling into a steady one-light display for connected and operational status.
- Real-time feedback ensures peace of mind.
- Unplug the AFM device if not in use for an extended period.

5. Customer Service:

- 24/7 online customer service.
- Reach out for any queries about the product.
- Enjoy up to one year of free return and exchange service (non-man-made damage) for a worry-free shopping experience.

Experience the Ultimate Performance Upgrade with Carropecas AFM/DFM Disabler – Your Engine, Your Power!
