SonicStage

realONE PLAYER

moodlogic™

Net MD Simple Burner

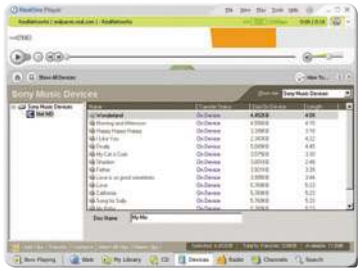

Net MD Simple Burner is a CD dubbing application that enables you to quickly copy your CD tracks directly to your Net MD Walkman recorder via your PC's CD-ROM drive. The application does not record music to your hard drive, saving you valuable time and disk space. Features such as CDDB2 CD titling access, on-screen editing capability, and high-speed USB connectivity make Simple Burner an easy-to-use solution for transferring CD tracks to your Net MD Walkman recorder.

The Simple Burner application is contained on the enclosed CD-ROM.

- Refer to the enclosed Net MD Simple Burner "How to Install" guide for installation steps.
- Refer to the enclosed Net MD Simple Burner "Operating Instructions" guide for operation steps.

RealOne® Player

A FREE plug-in is available to enable your Net MD Walkman recorder to be compatible with RealOne Player. RealOne Player is a popular, easy-to-use application that supports most audio formats including MP3, WMA, WAV, and CD Digital Audio. Utilize RealOne Player to find, play, organize, and transfer audio content stored on your hard drive. RealOne Player also offers access to thousands of radio stations, advanced CD burning, visualizations, and more.

SonicStage must be installed prior to the RealOne Player plug-in for Net MD Walkman recorders.

- For more information, or to download the **FREE** RealOne Player plug-in for Net MD Walkman recorders, visit www.sony.com/realone

SonicStage™ Music Management Software

SonicStage is a music management application that enables you to rip CDs to your hard drive, import MP3s, and transfer your custom mixes to your Net MD Walkman recorder. You can use SonicStage to create playlists, manage and sort your digital music files stored on your hard drive, and listen to music from your PC. Utilize the supplied USB cable and transfer your music mixes to your Net MD recorder at high speed!

The SonicStage application is contained on the enclosed CD-ROM.

- Refer to the enclosed Portable Minidisc Recorder "Operating Instructions" for more details on operational steps.

moodlogic™ application

EXCLUSIVE BONUS for Net MD recorder customers only! Moodlogic software enables you to:

1. Properly re-title all of your music files automatically – no typing required!
2. Make music mixes by Mood, Tempo, Release Year, and more – transfer them to your Net MD Walkman recorder!
3. Interact with your music via Sony's Music Marker™ feature – built right into your Net MD Walkman recorder!

To download Moodlogic software, or for additional usage details, please visit www.sony.com/moodlogic
