About This Guide

This guide provides a brief introduction to Kasa Smart Wi-Fi Light Switch and the Kasa Smart app, as well as regulatory information.

Features available in Kasa Smart may vary by model and software version. Kasa Smart availability may also vary by region or ISP. All images, steps, and descriptions in this guide are only examples and may not reflect your actual Kasa Smart experience.

Conventions

In this guide, the following convention is used:

Convention	Description
Teal	Key information appears in teal, including management page text such as menus, items, buttons and so on.
Underline	Hyperlinks are in teal and underlined. You can click to redirect to a website.

More Info

- Specifications can be found on the product page at https://www.tp-link.com.
- Our Technical Support contact information can be found at the Help center of the Kasa Smart app and the Contact Technical Support page at https://www.tp-link.com/support.

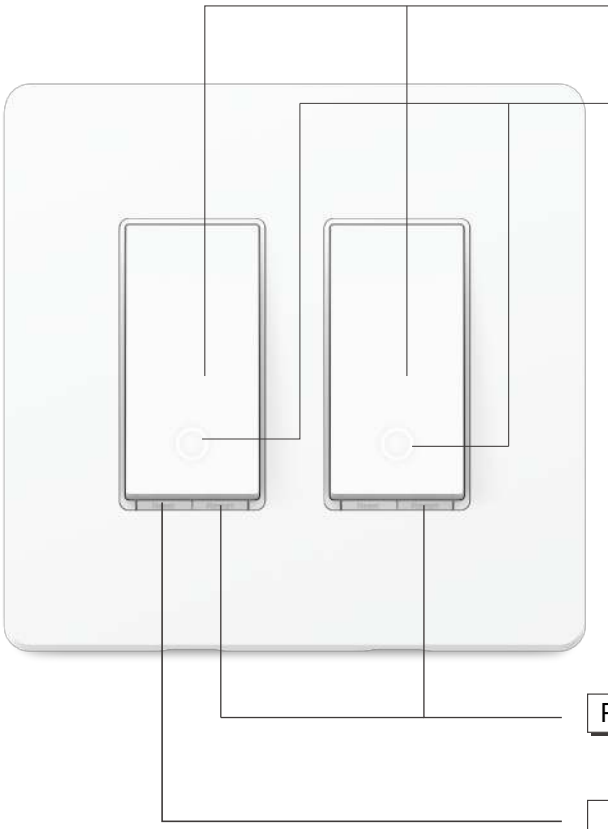

Introduction

TP-Link Smart Wi-Fi Light Switch is a 2-gang, single-pole, wall light switch that can be controlled via your iOS or Android devices. Skip the hassle of purchasing additional wall plates. Easily snap the plates onto the switches for a uniform look. The screwless design elevates your interior décor with a seamless, refined look.

- Voice Control - Use simple voice commands with Alexa and Google Assistant to conveniently control the lights without leaving your spot.
- Remote Control - Control connected devices from anywhere using the Kasa Smart app.
- Set Schedules - Set lights to automatically turn on and off throughout the day or night whether you're home or away.
- Auto-Off Timer - Automatically turns off your lights after they are left on for a set time. Ideal for laundry rooms, basements, and other areas you visit infrequently.
- Away Mode - Set your light to turn on and off at random intervals to give the appearance you're home even while you're away.
- Delayed Shutoff - Set your lights to remain on for a predetermined period of time after they are turned off so that you have time to exit the room.
- Group & Scene - Group your smart switch with other smart devices to control them all at once. Set custom scenes to match any occasion like waking up.
- No Hub Required - Connect to your existing Wi-Fi router.

Appearance

The switch includes a switch button, an LED, a Restart button, and a Reset button. The following picture uses the white color switch as an example. See the explanation below:

Switch Button: Turn on/off the corresponding switch.

Solid Amber: Starting up.

Blinking amber & green: Ready for setup; Resetting Wi-Fi.

Blinking Green: Connecting to Wi-Fi.

Solid Green: Lit up for about 30 seconds when successfully connected to the Wi-Fi network, then turns off.

Blinking Amber: Resetting.

Solid Red: No Wi-Fi connection.

White: Lit up when the light is switched OFF to show the Smart Switch location in the dark.

RESTART Press to reboot the corresponding switch.

RESET Press & hold for about **5s**: Reset Wi-Fi of the corresponding switch while keeping other settings

Press & hold for about **10s:** Factory reset the corresponding switch.

Wire Your Switch

Follow the steps below to wire your Smart Wi-Fi Light Switch. If you are not familiar with basic electronical wiring, please consult an electrician.

Before You Start

1. Prepare Baisc knowledge of Wiring

- **Ground:** Usually green or copper.
- **Neutral:** Usually white, not connected to the dumb switch.
- **Line:** Usually black, and connected to the dumb switch.
- **Load:** Usually black, and connected to the dumb switch.

Note: If you are unsure, consult a qualified electrician.

2. Prepare Your Tools

Prepare a philips and slotted screwdriver, pliers, wire strippers and a voltage detector.

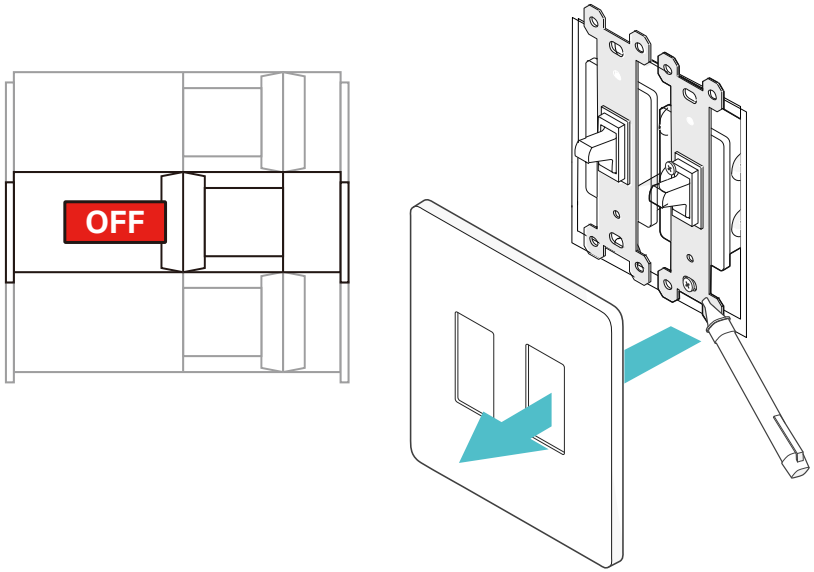

3. Check Wi-Fi Strength

Make sure your switch is in a area with strong Wi-Fi signal.

Wire Your Switch

Step 1. Turn Off Power and Remove the Wallplate

Turn off the circuit breaker. Remove the old wallplate of the switch. Use a voltage detector to test terminals and other metal parts to confirm that all power is off.

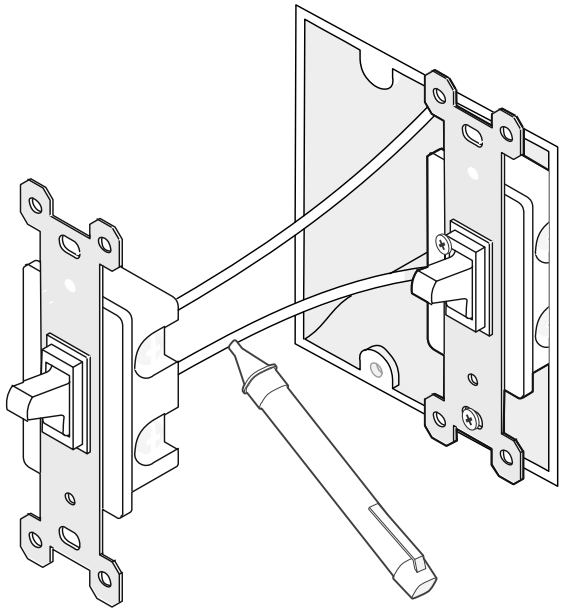

CAUTION
Risk of Electric Shocks - High Voltage - Disconnect power supply at the circuit breaker before servicing.

MISE EN GARDE
Risque d'électrocution - Haute tension: débranchez l'alimentation électrique au niveau du disjoncteur avant l'utiliser.

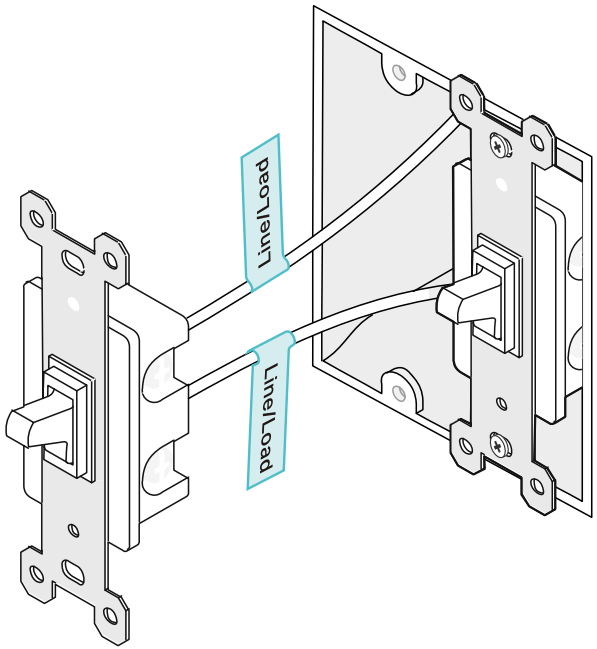

Step 2. Pull one switch out

Unscrew one of the two old switches and pull it out. Use a voltage detector to test all wires connected to the old switch and in the wallbox to confirm that all power is off for the wallbox.

Step 3. Label the wires of the pulled-out switch

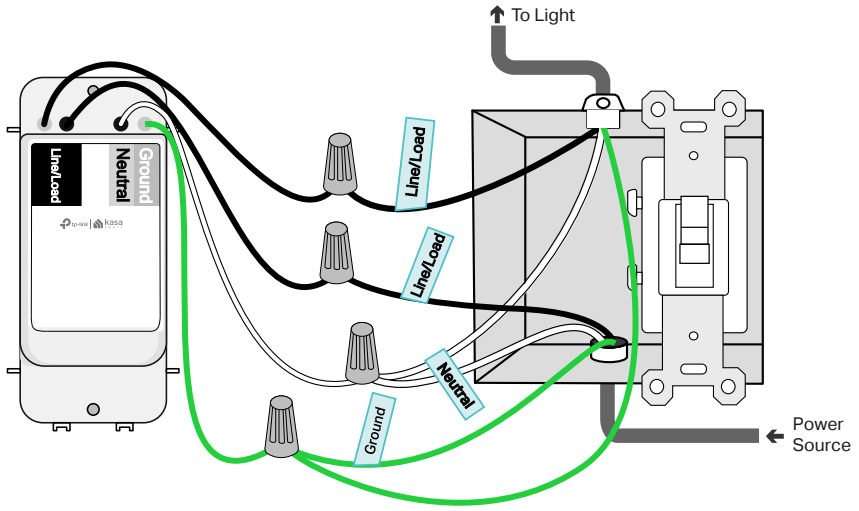

Take a picture of the wires. Then label the wires of the pulled-out switch.

Step 4. Connect the new switches

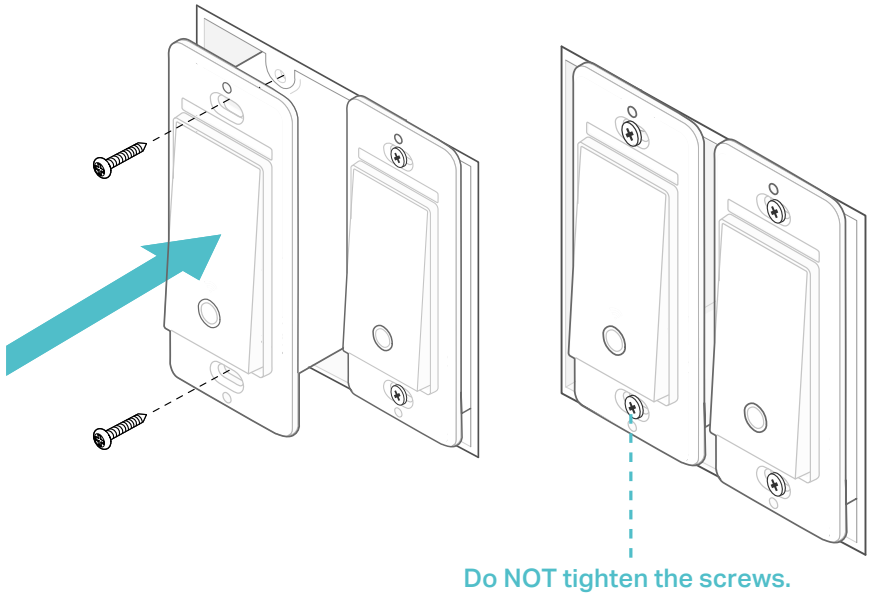

Disconnect the wires from the pulled-out switch. Then connect the wires to one of your smart switches as shown below. No need to distinguish between the Line and Load wires.

Follow the same steps to replace the other old switch with your smart switch.

Step 5. Screw the switches

Screw the switches to the mounting holes without fully tightening them. You may need to adjust their positions for the wallplate.

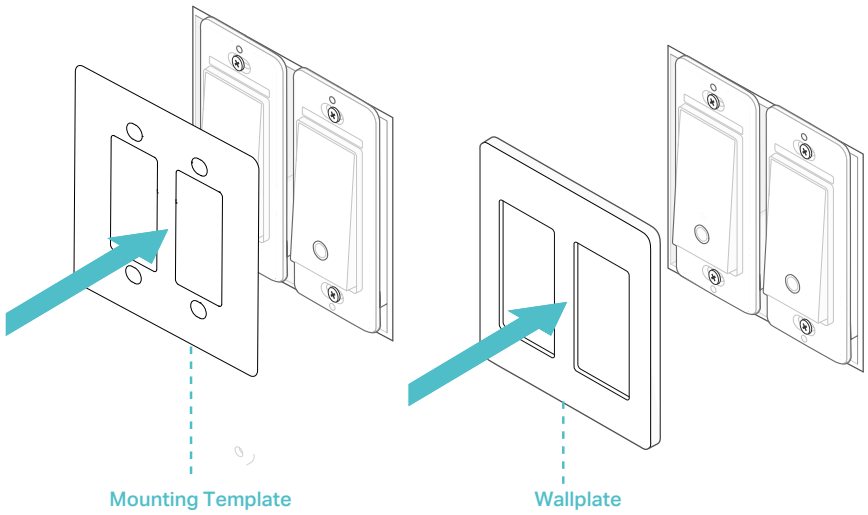

Step 6. Attach the wallplate

Use the provided mounting template to help line up the two switches with the mounting holes. Then tighten the screws. Set the mounting template aside and attach the wallplate.

You can turn on the circuit breaker and turn on the lights to check your work.

If the wall surface is not even, or part of the electrical box is recessed, you may need to use something called an outlet spacer to achieve a flush and clean look. For details, please check https://www.tp-link.com/support/faq/3969/.

Set Up Your Smart Light Switch

Follow the steps below to set up your Smart Light Switch via Kasa Smart app.

1. Download and install Kasa app

Go to Google Play or the App Store or scan the QR code below to download the Kasa Smart app on your Android or iOS smartphone or tablet.

GET IT ON Google Play

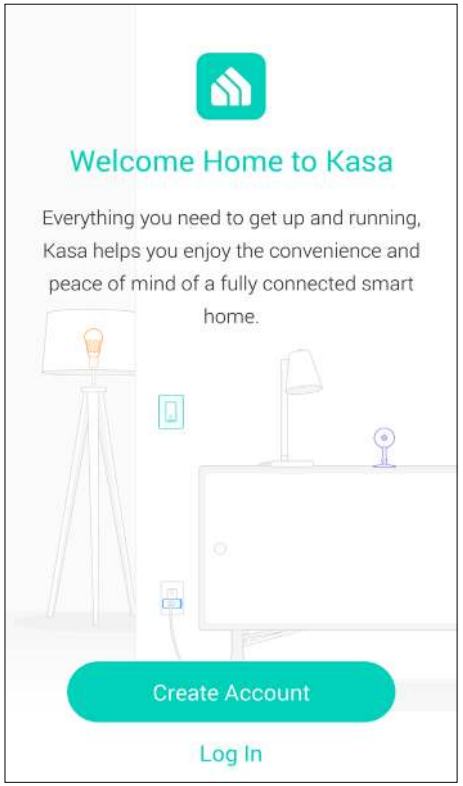

Download on the App Store

OR

2. Log in or sign up with TP-Link ID

Open the app. Use your TP-Link ID to log in.

If you don't have a TP-Link ID, tap Create Account and the Kasa Smart app will guide you through the rest.

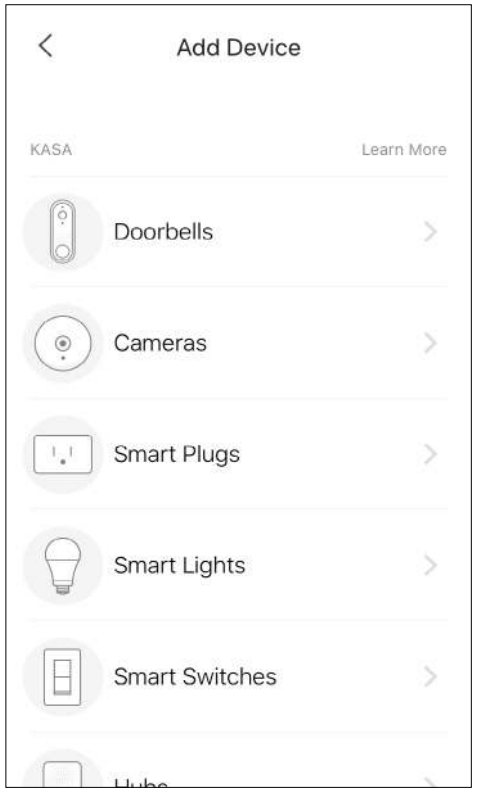

3. Add Device

1. Set up the first switch:

Tap the + button in the app and select Smart Switches > Smart Switch (Wi-Fi). Then follow the app instructions to complete setup.

2. Set up the second switch following the same steps.

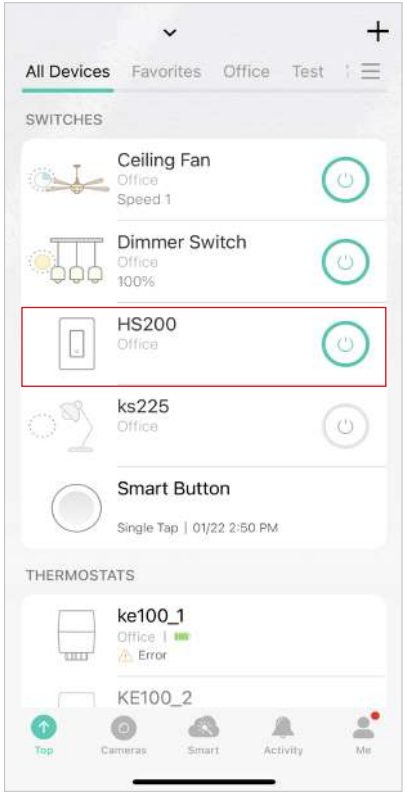

Main Device Controls

After you successfully set up your Smart Light Switch, you will see the home page of the Kasa Smart app. Here you can view and manage all devices that you've added to Kasa. Tap your smart switch to control and manage it.

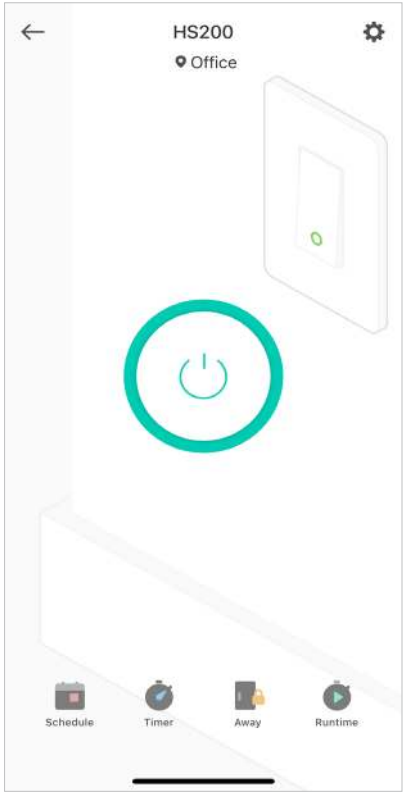

Home Page

Turn on/off your device on the Home page.

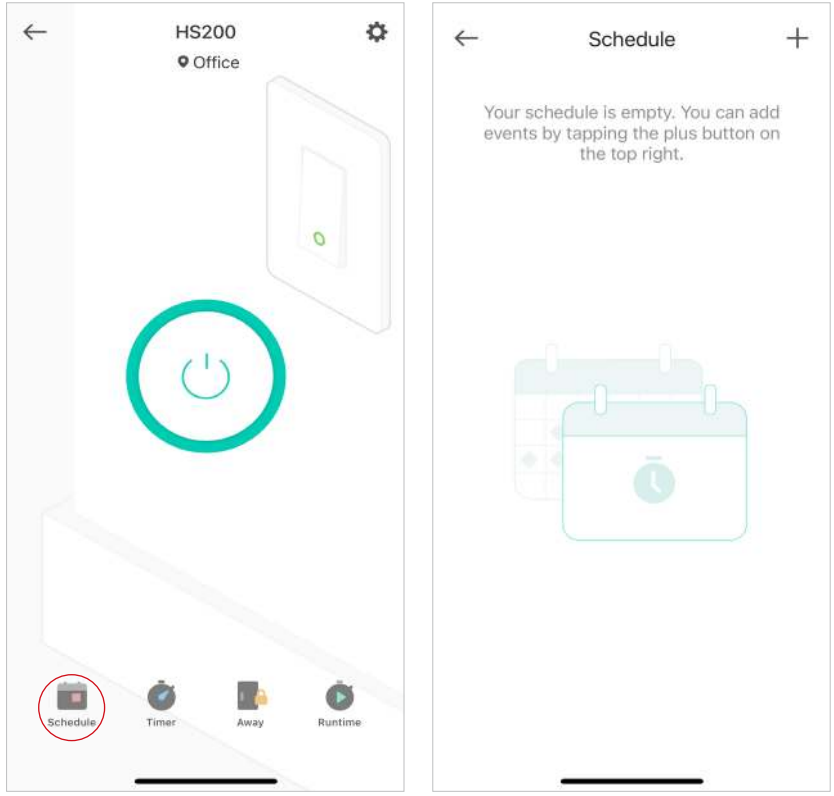

Status Page

Turn on/off your device, or set schedules, timer, Away Mode or check runtime on the Status page.

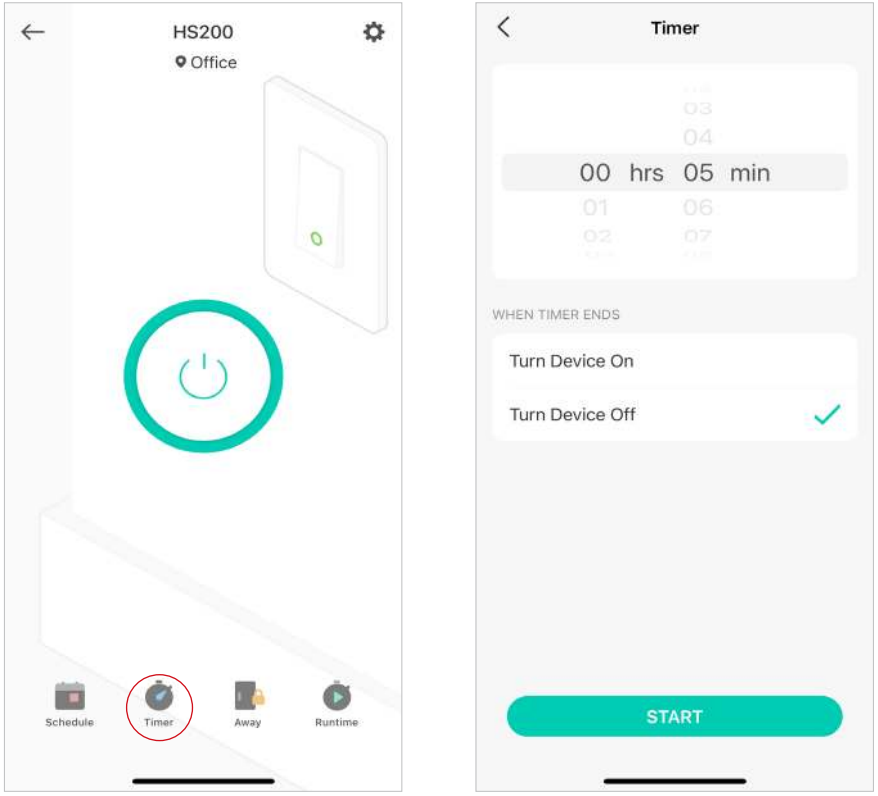

Set Schedules

Set schedules to automatically turn on/off the light at set times according to your daily routine.

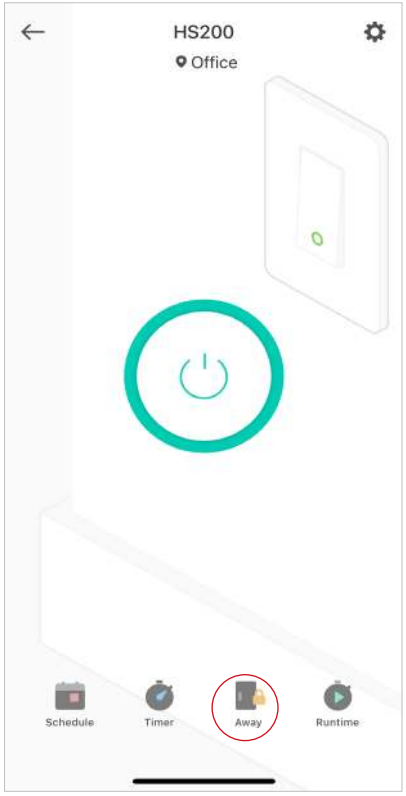

Set a Timer

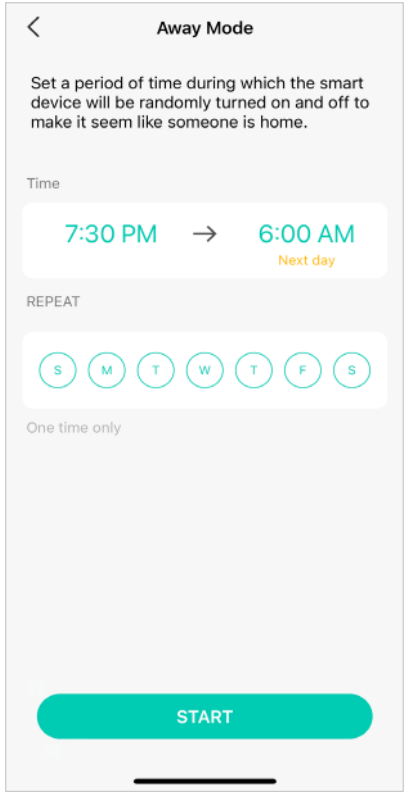

Set the timer for your Smart Light Switch to automatically turn on/off after the time ends.

Set Away Mode

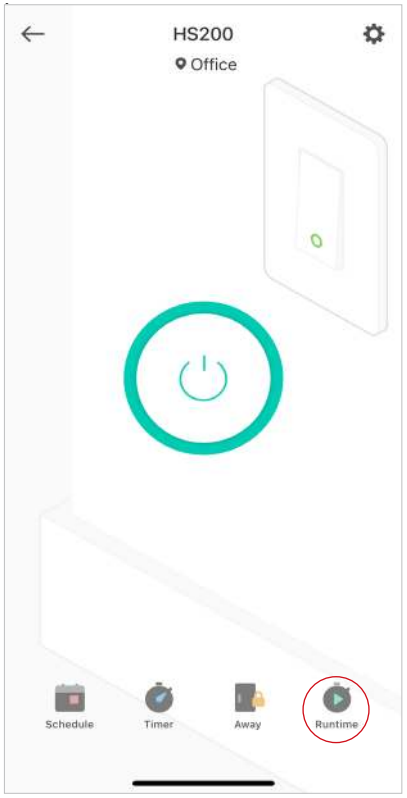

Set Away Mode for your Smart Light Switch to turn on/off the light automatically at random intervals while you are away to make the appearance that someone is at home.

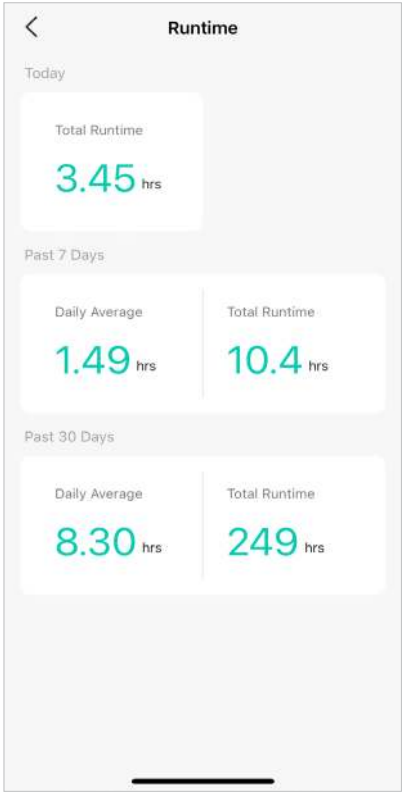

Check Runtime

Check runtime to keep track of how long your Smart Light Switch has been working.

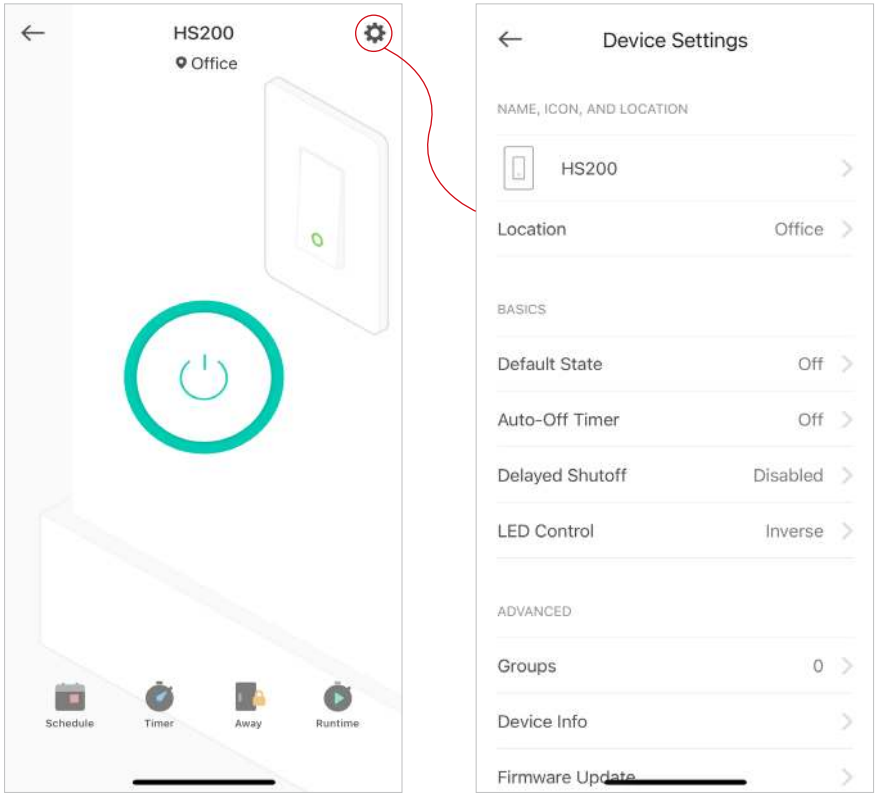

Manage Device Settings

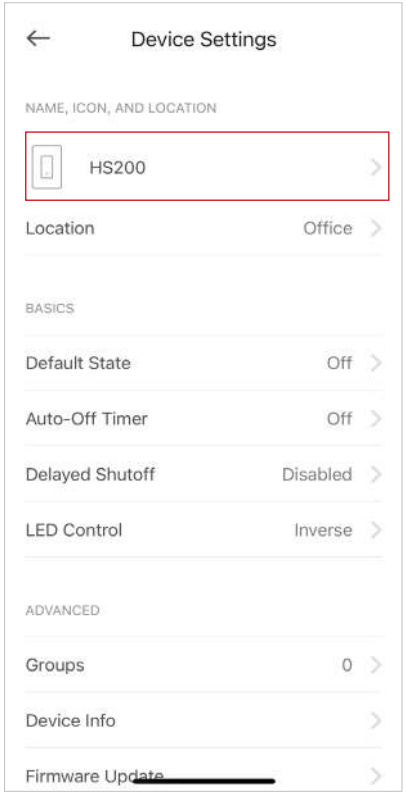

You can change the name and icon of your smart switch and check its device info.

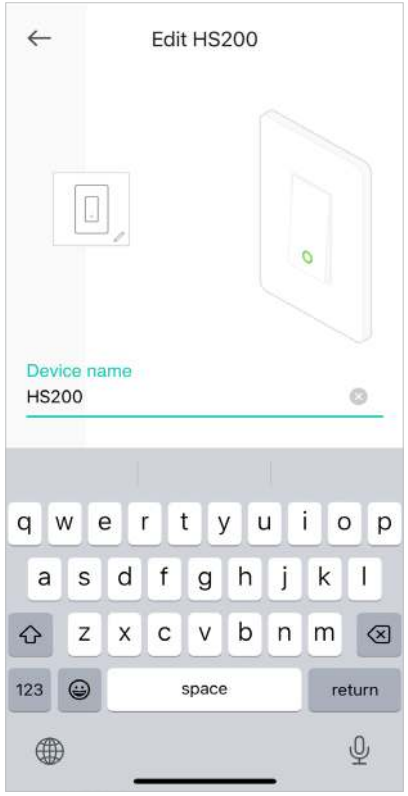

1. Tap ⚙ on the Status Page to enter the Device Settings page.

1. Edit device name and icon

You can edit the device name and icon of your Smart Light Switch.

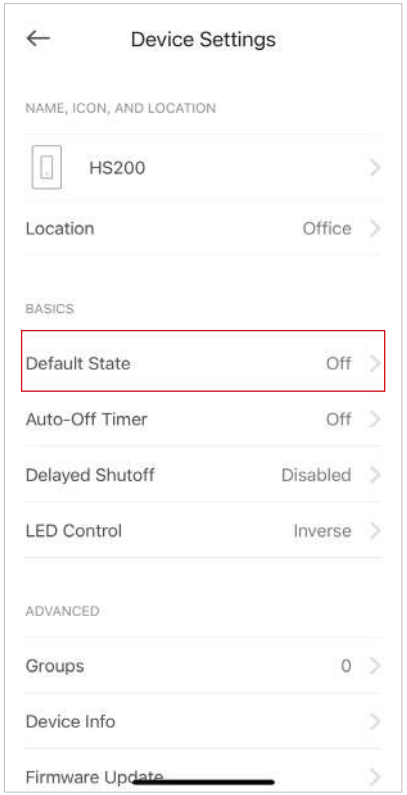

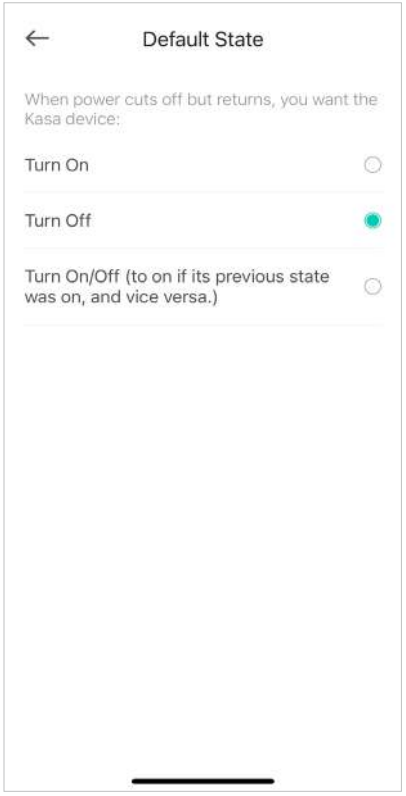

2. Set default state

Set the state you want your device to turn to when power cuts off but returns.

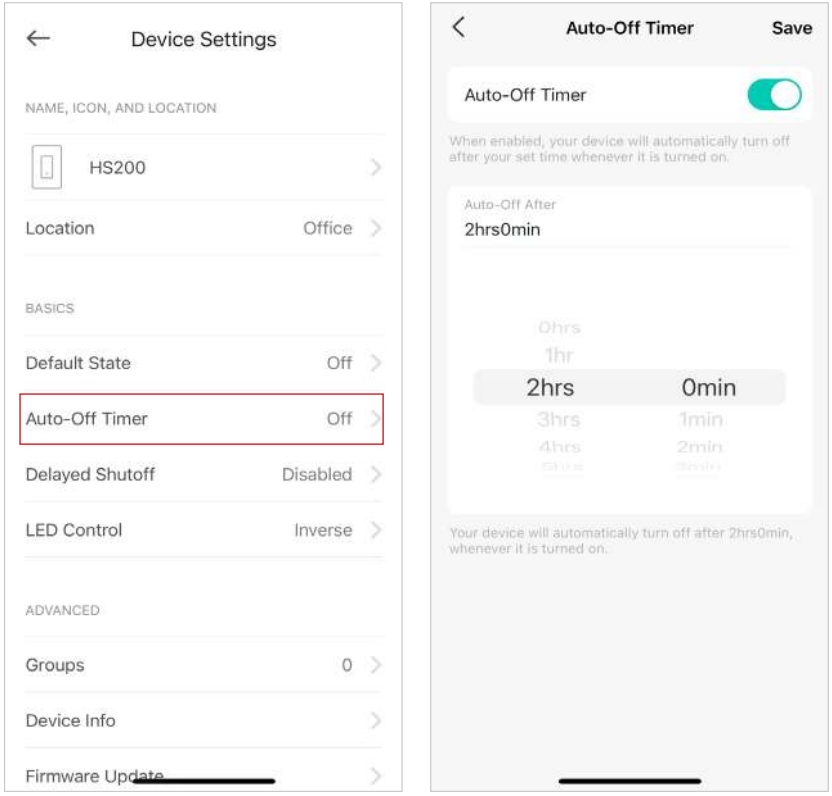

.

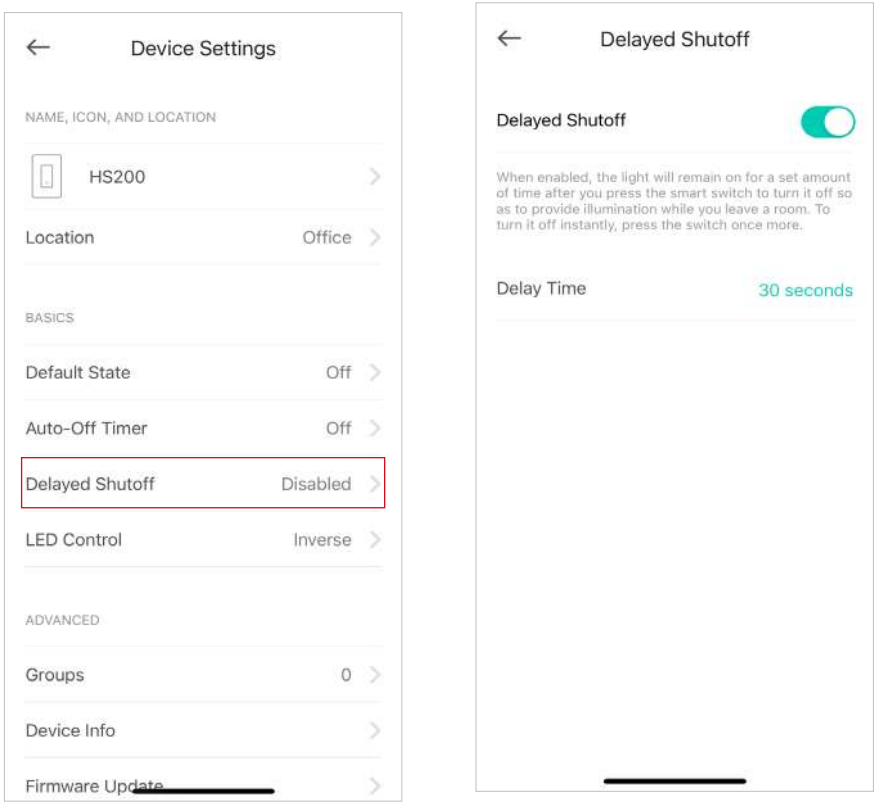

3. Set auto-off timer

Set a timer to turn off your device after a oreset time whenever it is turned on.

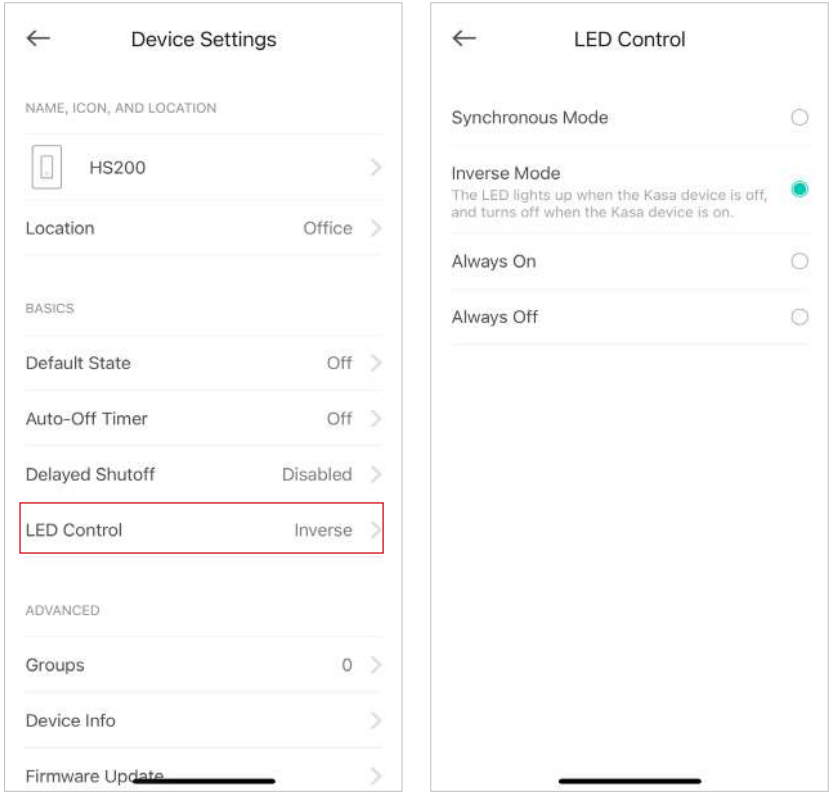

4. Set delayed shutoff

When delayed shutoff is enabled, the light will remain on for a set amount of time after you press the switch to turn off the. To turn it off instantly, press the switch once more.

5. Control your device LED.

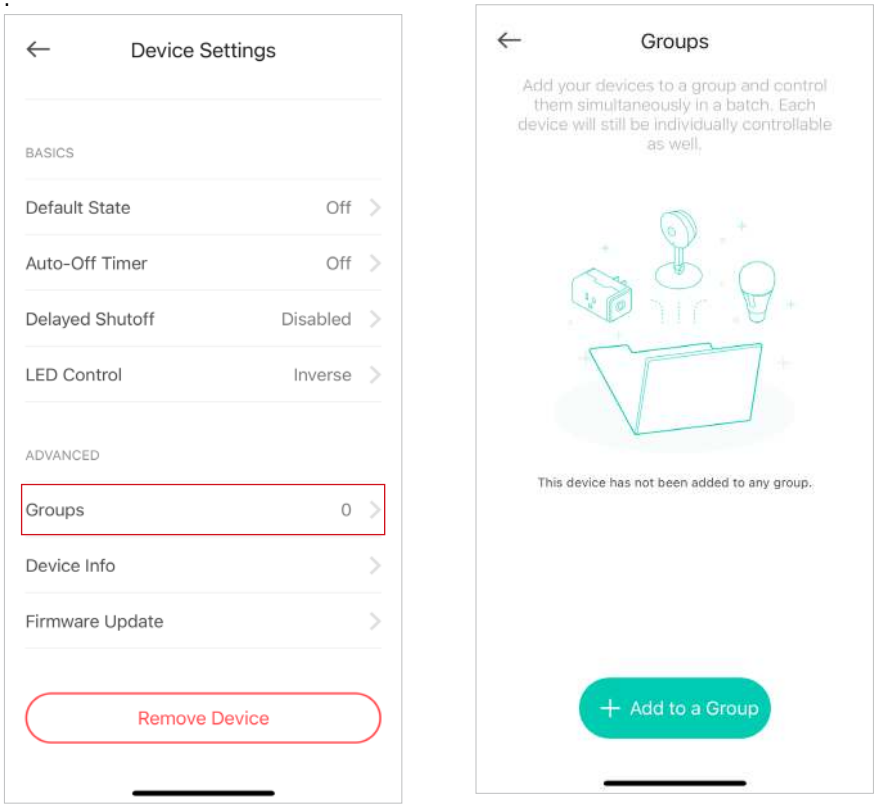

Set the LED status.

6. Check Groups that your Smart Switch is in.

Check whether your device is added to a group with other devices for simultaneous control.

.

FCC compliance information statement

Product Name: Kasa Smart Wi-Fi Light Switch, 2-ganh,Single Pole

Model Number: HS200-2

Responsible party:

TP-Link USA Corporation, d/b/a TP-Link North America, Inc.

Address: 145 South State College Blvd. Suite 400, Brea, CA 92821

Website: http://www.tp-link.com/us/

Tel: +1 626 333 0234

Fax: +1 909 527 6803

E-mail: sales.usa@tp-link.com

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.

2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

"To comply with FCC RF exposure compliance requirements, this grant is applicable to only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter."

We, **TP-Link USA Corporation**, has determined that the equipment shown as above has been shown to comply with the applicable technical standards, FCC part 15. There is no unauthorized change is made in the equipment and the equipment is properly maintained and operated.

Issue Date: 2024.03.20

Canadian Compliance Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1) L'appareil ne doit pas produire de brouillage;

2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps

Industry Canada Statement

CAN ICES-3 (B)/NMB-3(B)

注意!

依據 低功率電波輻射性電機管理辦法

LP0002低功率射頻器材技術規範_章節3.8.2

取得審驗證明之低功率射頻器材，非經核准，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

低功率射頻器材之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。

前述合法通信，指依電信管理法規定作業之無線電通信。

低功率射頻器材須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

BSMI Notice

安全諮詢及注意事項

- 請使用原裝電源供應器或只能按照本產品注明的電源類型使用本產品。
- 清潔本產品之前請先拔掉電源線。請勿使用液體、噴霧清潔劑或濕布進行清潔。
- 注意防潮，請勿將水或其他液體潑灑到本產品上。
- 插槽與開口供通風使用，以確保本產品的操作可靠並防止過熱，請勿堵塞或覆蓋開口。
- 請勿將本產品置放於靠近熱源的地方。除非有正常的通風，否則不可放在密閉位置中。
- 不要私自拆開機殼或自行維修，如產品有故障請與原廠或代理商聯繫。

限用物質含有情況標示聲明書

備考 1.〝超出 0.1 wt %〞及〝超出 0.01 wt %〞係指限用物質之百分比含量超出百分比含量基準值 Note 1：“Exceeding 0.1 wt %” and “exceeding 0.01 wt %” indicate that the percentage content of the restricted substance exceeds the reference percentage value of presence condition. 備考 2.〝○〞係指該項限用物質之百分比含量未超出百分比含量基準值。 Note 2：“ ○ ” indicates that the percentage content of the restricted substance does not exceed the percentage of reference value of presence. 備考 3.〝－〞係指該項限用物質為排除項目。 Note 3：The “－” indicates that the restricted substance corresponds to the exemption.

Safety Information

- Keep the device away from water, fire, humidity or hot environments.
- Do not attempt to disassemble, repair, or modify the device.
- Do not use the device where wireless devices are not allowed.
- Operating temperature: 0℃ ~40℃ (32 ℉ ~104 ℉)

Follow all national and local safety regulations and practices. If you are uncertain or uncomfortable when performing the installation, consult a qualified electrician.

- Install only in a suitable UL or equivalent Listed outlet box.(suitable dimensions: W > 3.68in./93.5mm, H > 2.95in./75mm, D > 1.65in./42mm).
- CAUTION – Risk of electric Shock – More than one disconnect switch may be required to de-energize the equipment before servicing. A circuit breaker which disconnects the Live and Neutral conductor simultaneously is suitable. Ensure power is off at the circuit breaker before removing or installing any wall switch.
- Do not install the Smart Switch with wet hands or when standing on wet or damp surfaces.
- The Smart Switch must be installed and used in accordance with the National Electric Code (NEC) or your local electrical code. If you are unfamiliar with these codes and requirements, or are uncomfortable performing the installation, consult a qualified electrician.
- Timer could turn-on unexpectedly without the user being present. To Reduce the Hazardous Condition – Unplug the appliance from the receptacle before servicing.

CAUTION:

To Reduce the Risk of Electric Shock – Use Only Indoors.

USE ONLY IN DRY LOCATIONS.

Please read and follow the above safety information when operating the device. We cannot guarantee that no accidents or damage will occur due to improper use of the device. Please use this product with care and operate at your own risk.
