INTRODUCTION

Thank you for your purchase of the ONAMOR Ozone Generator! We are committed to providing innovative and safe designs that can improve your health and quality of life. Please feel free to contact us with any questions or concerns you might have.

Email: customer.us@namorstar.com

HOW OZONE WORKS

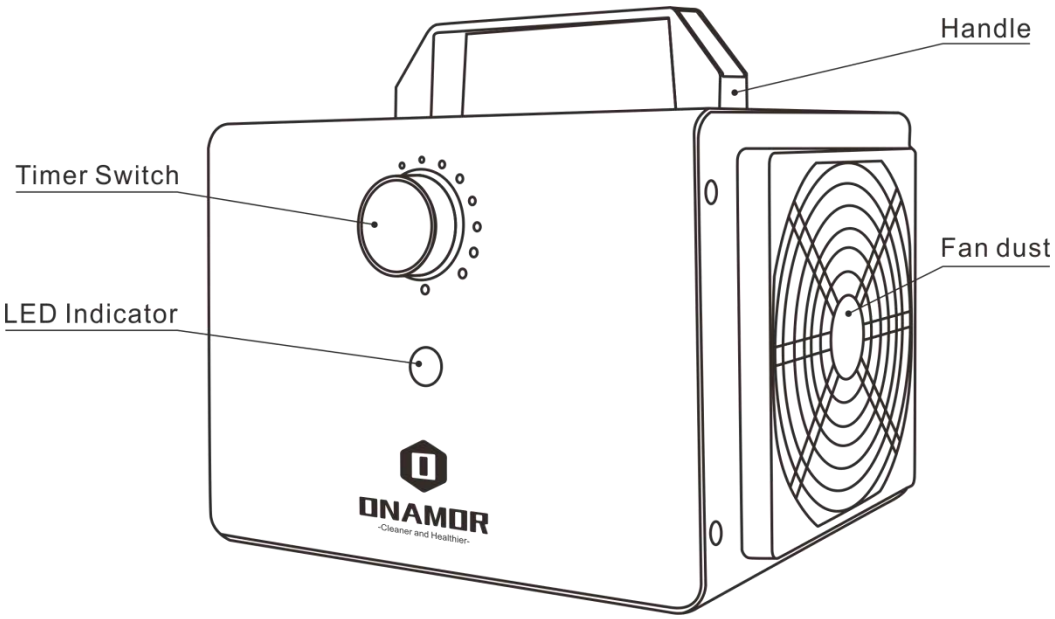

1. The Ozone generator creates O_3 in a special process that uses electricity to turn oxygen into Ozone.
2. O_3 is effective to clean by decomposing odors and other pollutants from the source. When pollutants meet ozone, oxidation occurs and both parties are destroyed, while the O_3 will turn into oxygen naturally in about 30 minutes.
3. As a natural air cleaner, O_3 can be created by nature in many ways. For example, we've all taken a walk after a thunderstorm and experienced the clean, fresh smell in the air. That's O_3 at work.

SPECIFICATIONS&COMPONENTS

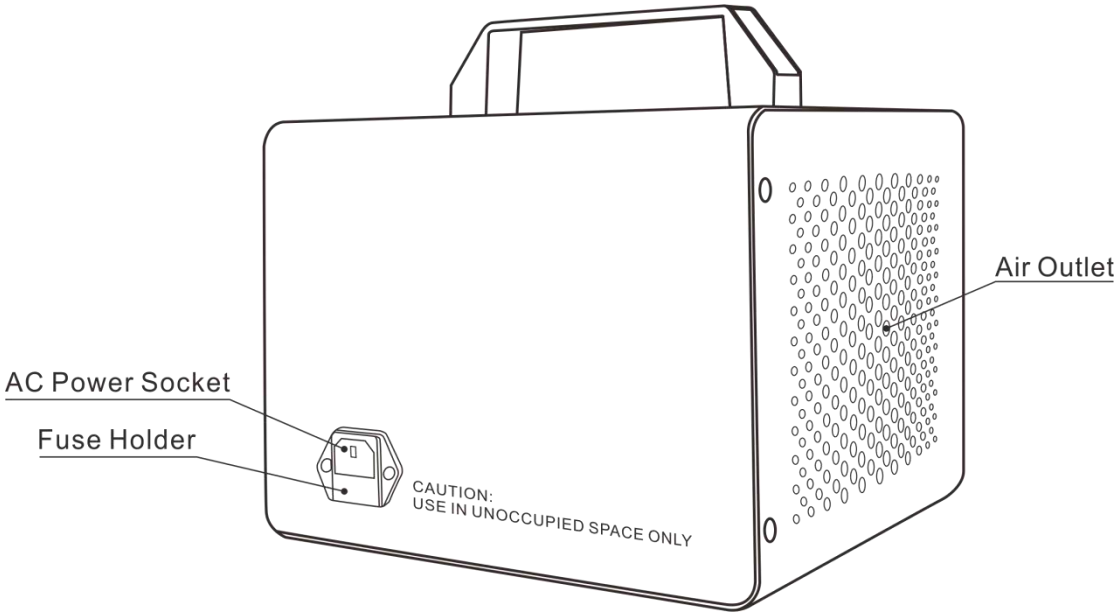

Model	NM-006	NM-007	NM-008	NM-009
Power	55W	80W	100W	100W
Power Supply	AC 110-120V 50-60Hz. (for US and CA Models)			
Air Flow Volume	Max 106 CFM			
Noise	＜45dB Max			
Timer	0-180 Minute/HOLD			
Unit Dimensions	240*225*198mm 9.5*9.0*7.8inches			
Weight: N.E/G.W	2.2kg/2.65kg（4.85ponuds/5.85ponuds）			
Ozone Generator	1 PCS			
AC Power Cable	1.5m*1 PCS			
Manual	1 PCS			
Warning card	1 PCS			

FEATURES

FRONT

BACK

• **Brand new design:** Horizontal air duct design, no ozone will be blown directly on the face during operation.
• **Rugged and durable:** Practical and exquisite metal shell and handle, long-life ozone sheet, durable and easy to clean.
• **Powerful functions:** Low noise, large air volume, quick heat dissipation and easy maintenance.
• **Safety:** The heat sink reduces the heat on the ozone board and prolongs the service life.
• **Easy to use:** The timer knob can be set for up to 180 minutes, and the "HOLD" setting can also be used to continuously produce ozone.
• Utilizing controlled corona discharge ozone technology developed.
• Stainless steel pre-filter to remove large particle.
• Protect plastic box for timer and switch, more reliable.

APPLICATIONS

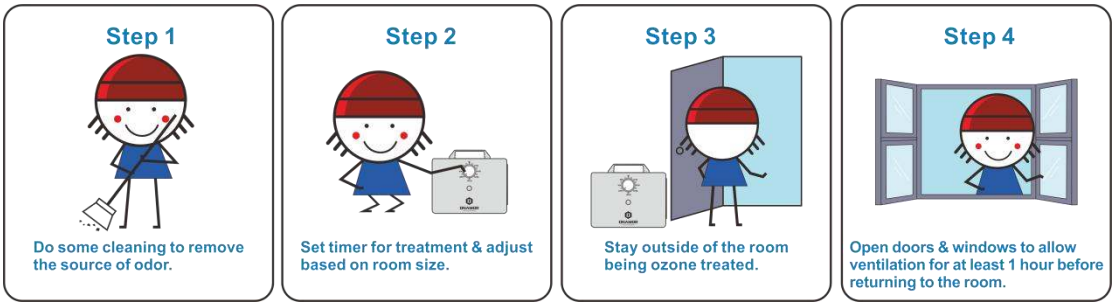

Scope:

Where?
- ✓ Home & Kitchen
- ✓ Offices & Stores
- ✓ Cars Boats
- ✓ Hotels Restaurants
- ✓ Hospitals Clinics
- ✓ Attics & Basements
- ✓ Bars

Against what?
- ✓ Pet Odors
- ✓ Cooking Odors
- ✓ Musty Smell
- ✓ Smoking Smell
- ✓ Chemical Odors (Formaldehyde)
- ✓ Virus
- ✓ Bacteria

USING YOUR OZONE GENERATOR

1. Before beginning ozone treatment, thoroughly clean up the source of the odor first. And then close doors and windows, making sure the room is sealed completely.
2. Insert the power cord into an electrical outlet. Set a timer to desired time and leave the room. The unit will produce ozone according to the default settings.
3. Allow 40 minutes before re-entering the treated space.
★ **Please note that all ozone machines have to be used in unoccupied spaces only. (Make sure no humans, animals, or pets are present in the area before starting the treatment.)**
★ In such environments as motels that have individual heating and cooling systems, turn the fan on and set it on re-circulate.
★ When placing the device, set it on top of something solid to give it a steady base and prevent it from tipping over.
★ Place the unit at least 15 inches away from TVs, radios, and other electronic products. Make sure there's plenty of space to spread Ozone. Position the unit as close as possible to the odor source.
★ **DISCLAIMER**
Please make sure the operating voltage is the same as shown on the parametric label.
This unit will not work properly with external devices that alter or convert voltage or frequency of electricity.

OPERATING

Timer

When the rotary switch is kept at HOLD, the device will keep working until the switch is turned off manually or the device will not shut down and stop working (use this function, please remember to turn off the machine manually).
You can set the working time of the device from 0 to 180 minutes according to your needs. When the set time is over, the machine will automatically shut down.

Treatment Reference					
Treatment Time	30mins	60mins	90mins	150 mins	180 mins
Room Size	0-200 Sqft	200-500 Sqft	500-1000 Sqft	1000-2000 Sqft	2000+ Sqft
Location	Car Kitchen Bedroom	Boat Garage Basement	Living room Office Bar	Pet Clinic Dining hall	Farm Supermarket

★ **FREQUENCY:**
It depends on your needs. At least once a week to keep fresh air indoors.

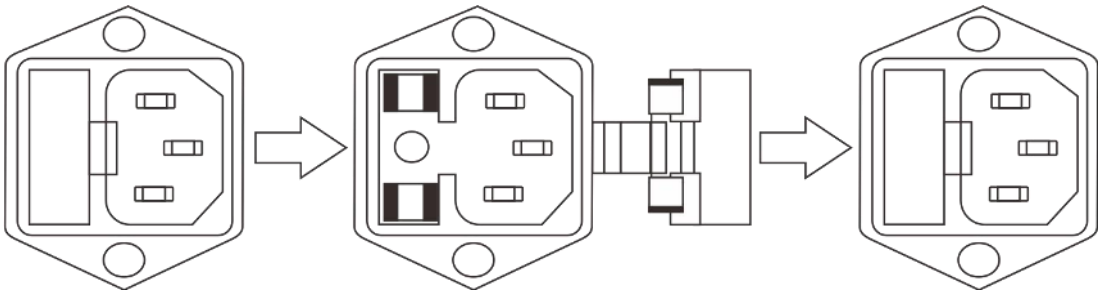

★ **ATTENTION:**
Use in unoccupied space ONLY!
There might be an ozone smell remaining in the room after treatment. Open doors and windows to ventilate for at least 40 minutes (or longer according to your treatment time and room area)after the treatment and before people return to the space.

★ **STORAGE:**
If you are not going to use the product for an extended period of time, unplug it from the electrical outlet, clean and store it in a cool and dry place out of direct sunlight.

CAUTIONS

- Never use the product when people or pets are around.
- Exposed to high concentration of Ozone will be harmful. Make sure all Ozone is converted to oxygen before you enter the space, which takes approximately 30 minutes.
- Do not insert objects into the air filter.
- No covering it by placing on a soft surface or in a position where it will be blocked by an object (common objects: magazine, tissue paper, hair and anything similar)..
- Do not operate this device near fire.
- Keep away from children. It is NOT a toy!
- This product is for indoor use.

REPLACING THE FUSE

Fuse holder(located on the back of the unit next to the power cord)

※ How to replace the fuse:

- **To replace fuse, pull out the plastic fuse holder**
- **Remove old fuse and insert new fuse**
- **Replacement fuse must be 1 or 2 amp(0.97inch)**

TROUBLE SHOOTING

Unit fails to turn on or doesn't produce ozone???

※ If you suspect a problem with your unit check the following:

Unit is plugged in properly.

1. It's important that the Commercial Air Purifier be properly grounded to avoid potential shock.
2. Fuse is installed properly and in good condition.
3. If these solutions don't fix your problem, please contact your authorized distributor for a repair or replacement

★ Do not open the machine privately for maintenance

WARRANTY AND SERVICE

Thank you for choosing ONAMOR Ozone Generator. We guarantee your investment in our product is a solid one. Extensive thought, research, planning and design goes into every product we make. High quality components combined with precision manufacturing allows us to maintain the highest possible production standards. All items are guaranteed against detects in materials and craftsmanship.

ONAMOR's products come with a complete 18-month warranty. This warranty is non-transferable and proof of purchase required when seeking warranty assistance. ONAMOR features outstanding quality control. If something goes wrong with any of our products, we will repair it freely. If the product cannot be repaired, we will replace the

product. If the product has been discontinued, we will replace the product with either the newest version of mentioned product or current equivalent.
If any situation your purchase displays a manufacturer's defect during the warranty period and does not function correctly, please contact our service team via: customer.us@namorstar.com.

WARRANTY CARD

Hey there,

Thank you for purchasing an ONAMOR Product!

1 –year Extended Warranty

Your comments are very helpful to us. If you make valuable comments on our products within one month after purchase, we will extend the warranty period for you for 1 year free of charge.

◆ Customer Support
Don't know how to operate?
Any defect with your package?
Not satisfied with your unit?

If you said yes to any of the above questions, we are here to help!
