Installation Overview

Parts List

A Handleset **x1** 	B Latch **x1** 	C Strike **x1** 
D Dust Cover **x1 (optional)** 	E Handle Lever **x1** 	F Handle Lever & Handleset Screws **x3** 
G Latch & Strike Screws **x4** 	H Spacer **x1** 	

TOOL REQUIRED:

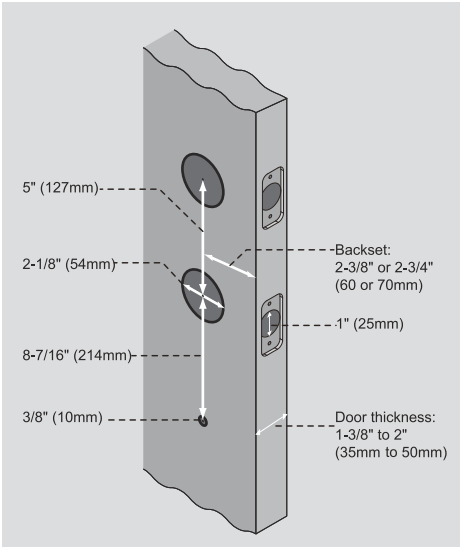

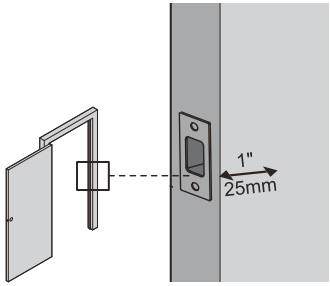

Do not use an electric screwdriver during installation.

Prepare the Door & Check Dimensions

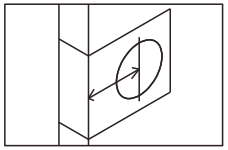

If your door already has the holes shown in the picture below, proceed to the next step; if your door does not have holes, use the mounting template to drill a new hole.

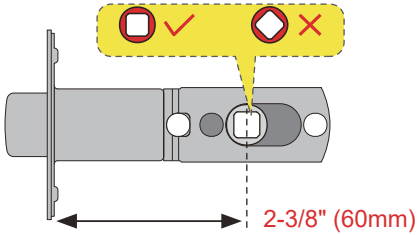

Latch Adjustment

Note: Be sure to use the Latch provided in the package or it won't work.

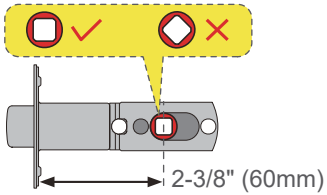

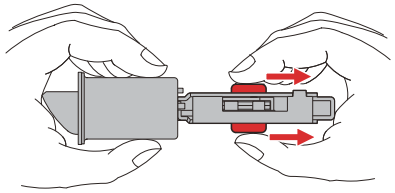

Backset is the distance from the door edge to the center of the hole in the door.

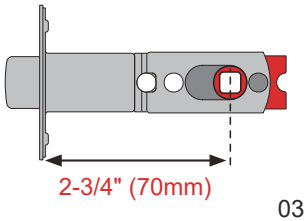

1 If the backset of your door is 2-3/8" (60mm), no need to adjust the Latch.

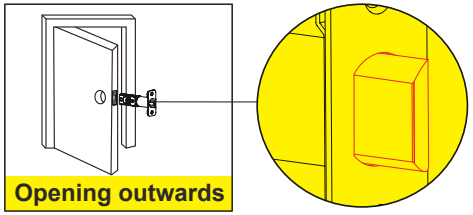

2 If the backset of your door is 2-3/4" (70mm), please adjust the Latch.

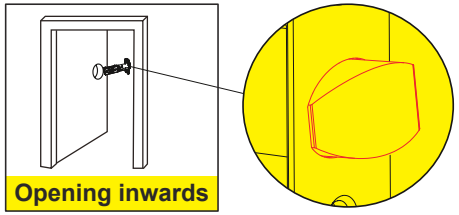

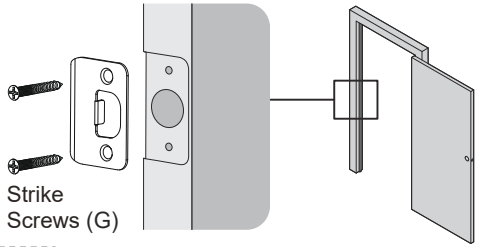

Install the Latch

Install the Strike

Opening outwards

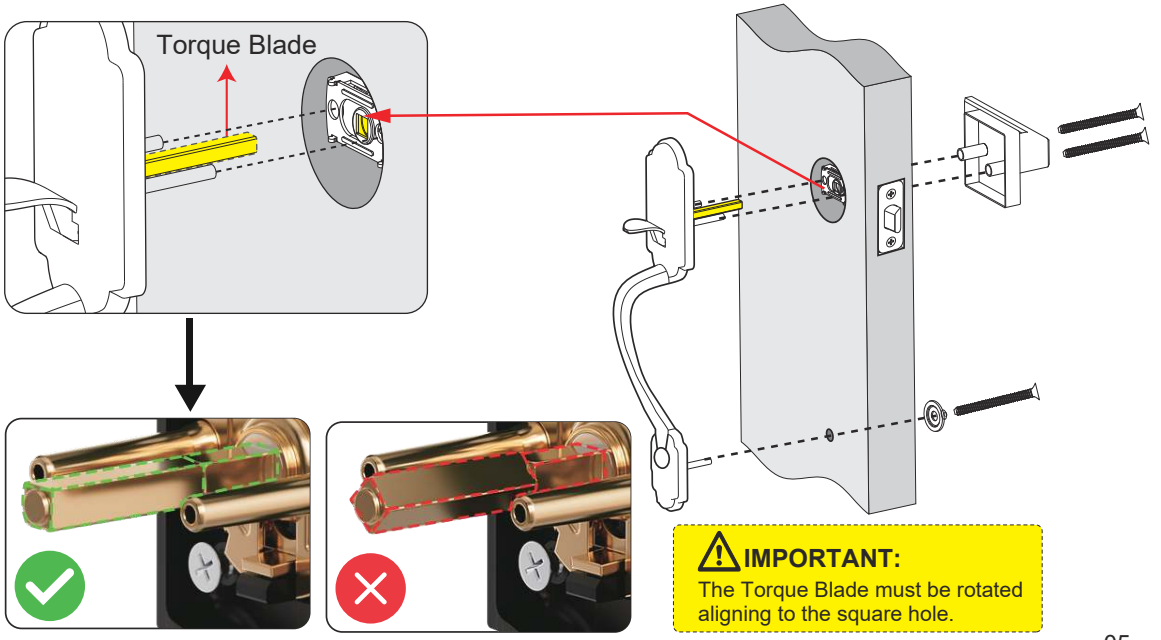

Opening inwards

Note: The bevel of the Latch should be aligned to the bevel of the Strike.

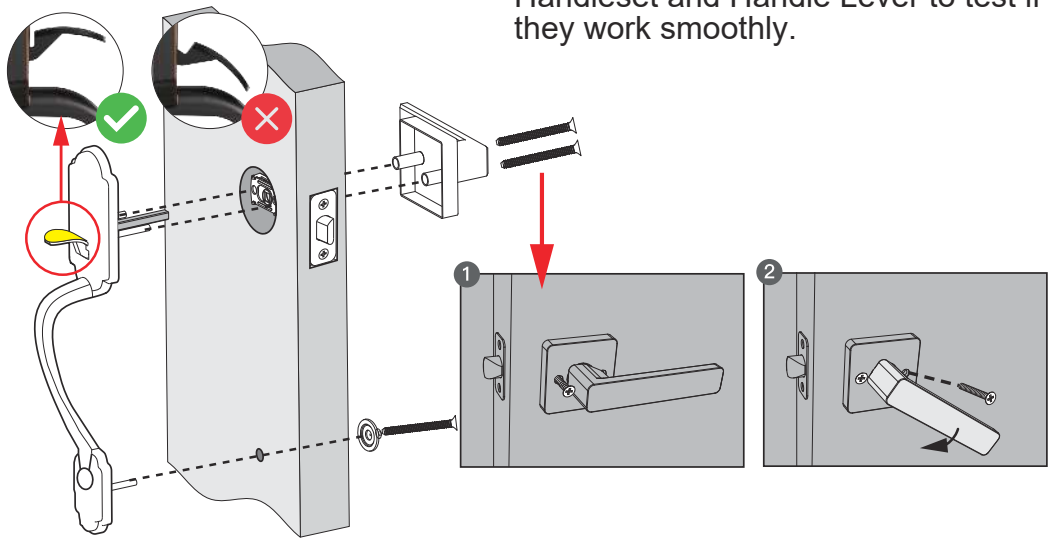

Install Handleset

IMPORTANT:
The Torque Blade must be rotated aligning to the square hole.

Install Handle Lever

IMPORTANT:
Don't press the knob during the installation of the handle.

Test the Handleset and Handle Lever

Keep the door open, checking out Handleset and Handle Lever to test if they work smoothly.
