7.Wind speed adjustment key
8.Power & LED On/Off
9.Type-C to C Charging Port

3. How to Use

Power On/Off

- Power On: Press and hold the power button for 2 seconds to power on the device.
- Power Off: Press and hold the power button for 2 seconds to shut down the device.

Note: for your safety, the device cannot be turned on while charging.

Adjusting the Gear

- After powering on, the product defaults to gear "0". Slide the scroll wheel to the right to adjust the gear up to "100".
- The product features intelligent speed sensing; the gear adjustment speed adapts to the scroll wheel speed.

Turn the Light On/Off

- When the switch is turned on, the lights turn on simultaneously.
- A short press of the switch adjusts the light brightness, cycling through three brightness levels: 1, 2, and 3.
- When the switch is turned off, the lights turn off simultaneously.

LED Display

1.Power on

- The LED light turns on simultaneously when the switch button turns on.
- The LED light turns off simultaneously when the switch button turns off.

After powering on, the screen displays "0.....100" gear, which changes to the battery level indicator after 5 seconds. When the gear adjustment button is pressed, the screen shows the current gear level (0.....100). When the boost mode button is held down, the screen displays "HP", and reverts to showing the current gear level after the boost mode button is released.

2.Charging

When charging, the charging icon blinks and displays the battery level ranging from 0% to 100%.

3.Power Indicator

- After powering on, the LED display activates and shows the remaining battery percentage (0%-100%).
- When battery drops below 20%, the power indicator flashes rapidly.
- While charging, the indicator slowly blinks green.
- At full charge, the indicator remains solid green.

Circular LED Light

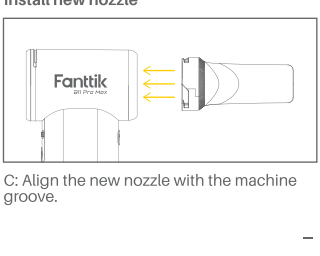

When the battery level drops below 10%, the light turns red to indicate the remaining battery level.

Battery charging

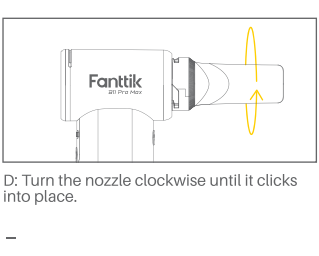

- This device features a Type-C charging port and includes a Type-C cable.
- Note: The power adapter is not included—please use a standard 5V Type-C charger.

4. Nozzle Replacement Procedure

Disassemble the old nozzle

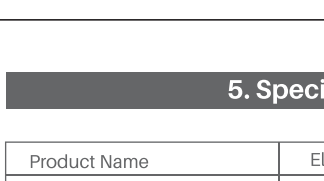

A:Turn the nozzle counterclockwise.

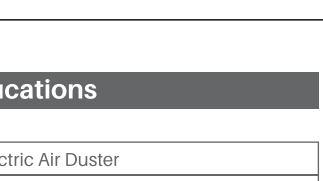

B:Turn the nozzle counterclockwise.

Install new nozzle

C: Align the new nozzle with the machine groove.

D: Turn the nozzle clockwise until it clicks into place.

5. Specifications

Product Name	Electric Air Duster
Product Model	B11 Pro Max
Color	Deep Grey
Product dimension	6.42*2.99*1.93 inches (163*76*49mm)
Net Weight	0.78lb (355 g)
Battery capacity	28.08Wh
Rated Voltage	7.2V
Charging Input /Output	5V ⎓ 3A, 9V ⎓ 2.22A, 12V ⎓ 1.67A
Charging time	2h

6. Trubleshooting

Troubles	Possible Causes	Solutions
