Treadmill Zwift Connection Procedure

Step 1: Open Zwift and log in to your account. Once logged in, click on the arrow next to your username → Navigate to the pairing settings and select the running mode, then click on "Treadmill".

Step 2: Wait for the Bluetooth search to complete → Tap on "Linker" → After successful selection, click on "OK" → Choose your preferred mode.

Step 3: Click on "Start Running" → Select your preferred route and then click on "Start Workout" → After data synchronization, the connection is complete.
