14” Plastic Net Media Center

I N S T A L L A T I O N I N S T R U C T I O N S

ICRESDP14E ,ICRESDP14K , ICRESDP14W

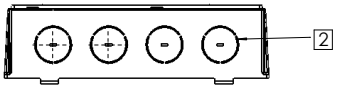

ICC’s 14” Plastic Net.Media Center is designed to be installed in a residence; such as small homes, multi-unit dwellings and retrofitting existing homes and serve as the central distribution point for voice, data, audio and video connectivity. Its compact size makes it perfect for smaller types of structured cabling installations allowing it to fit in tight and confined areas. The base is designed to fit between 16" wall studs and offers a variety of mounting options. It can be installed inside the wall for a professional clean appearance, or wall mounted if the walls have already been installed and painted. ICC’s 14" Plastic Net.Media Center can be configured with any ICC Net.Media Center connectivity module.

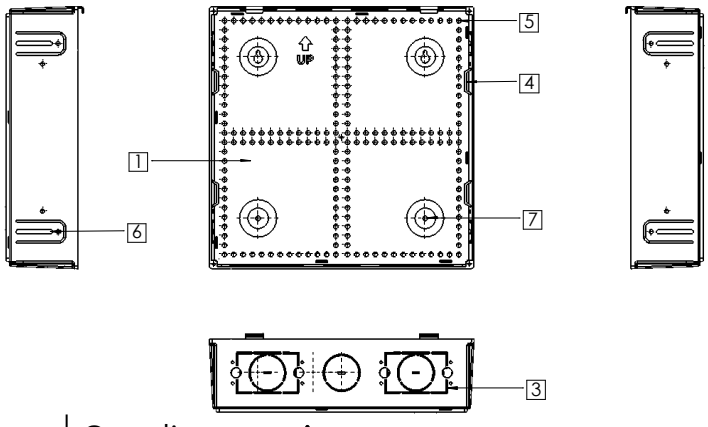

Package Content

1. Enclosure 1ea. (14.25" x 14.25" x 3.89")

14” Plastic Net Media Center

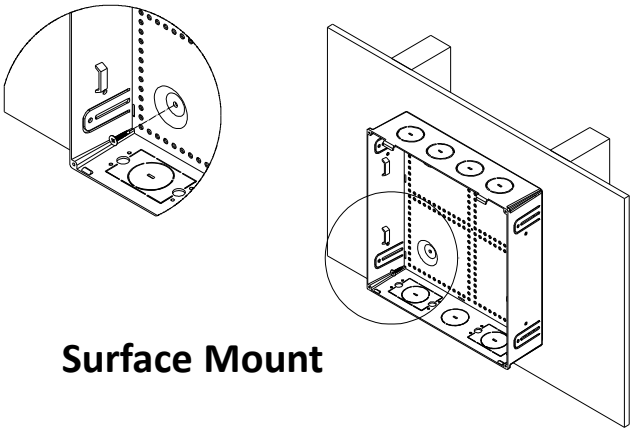

INSTALLATION INSTRUCTIONS

Step 1: Enclosure Mounting

Adjust the enclosure according to the thickness of the drywall/sheetrock.
Use the drywall marking on the side of the enclosure for guidance.

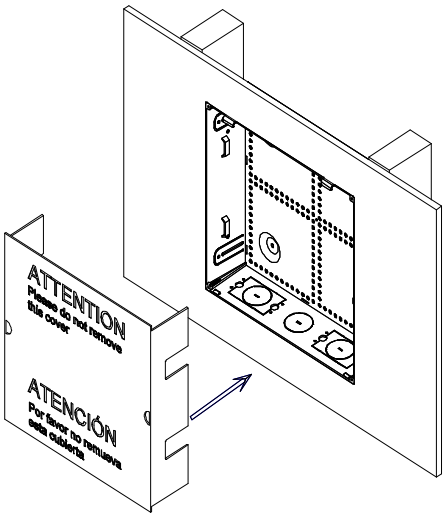

Stud Mount

Surface Mount

Step 2: Protective Cover Installation

Place the protective cover back into the enclosure. The protective cover helps maintain the enclosure clean and free from debris during the rest of the installation.

Step 3: Modules Installation

1. Mount modules vertically or horizontally.
2. Secure the top portion of the cover by sliding the cover’s hooking mechanism onto the enclosure.
3. Then Install #6-32 screws to secure the door with the enclosure.
