THANK YOU!

Congratulations on your Nuwave® purchase. We know there are many options available and sincerely appreciate the trust you have placed in us.

For the last 30 years, we have committed to introducing products that promote healthy living at affordable prices. By combining the highest quality designs with cutting edge technology, we have always strived to blend feature, function, and innovation into every product we make. We hope you will agree.

We would love to hear from you. Please feel free to reach out with any feedback or comments that could improve your experience. We would also enjoy hearing about your successes. **Scan the QR code below to email us**.

Limited Warranty 17-19

Meets California ozone emissions limit. CARB certified

U.S Environmental Protection Agency

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IMPORTANT SAFEGUARDS

HOUSEHOLD USE ONLY • READ ALL INSTRUCTIONS BEFORE USE

ALWAYS KEEP THIS MANUAL HANDY FOR FUTURE REFERENCE.

READ ALL INSTRUCTIONS and WARNINGS: The failure to follow any of the important safeguards, warnings, or instructions for safe use is a misuse of the OxyPure that can void your warranty and create the risk of serious injury. When using the OxyPure, basic safety precautions should always be followed.

1. **ONLY** use the OxyPure for its intended purpose.
2. To protect against the risk of electrical shock, **DO NOT** immerse the cord, plug, or any part of the OxyPure in water or any other liquid.
3. Close supervision is necessary when the OxyPure is used by or near children. The OxyPure is not intended for use by children, persons with reduced physical, sensory, or mental capabilities, or those who lack expertise or knowledge of this device.
4. **DO NOT** operate the OxyPure with a damaged cord, plug, after any malfunction, or if the unit has been dropped or damaged in any way. Contact Customer Service.
5. Discard the protective plastic covering the power plug before use.
6. **DO NOT** run the cord under carpeting, throw rugs, runners or other coverings.
7. **DO NOT** route the cord under furniture or appliances. Arrange the cord away from high-traffic areas where it will not pose a tripping hazard.
8. **DO NOT** plug the OxyPure into an outlet or power strip that is being used by other appliances.
9. Remove any dust or water from the plug, if needed.
10. **ALWAYS** set up the OxyPure on a flat, stable surface.
11. **DO NOT** set up the OxyPure where it could be pushed, kicked, or tripped over.
12. Leave at least 2-3 feet of space between the OxyPure's vents and any walls.
13. **DO NOT** install the OxyPure near a heating device, flammable or combustible gases or vapors, or in areas exposed to moisture or water.
14. **DO NOT** operate the OxyPure on its side.
15. **DO NOT** place objects on top of the OxyPure.
16. **DO NOT** sit or stand on, or lean against, the OxyPure.
17. Alteration or modification of any part of the OxyPure, or the use of attachments not recommended by the manufacturer, may cause fire, injury, or damage to property.
18. As with most electrical units, electrical parts are live even when the OxyPure is off. Be sure the OxyPure is unplugged when assembling.
19. **DO NOT** use the OxyPure in a factory or industrial setting where machine oil may be present in the air.
20. Turn the power OFF on the OxyPure before unplugging it.
21. **DO NOT** operate the OxyPure if an abnormal sound or motion is detected.
22. Unplug the OxyPure from outlet when the unit is not in use or will be left unattended for an extended period of time; before putting on or taking off parts; when removing or replacing the filters; and before cleaning.

23. If a hard or foreign object comes into contact with the fan, **DO NOT** operate. Turn off and unplug the OxyPure.

24. Inspect the OxyPure for any loose or missing parts before and after each use. If parts are loose, damaged, or missing, contact Customer Service.

25. **DO NOT** pull, lift, drag, pick up, or carry the OxyPure by its cord.

26. **DO NOT** block the air inlet or outlet vents.

27. **DO NOT** operate the OxyPure without filters or the Filter Access Panel in place.

28. **DO NOT** place anything with a strong odor or chemical on or close to the odor sensor.

29. Only use Nuwave brand filters and accessories for the OxyPure model purchased.

FILTER CHANGING PRECAUTIONS

1. Once all filters have been removed, the body of the OxyPure can be washed with warm, soapy water. Dry thoroughly before replacing the filters.
2. **ALWAYS** use rubber gloves when handling the filters.
3. When removing dirty filters, **ALWAYS** do so outside or in a well ventilated area.
4. **ALWAYS** replace your filters with Nuwave filters made for your model of air purifier.

ELECTRICAL INFORMATION

These servicing instructions are for use by qualified personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.

Power-Supply Cords

A short, detachable power-supply cord is provided to reduce the risk of becoming entangled in, or tripping over, a longer cord. Longer detachable power-supply cords or extension cords are available and may be used if care is exercised in their use. If a longer, detachable power-supply cord or extension cord is used:

1. The marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance.
2. The longer cord should be arranged so that it will not drape over any countertop or tabletop where it could be pulled on or tripped over unintentionally.
3. The OxyPure should be operated on a separate electrical outlet from other operating appliances due to wattage limitations.

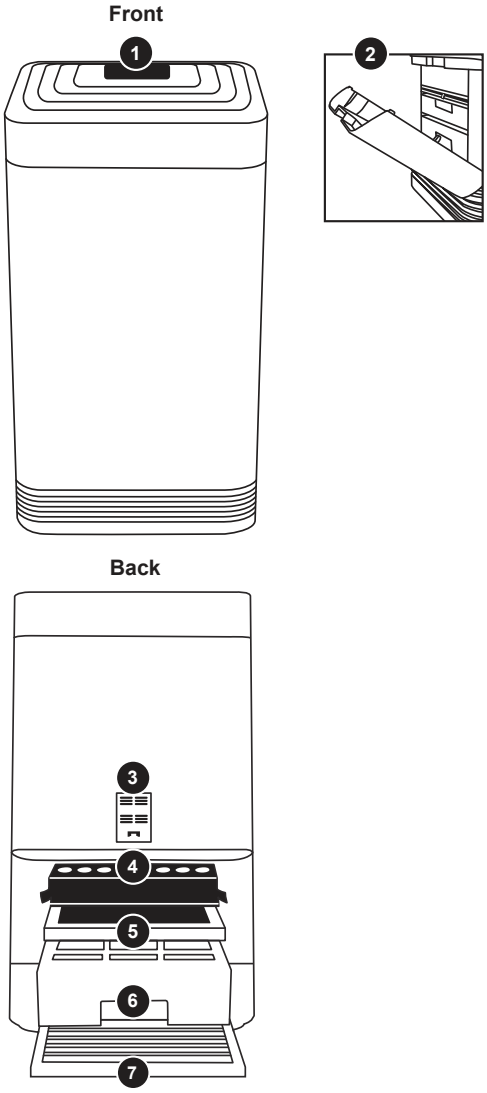

⚠ WARNING

RISK OF ELECTRIC SHOCK: To reduce the risk of electric shock, this equipment has a polarized plug (one blade is wider than the other). This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact qualified personnel to install the proper outlet. **DO NOT** alter the plug in any way.

These servicing instructions are for use by qualified personnel only. To reduce the risk of electric shock, **DO NOT** perform any servicing other than that contained in the operating instructions unless you are qualified to do so.

PARTS

1. **Air Vent**
   Part #: OXA1
2. **Filter Slot Cover**
   Part #: OXP6
3. **Sensor Cover**
   Part #: OXP3
4. **HEPA/Carbon Filter**
   Part #: OXA5
5. **Ozone Emission Removal Filter**
   Part #: OXA6

For All Other Purchases: *help@nuwavenow.com* or order online at ***www.nuwavenow.com***

ASSEMBLY

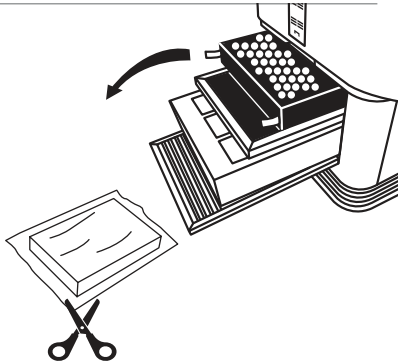

Stainless Steel Pre-Filter | **Bio-Guard™ Filter** | **Ozone Emission Removal Filter** | **HEPA/Carbon Filter**

Before Use:

1. Make sure the OxyPure® is unplugged. Open the panel on the back to expose the filters.
2. Pull the filters from their slots.
3. Remove the plastic wrapping from the filters**.** The Bio-Guard Filter is not wrapped.
4. Fully reinsert the filters into the Oxypure and close the panel.
5. Remove the sticker from the control panel.

Air Filter Assembly

The OxyPure® comes with four different preassembled filters inside the unit (see diagram). Each filter is labeled with a number. Match these with the slot numbers when installing the filters. When the filters require cleaning, please refer to **Cleaning & Maintenance.**

THE NUWAVE CONNECT APP

MONITOR AND CONTROL THE OXYPURE REMOTELY

The OxyPure is equipped to operate using **WI-FI**. This allows you to conveniently operate your new air purifier from nearly any location, whether at home or while you are out and about, as long as you have a reliable Internet connection.

Download the Nuwave Connect App

This is an optional feature that is not required to operate your OxyPure.

Using the QR reader in your Camera App:

Scan the QR code below.

1. It will take you to the App's download page on either the Google Play Store or the Apple AppStore, then just follow the download and installation instructions.

Downloading a QR reader App:

If your phone doesn't have that capability built-in, simply download a 3rd-Party QR Scanning App before scanning the Nuwave QR Codes and you are ready to go.

2. Open your device' mobile app store (Apple App Store or the Google Play Store).

Download on the App Store | ANDROID APP ON Google play

3. Search for "QR code readers."
4. Simply download the QR code reader to your phone, open it, scan the code and you are ready to go.

Wi-Fi

Auto Scan Mode

1. Once you download the Nuwave® Connect app, ensure your phone is connected to your home **Wi-Fi** network on the **2.4G** or **5G** frequency and that your phone's Bluetooth is on.
2. Turn on the OxyPure and activate **Wi-Fi** Pairing Mode by pressing and holding **POWER** until the light next to the **Wi-Fi** symbol begins to blink rapidly.
3. In the Nuwave® Connect app, tap the **+** symbol, then tap **Auto Scan** and select your device.
4. Enter your **Wi-Fi** network's password and tap Confirm. If the connection is successful, the app will display "Added Successfully" on the screen.

WiFi LED Status Light Pairing Mode & Standby Mode
Solid Light. The OxyPure is paired with the **Wi-Fi** network and ready to be used.
Rapid Blinking Light. The OxyPure is in Pairing Mode. The OxyPure will stay in Pairing Mode for up to 10 minutes or until your device is paired.
Slowly Blinking Light. The OxyPure is in AP Pairing Mode.
No Light. The OxyPure's **WiFi** is off.

Trouble Shooting Your Wi-Fi Connection

If the OxyPure did not connect to your network, the **Wi-Fi** light will turn off. Repeat the steps for pairing. Make sure to select the proper **Wi-Fi** network and type the correct password.

THE NUWAVE CONNECT APP

MONITOR AND CONTROL THE OXYPURE REMOTELY

AP Mode

1. If you can't connect your OxyPure using Auto Scan, tap the **+** symbol, then select the OxyPure unit you want to add to the network. AP Mode will be in the top right-hand corner.
2. On the unit press and hold **POWER** 2-3 seconds, then wait until the **Wi-Fi** light blinks. If blinking rapidly, press and hold again then wait for slow blinking to appear. Confirm on the App.
3. Connect your phone to the available hotspot.
4. Once connected, return to the Nuwave Connect App and the unit will begin connecting automatically.
5. When the Oxypure is successfully connected, tap Done.

EZ Mode

1. Tap the **+** symbol, then select the OxyPure unit you want to add to the network.
2. Enter and confirm your **Wi-Fi** network password.
3. Tap AP Mode in the top right of your screen, then select EZ Mode to switch pairing modes.
4. Confirm that the **Wi-Fi** light on your OxyPure is blinking rapidly.
5. Once the OxyPure is connected, tap Done.

OPERATING THE OXYPURE

Air/Odor Quality - Detects particles as small as 2.5/1000mm

Low PM Level — **High PM Level**

Particulate Matter (PM) with a diameter of 2.5 microns or less					
0~5	5~10	10~20	20~30	30~50	Over 50

Fan Speeds					
1	2	3	4	5	6

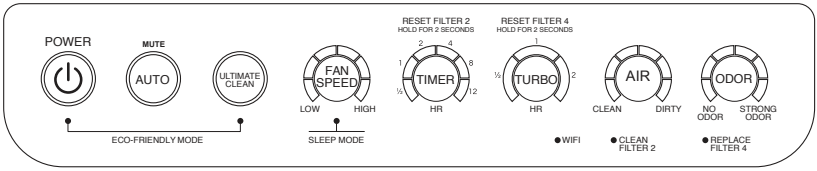

Air and Odor LEDs

The OxyPure will display the Air/Odor quality based on the particulate matter in the air from low to high as represented below. If the PM level in the air exceeds the upper limit of the range, a warning is triggered with a beeping sound and a flashing LED. To turn off this warning, press **AUTO** and **FAN SPEED** at the same time. Press the same buttons to turn the warning feature back on.

Low PM Level — **High PM Level**

OPERATING THE OXYPURE
CONTROL PANEL • POWER • MODES & FUNCTIONS

The OxyPure's control panel allows you to turn the unit on and off, choose an operating mode or function and monitor your filter health.

POWER ON/OFF

Press **POWER** to turn the OxyPure on or off.

- **POWER** will be lit green when on
- **POWER** will be lit red when off.

Note: When powered on, the OxyPure will execute any previously selected functions or modes.

AUTO

When the **AUTO** function is used, the OxyPure will adjust the fan speed automatically dependent on the air quality.

- **AUTO** will be lit in green when selected.
- No time limit unless **TIME** is selected.
- Will not operate together with FAN and ULTIMATE CLEAN Modes.

ULTIMATE CLEAN

When in ULTIMATE CLEAN mode, the OxyPure will automatically adjust to the highest fan speed dependent when poor air quality is detected.

- **ULTIMATE CLEAN** will be lit in green when selected.
- The OxyPure can operate with TURBO and AUTO modes.

SLEEP

When in Sleep Mode the LED lights will be off but the fan will still be active. Adjust the fan speed to your preference prior to going into Sleep Mode.

1. Manually adjust FAN SPEED.
2. Press and hold **FAN SPEED** for 2 seconds to activate SLEEP Mode.
   - The OxyPure will run at the fan speed that was previously selected.
3. To turn off SLEEP Mode, press any button.

Note: ULTIMATE CLEAN and **TURBO** will work while the OxyPure is in SLEEP Mode.

TIMER

Use the Timer function to choose the duration of operation.

1. Press **TIMER**. The bar next to ½ hour will be lit. There are 6 preset times to choose from the bar will be lit green for the selected time: ½ hour, 1, 2, 4, 8, or 12 hours.
2. Press **TIMER** to increase the time.
3. To turn off the TIMER, press **TIMER** one time when the 12 is lit, no bars will are now lit.

MUTE

Press and hold **AUTO** for 2 seconds, a beep will be heard. Repeat to unmute.

FAN SPEED

You can adjust from 6 different speeds.

1. Press **FAN SPEED** to adjust.

- The fan cannot be turned off.
- The lowest fan speed will be 1 bar lit.

TURBO

The Turbo function cleans your air using the highest fan speed at the time selected.

1. Press **TURBO** to the amount of working time desired.
2. To exit **TURBO**, press **TURBO** until no bars are lit.

AIR QUALITY INDICATORS

The OxyPure will automatically measure and display the current air quality in the room.

CLEAN AND REPLACE FILTER INDICATORS

The lights next to **CLEAN FILTER 2** and **REPLACE FILTER 4** will illuminate, indicating that your filters will need to be cleaned or replaced.

2 BUTTONS FUNCTIONS

ECO-FRIENDLY MODE

Allows you to save energy by turning off the OxyPure fan and lights until poor air quality is detected. While in Eco Mode, the fan will automatically run when the PM level is high and will remain off when the PM level is low.

1. Press **POWER** and **ULTIMATE CLEAN** at the same time, the **POWER** will be backlit yellow.
2. To tun off Eco-Friendly Mode, tap **POWER** and **ULTIMATE CLEAN** at the same time. The Power button will be lit red.

TURBO with TIMER

To operate longer than 2 hours.

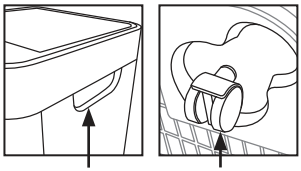

1. Press **TURBO** to 2 hours.
2. Press **TIMER** and set the additional time desired.

Clean Filter 2 Schedule		
3 Months	**Yellow**	Routine cleaning.
6 Months	**Orange**	Should be cleaned for continued efficiency.
12 Months	**Red**	Clean for optimal performance especially if the first 2 were missed.

Replace Filter 4 Schedule	
Green	Should be cleaned for optimal efficiency.
Red	Need to replace for efficiency.

CLEANING & MAINTENANCE

Your OxyPure can easily be moved from one location to another. Just hold the OxyPure by the handles on each side and roll the OxyPure to the chosen location. The wheels underneath provide extra maneuverability and mobility whenever it's needed.

Before First Use

Wipe the Top Vent and In Flow Vent with a slightly damp cloth or paper towel. Dry thoroughly before use.

After Use

Your OxyPure should be cleaned periodically and after excessive use to ensure proper performance and function. Be sure the OxyPure is off and unplugged.

Cleaning the Base of the OxyPure

Use a cloth, paper towel, duster, or vacuum brush attachment to remove dust and other particles from the vents. Clean tougher buildup with a dampened cloth with soap and warm water. Dry thoroughly.

FILTERS

Air purifiers operate more efficiently when all windows and doors are closed. The OxyPure can purify the air in extra-large rooms (up to 2,671sq.ft.per hour).

Pre Filter

Stainless Steel Pre-Filter: Washable and reusable.
Captures and collects large particles and allergens including pet hair, dander, and pollen.

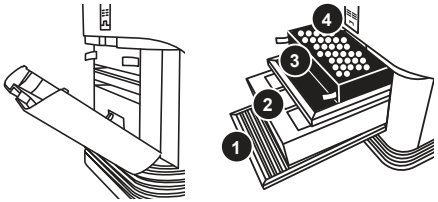

Bio-Guard™ Filter

Bio-Guard™ Filter: Washable and reusable.
8,000V, positive and negative charges capture particles as small as 0.1 microns, as well as smoke, pollen, and allergens.

Ozone Emission Removal Filter

Ozone Emission Removal Filter: Reusable. DO NOT wash.
Eliminates ozone emissions and other harmful airborne chemicals.

HEPA/Carbon Filter: Disposable. DO NOT wash
Captures and traps pollen, allergens, industrial emissions, VOCs including formaldehydes, household fumes, odors and nitrogen dioxides from gas stoves and car exhausts.

1. Remove the Filter Slot Cover in the rear of the OxyPure using its built-in handle.
2. Slide out the filters that need cleaning or replacement.
3. Allow the washable filters to dry completely before you reinstall them.

• Ensure the Filter Slot Cover is properly aligned and secure when reattaching.

IMPORTANT: ALWAYS allow at least 12-24 hours for filters to dry before re-inserting into the Oxypure. Do not dry filters in direct sunlight or heat source. Air dry only.

CLEANING & MAINTENANCE

CLEAN THE PRE FILTER:

Pre Filter

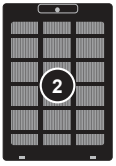

1. Use a vacuum with a brush attachment.
2. Clean the Filter with warm soapy water.
3. Rinse the Filter thoroughly and remove any soap particles.
4. Allow the Filter to dry completely BEFORE placing it into slot 1 using the tabs.

CLEAN FILTER 2

This indicates the **Bio-Guard™ Filter** should or must be cleaned (see Cleaning Chart).

Clean Filter 2 Schedule		
3 Months	**Yellow**	Routine cleaning.
6 Months	**Orange**	Should be cleaned for continued efficiency.
12 Months	**Red**	Clean for optimal performance especially if the first 2 were missed.

Clean the Bio-Guard™ Filter:

Bio-Guard™ Filter

1. Remove the Filter.
2. Spray the Filter with a mild degreaser or dish soap and let it sit for 2-3 minutes.
3. Submerge the Filter in warm water, shake, and remove.
4. Repeat this process until the Filter water is clean.
5. Rinse the Filter with warm water. Repeat as needed.
6. Dry the Filter completely before inserting into slot 2.

Clean Filter Indicator

- **Note:** The **Bio-Guard™ Filter** may discolor and retain odor after **prolonged exposure** to thick smoke and strong odors. This prolonged exposure will require more frequent cleanings to ensure maximum filtration efficiency.

CLEAN THE OZONE EMISSION REMOVAL FILTER:

⚠ WARNING

DO NOT Immerse, wash or wipe with water, this will result in permanent damage to the **Ozone Filter**. It must be replaced!

1. Remove the Filter using the tabs.
2. Thoroughly clean the Filter using a nonabrasive brush or soft, clean, dry cloth.
3. Repeat this process on the other side.
4. Using the tabs, replace into slot 3.

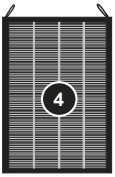

Ozone Emission Removal Filter

REPLACE FILTER 4

Indicates the **Hepa/Carbon Filter** should or must be replaced.

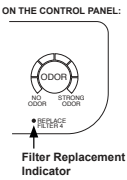

Replace Filter 4 Schedule	
Green	Should be cleaned for optimal efficiency.
Red	Need to replace for efficiency.

1. Turn off and unplug the unit. Using the tabs remove the **Hepa/Carbon Filter** and place in a disposable bag.
2. Unwrap the new filter and slide into slot 4. Be sure the tabs are visible.

HEPA/Carbon Filter

IMPORTANT: NEVER Insert a wet or damp filter into the OxyPure.

Filter Replacement Indicator

CLEANING & MAINTENANCE

Resetting the Filter and Air Quality Indicators

Filter 2: Press and hold **TIMER** for 2 seconds or until a beep is heard.

- The Filter is reset when the first bar around **AIR** is lit green.

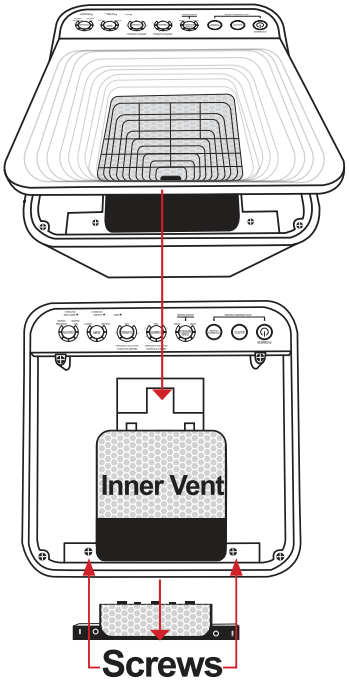

For Filter 4: Press and hold **TURBO** for 2 seconds until a beep is heard.

- The Filter is reset when the first bar around **ODOR** is lit green.

Cleaning the Top Vent

The Top Vent of your OxyPure can be removed to clean with mild soapy water and dried thoroughly.

To clean the surface underneath and Inner Vent Screen.

1. Turn the OxyPure off and unplug it from the wall outlet.
2. Lift the Top Vent using the built-in tab.
3. Using a Using a vacuum with brush attachment or duster, clean any dust or accumulated particles from the surface an Inner Vent Screen.

To clean the inner wall opposite of the fan or to remove an object that has fallen through the Inner Vent Screen.

1. After removing the Top Vent, locate the two screws.
2. Use a Phillips screwdriver to loosen the two screws (only).
3. Lift up the Inner Vent Screen.
4. After cleaning the inner wall with a soft cloth or paper towel, or duster. Reassemble the Inner Vent, retightening the two screws, and replace the Top Vent.

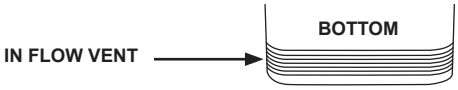

- Make sure all parts are secure before plugging in the OxyPure and turning it on again.

Note: DO NOT unscrew the four outer screws located toward the corners. Doing so will void your warranty.

CLEANING & MAINTENANCE

Cleaning the Inflow Vent

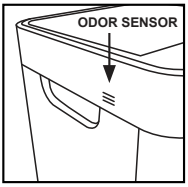

The Inflow Vent is located at the bottom of the unit as shown.

1. Turn off and unplug the OxyPure.
2. Use a vacuum with a brush attachmenT to remove any dust and debris.
3. If needed, use a paper towel or cloth slightly dampened to remove heavier buildup.

- **DO NOT** use any harsh abrasives or cleaning pads on the Top Vent or any other part of the OxyPure.

Cleaning the Odor Sensor Opening

The Odor Sensor is located on the upper right side corner of the OxyPure underneath the small grill opening. Dust and debris may accumulate.

1. Use a vacuum brush attachment and gently brush the grill.

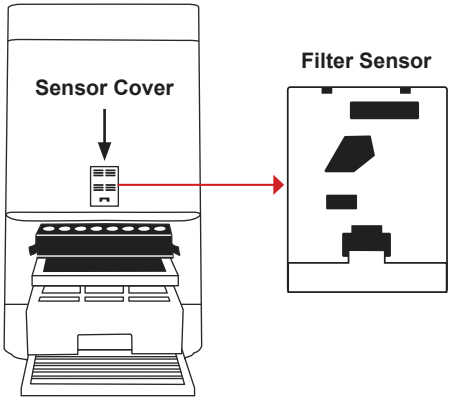

- **Be careful** when using sprays. **DO NOT** spray on or close to the odor sensor. Spray at least 3 feet away and not in the direction of the Odor Sensor.

Cleaning the Filter Sensor

The Filter Sensor is located on the back, above the Filter Slot Cover.

1. Open the Sensor Cover.
2. Using a dry cotton swab or small, soft brush, gently remove any dirt or dust from the Sensor.
3. For heavier buildup on the Sensor, wipe it with a slightly wet cotton swab.
4. Remove any moisture with a dry cotton swab.

- The Filter Sensor requires regular cleaning (approx. every 3 months) for the OxyPure to operate efficiently.
- If your OxyPure is set up in an area with high dust accumulation, more frequent cleaning of the Filter Sensor is needed.
- **DO NOT** use the cotton swab on any part or area other than the Filter Sensor.

Note: DO NOT immerse the OxyPure in water. Clean with a damp sponge or cloth and wipe dry. Make sure all parts and covers are securely attached.

TROUBLESHOOTING GUIDE

The OxyPure does not turn on.

1. The plug is not in the wall outlet. Plug into wall outlet.
2. POWER on the touchpad panel is not on. Press **POWER**.
3. The Filter Slot Cover in the back rear is off or loose. Make sure Filter Slot Cover is on securely.

TIMER does not work when pressed.

The OxyPure is not reading the function selected.
Press **FAN SPEED** or **AUTO**, then press **TIMER**.

The fans are not blowing.

1. An appropriate outlet is not being used. Make sure the outlet has appropriate voltage for use.
2. The Filter Slot Cover in back rear is not properly in place. Make sure the Filter Slot Cover is on securely.
3. Check the Air Vent for obstructions.

Speed of the airflow is not changing when FAN SPEED is pressed.

The OxyPure may be in AUTO mode. Set the OxyPure to another operating mode on the touchpad then press **FAN SPEED**

Airflow from the Top Vent is weak.

The air filter(s) are dirty. Change or clean the air filters.

The OxyPure is producing smoke or odor.

The air filter(s) are dirty. Change or clean the air filters. If the problem continues, contact Customer Service.

CLEAN and REPLACE FILTER Indicators have not reset after the filter(s) have been cleaned or changed.

1. The Filter Sensor is not reading the new filter. Turn the OxyPure off then on again. Press and hold down **TIMER** and/or **TURBO** for 2 seconds until a beep is heard.
2. Turn the OxyPure off, unplug and adjust the filter(s). Plug in and turn the OxyPure ON again.
3. The Filter Slot Cover in back rear is not securely in place. Make sure Filter Slot Cover is on securely.
4. The Filter Sensor is dirty. Clean the Filter Sensor.

ULTIMATE CLEAN does not come on when pressed.

The OxyPure is not reading the function selected. Turn the OxyPure on and off by pressing **POWER** twice.

Power is blinking red.

1. The Bio-Guard™ filter is not properly installed or is loose. Turn off and unplug the OxyPure. Check that the filters are properly installed and are not loose. Plug in the OxyPure and press **POWER** to turn it on.
2. When the Filter Slot Cover is removed, POWER will be backlit solid red. Pressing **POWER** will make it blink. However, as a safety measure, the OxyPure will not operate when the Filter Slot Cover is removed. Ensure that Filter Slot Cover is installed securely.

The Odor Sensor is not resetting itself and not clearing all bars on the AIR and ODOR indicators. All bars on the control panel are flashing.

Run the OxyPure without selecting any functions for 8 hours or overnight. Clean the Dust Sensor using a vacuum with a brush attachment on a low setting. If the problem persists, contact Customer Service.

LIMITED WARRANTY

THE MANUFACTURER WARRANTS

Nuwave, LLC warrants that OxyPure® Smart Air Purifier will be free from manufacturer defects for 1 years from the date of purchase, under normal household use, and when operated in accordance with the Manufacturer's written instructions. The Limited Warranty covers the Original Purchaser only. The Manufacturer will provide the necessary parts and labor to repair the product at the Nuwave LLC Service Department. After the expiration of the warranty, the cost of the parts and labor will be the responsibility of the owner.

THE WARRANTY DOES NOT COVER

The Limited Warranty is voided if repairs are made by an unauthorized dealer, or the serial number data plate is removed or defaced. Normal deterioration of finish due to use or exposure is not covered by this Warranty. This Limited Warranty does not cover failure, damages, or inadequate performance due to accident, acts of God (such as lightning), fluctuations in electric power; alterations, abuse, misuse, misapplications, corrosive-type atmospheres, improper installation; failure to operate and maintain the unit in accordance with the Manufacturer's written instructions; failure to regularly clean and maintain the unit and reusable filters, and to replace the disposable filters in accordance with the Manufacturer's written instructions; abnormal, commercial, or rental uses; or resold units. Nuwave LLC reserves the right to void the Limited Warranty, where allowable by law, for products purchased from an unauthorized dealer.

TO OBTAIN SERVICE

The owner shall have the obligation and responsibility to pay for all services and parts not covered by the warranty; prepay the freight to and from Service Department for any part or system returned under this warranty; and carefully package the product using adequate padding material to prevent damage in transit. The original container is ideal for this purpose. Include in the package the owner's name, address, daytime telephone number, a detailed description of the problem, and RGA (Return Goods authorization number). To obtain the RGA number, email us at:

For Amazon Purchases: support@nuwavenow.com
For All Other Purchases: help@nuwavenow.com

Provide the product model & serial number and proof of date of purchase (a copy of the receipt) when making claims under this warranty.

MANUFACTURER'S OBLIGATION

The Manufacturer's obligation under this Limited Warranty is limited, to the extent allowable by law, to repairing or replacing any part covered by this Limited Warranty which upon examination is found to be defective under normal use. The Limited Warranty is applicable only within the continental United States and only to the original purchaser of the manufacturer's authorized channels of distribution. **THE LIMITED WARRANTY MAY NOT BE ALTERED, VARIED OR EXTENDED EXCEPT BY A WRITTEN INSTRUMENT EXECUTED BY THE MANUFACTURER. THE REMEDY OF REPAIR OR REPLACEMENT AS PROVIDED UNDER THIS LIMITED WARRANTY IS EXCLUSIVE. IN NO EVENT SHALL THE MANUFACTURER BE LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES TO ANY PERSON, WHETHER OR NOT OCCASIONED BY NEGLIGENCE OF THE MANUFACTURER, INCLUDING WITHOUT LIMITATION, DAMAGES FOR LOSS OF USE, COSTS OF SUBSTITUTION, PROPERTY DAMAGE, OR OTHER MONEY LOSS.** Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation exclusions may not apply. This Limited Warranty gives specific legal rights, and there may also be other rights which vary from state to state.

LIMITED WARRANTY

EXCEPT AS OTHERWISE EXPRESSLY PROVIDED ABOVE, THE MANUFACTURER MAKES NO WARRANTIES EXPRESSED OR IMPLIED ARISING BY LAW OR OTHERWISE, INCLUDING WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE TO ANY OTHER PERSON. READ YOUR OWNER'S MANUAL. IF YOU STILL HAVE ANY QUESTIONS ABOUT OPERATION OR WARRANTY OF THE PRODUCT, PLEASE CONTACT NUWAVE LLC.

DISPUTE RESOLUTION PROCEDURE

For disputes relating to use of the website or use or purchase of a Nuwave product or service (collectively "Disputes"), you agree to first contact Nuwave LLC at *legal@nuwavenow.com*. If we cannot resolve your dispute informally, any and all disputes shall be submitted to final and binding arbitration. You may start the arbitration process by submitting in writing a demand to the American Arbitration Association ("AAA") and sending a copy to Nuwave. Nuwave will pay all filing costs. A single arbitrator of the AAA will conduct the arbitration in a location convenient to you or by phone. The arbitrator's award will be binding and may be entered as a judgment in a court of competent jurisdiction. The arbitration will be conducted in accordance with the provisions of AAA's Commercial Arbitration Rules and Mediation Procedures in effect at the time of submission of your demand for arbitration. See *https://www.adr.org/sites/default/files/CommercialRules_Web.pdf*. Except as may be required by law as determined by an arbitrator, no party or arbitrator may disclose the existence, content, or results of any arbitration hereunder without prior written consent of both parties.

A. WAIVER OF RIGHT TO SUE. By agreeing to arbitration, you understand that, to the maximum extent permitted by law, you are agreeing to waive your right to file suit in any court, to a court hearing, a judge trial, or a jury trial.

B. CLASS ACTION WAIVER. To the maximum extent permitted by law, you expressly agree to refrain from bringing or joining any claims in any representative or class-wide capacity, including but not limited to, bringing or joining any claims in any class action or class-wide arbitration.

C. OPT OUT PROCEDURE. To request to opt out of arbitration you must contact Nuwave LLC at *legal@nuwavenow.com*, Nuwave LLC, 560 Bunker Ct., Vernon Hills, IL 60061, U.S.A. You will have thirty (30) days from the date of product delivery to opt out of arbitration with respect to any dispute arising out of or relating to use or purchase of any Nuwave product. If more than 30 days have passed, you are not eligible to opt out of arbitration and will have waived your right to sue or participate in a class action with respect to the dispute arising out of your purchase or use of a Nuwave product. For any dispute arising out of your use of Nuwave's website, you have thirty (30) days from the date you provided information to the website to opt out of arbitration. If more than 30 days have passed, you are not eligible to opt out of arbitration and you will have waived your right to sue and participate in a class action with respect to the dispute arising out of your use of Nuwave's website.

D. SOME MATTERS ARE NOT SUBJECT TO ARBITRATION. Notwithstanding the foregoing, the following shall not be subject to arbitration and may be adjudicated only in the state and federal courts of Illinois: (i) any dispute, controversy, or claim relating to or contesting the validity of our intellectual property rights and proprietary rights, including without limitation, patents, trademarks, service marks, copyrights, or trade secrets; (ii) an action by a party for temporary, preliminary, or permanent injunctive relief, whether prohibitive or mandatory, or other provisional relief; or (iii) interactions with governmental and regulatory authorities. You expressly agree to refrain from bringing or joining any claims in any representative or class-wide capacity, including but not limited to, bringing or joining any claims in any class action or any class-wide arbitration.
