⚠ SAFETY TIPS & WARNINGS

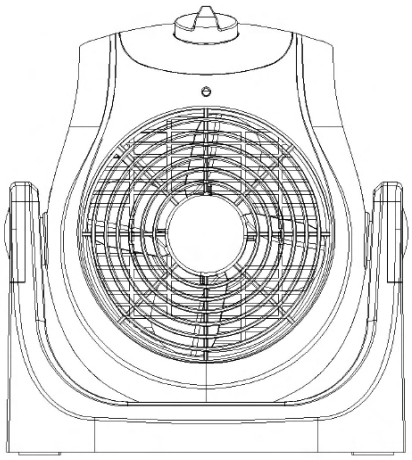

TO ENSURE THE BEST PERFORMANCE FROM YOUR HEATER, PLEASE READ AND SAVE THE FOLLOWING INSTRUCTIONS.

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, injury to persons, and hyperthermia, including the following:

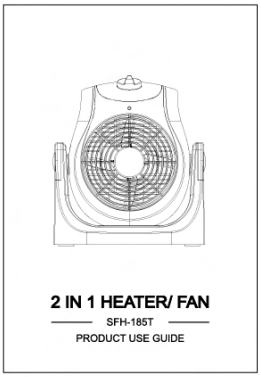

1. CAUTION: Risk of Electric Shock. DO NOT open or try to repair the product yourself.
2. This product may get hot when in use. To avoid burns, DO NOT let bare skin touch hot surfaces. If provided, use handles when moving this product.
3. Keep combustible materials, such as furniture, pillows, bedding, paper, clothes, and curtains at least 3 ft from the front of the product and keep them away from the sides, top, and rear. DO NOT place towels or other objects on the product.
4. Extreme caution is necessary when any product is used by or near children or the disabled, or when the product is left operating and unattended.
5. DO NOT operate any product with a damaged cord or after the product malfunctions, has been dropped or damaged in any manner. Return product to authorized service facility for examination, electrical or mechanical adjustment, or repair.
6. This product is not intended for use in bathrooms, laundry areas and similar indoor locations. NEVER locate product where it may fall into a bathtub or other water container. To protect against electrical hazards, DO NOT immerse in water or other liquids.
7. DO NOT touch the control panel or plug with a wet hand.
8. DO NOT run cord under carpeting. DO NOT cover cord with throw rugs, runners, or similar coverings. Arrange cord away from traffic area and where it will not be tripped over.
9. DO NOT insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the product.
10. To prevent a possible fire, DO NOT block the air intakes or exhaust in any manner. DO NOT use on soft surfaces, like a bed, where openings may become blocked.

11. Do not use this fan in places where gasoline, paint or any flammable liquids are stored. Maintain this unit away from hot surfaces or open flames.
12. Always plug products directly into a wall outlet/receptacle. Never use with an extension cord or relocatable power tap (outlet/power strip).
13. To avoid fire or shock hazard, plug the unit directly into a 120 V AC electrical outlet.
14. To disconnect product, turn controls to OFF, then remove plug from outlet. Pull firmly on the plug, DO NOT unplug by pulling on the cord.
15. Always unplug the unit before moving or cleaning, or whenever the product is not in use.
16. Use only for intended household use as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock, or injury to persons. The use of attachments not recommended or sold by unauthorized dealers may cause hazards.
17. Always use on a dry, level surface. Use on floor only.
18. DO NOT use outdoors.
19. WARNING: To reduce the risk of fire or electric shock, DO NOT use this unit with any solid-state speed control device.
20. DO NOT attempt to repair or adjust any electrical or mechanical functions on this unit. Doing so will void your warranty. The inside of the unit contains no user serviceable parts. Qualified personnel should perform all servicing only.
21. Hyperthermia can result in death. Symptoms of hyperthermia include high body temperature, headache, nausea, vomiting, tiredness, dizziness, fainting, and rapid pulse. If you begin to experience symptoms related to hyperthermia, turn off the heater and seek medical attention.
22. To avoid excessive room temperatures which can cause hyperthermia: DO NOT leave product running unattended in a confined space around infants, or individuals with reduced physical, sensory, or mental capabilities.

SAFETY FEATURES

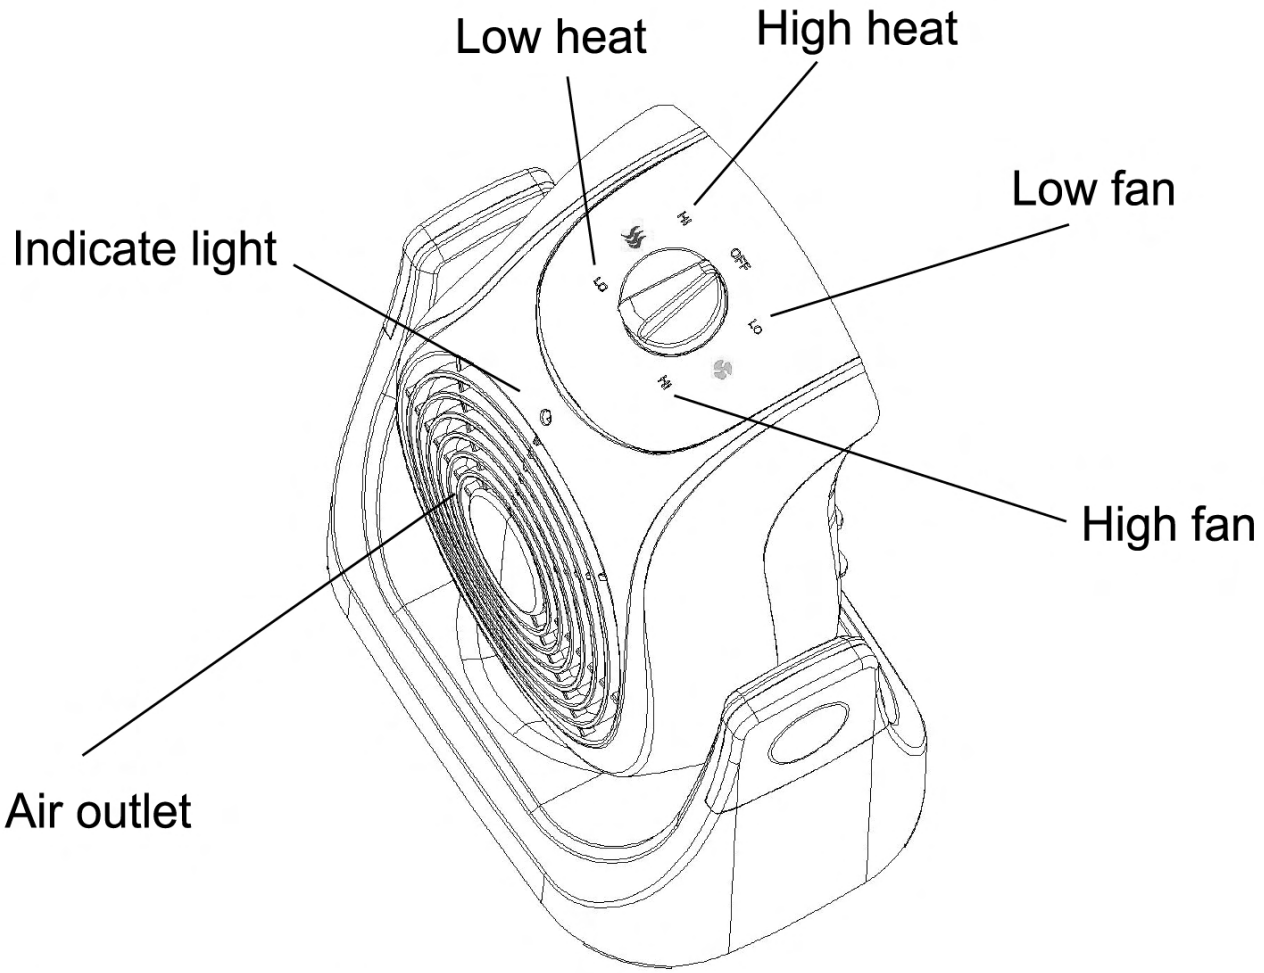

Overheat Safety Feature

This product is equipped with an overheat safety feature. When the product s internal components reach a certain temperature that could cause overheat and possible fire, the product will automatically shut off.

WARNING: It is normal for the power cord to feel warm to the touch; however, a loose fit between the outlet and the plug may cause overheating of the plug. If this occurs, try inserting the plug into a different outlet. Contact a qualified electrician to inspect the original outlet for damage.

	***THIS APPLIANCE HAS A POLARIZED PLUG*** (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician to install the proper outlet. ***DO NOT ATTEMPT TO MODIFY THIS PLUG OR DEFEAT THIS SAFETY FEATURE IN ANY WAY.***
