CHAMBERLAIN®

MyQ Garage™

Compatibility Guide

System Requirements:

Sectional Garage Door

Sectional Door

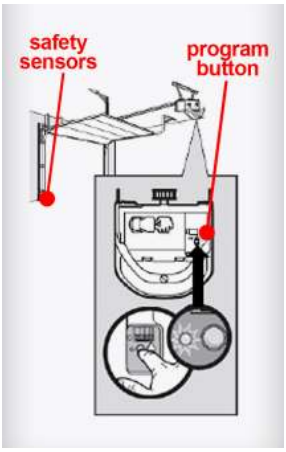

1-Piece Door

Wi-Fi Signal in the Garage

The range of your Wi-Fi will depend on the thickness and number of walls, doors or other barriers between your router and garage, but the average range is about 50-100 feet from the Wi-Fi router. To test if it will work, take your smartphone into the garage and turn on Wi-Fi to be sure you get a signal. If you don't get enough range, you can add a Wi-Fi range extender readily available at most consumer electronics stores.

Compatible Garage Door Opener

Your garage door opener must have safety reversing sensors which can be found at the bottom of the track of the door. These sensor prevent the door from closing when there is something blocking the path of the door.

Most garage door openers manufactured by the following brands are compatible: **Chamberlain, Craftsman, Genie, LiftMaster, Linear, Overhead Door, Raynor, Stanley, Wayne Dalton.**

Chamberlain: all garage door openers with the following program button colors on the motor portion of the operator: yellow, purple, orange, green and red.

Craftsman: all garage door openers with the following program button colors on the motor portion of the operator: yellow, purple, orange, green and red.

Genie: all garage door openers manufactured after 1996 (Intellicode 1 and Intellicode 2)

LiftMaster: all garage door openers with the following program button colors on the motor portion of the operator: yellow, purple, orange, green and red.

Linear: all garage door openers

Overhead Door: all garage door openers manufactured after 1996 (Intellicode 1 and Intellicode 2)

Raynor: all garage door openers with the following program button colors on the motor portion of the operator: yellow, purple, orange, green and red.

Stanley: all garage door openers with a program (remote transmitter learn) button on the motor portion of the operator

Wayne Dalton: most models including Classic Drive, DoorMaster, iDrive, ProDrive and Quantum.
