How to Download the GHome App

Option 1: Search for "GHome" in the Apple APP Store or Google Play.

Option 2: Scan the QR code to enter the download page.

How to Pair with the GHome App

1. Open the APP and create your account.
2. Turn on the plug and put it close to the router when pairing.
3. Press and hold the ON/OFF button for 5 seconds and release it when the plug starts blinking fast to enter the network pairing mode.

You can add a device in two ways.

Option 1. Tap "+" on the upper right corner and select "Auto Scan".

Option 2. Tap "+" on the upper right corner to select "Add Manually", and then select "Socket (Wi-Fi)".

Follow the App instructions to complete the operation.

Reset

Network Pairing Mode

After the socket is powered on, press and hold the pairing button for 5 seconds until the socket blinks fast.

The network needs to be reconfigured when the socket is in a new network environment.

Warnings

Important!

Keep it out of the reach of children and pets.

Do not use this product in humid environments or outdoors. It's for indoor use only.

Do not place this product near devices, such as microwave ovens, stoves, or radiators.

Protect the product from extreme temperatures, direct sunlight, strong jolts, high humidity, moisture,

flammable gases, vapors and solvents.

Do not disassemble, modify, or repair your device, and ask help from the authorized professionals for device malfunction.

Do not use the device when it is no longer working properly or visibly damaged.

Do not store the device for extended periods in poor ambient conditions.

Do not insert your device to another one.

Never use aggressive detergents such as alcohol or other chemical solutions because these could damage the casing or even impair the functioning of the product.

Note: The image shown in the manual is indicative only. If there is inconsistent between the image and the actual product, the actual product shall govern.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and(2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Warning Statements:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.
