1 YEAR LIMITED WARRANTY

Sunbeam Products, Inc. or if in Canada, Newell Brands Canada ULC (collectively, "Sunbeam") warrants that for a period of one year from the date of purchase, this product will be free from defects in material and workmanship. Sunbeam, at its option, will repair or replace this product or any component of the product found to be defective during the warranty period. Replacement will be made with a new or remanufactured product or component. If the product is no longer available, replacement may be made with a similar product of equal or greater value. This is your exclusive warranty. Do NOT attempt to repair or adjust any electrical or mechanical functions on this product. Doing so will void this warranty.

This warranty is valid for the original retail purchaser from the date of initial retail purchase and is not transferable. Keep the original sales receipt. Proof of purchase is required to obtain warranty performance. Sunbeam dealers, service centers, or retail stores selling Sunbeam products do not have the right to alter, modify or any way change the terms and conditions of this warranty.

This warranty does not cover normal wear of parts or damage resulting from any of the following: negligent use or misuse of the product, use on improper voltage or current, use contrary to the operating instructions, disassembly, repair or alteration by anyone other than Sunbeam or an authorized Sunbeam service center. Further, the warranty does not cover: Acts of God, such as fire, flood, hurricanes and tornadoes.

What are the limits on Sunbeam's Liability?

Sunbeam shall not be liable for any incidental or consequential damages caused by the breach of any express, implied or statutory warranty or condition.

Except to the extent prohibited by applicable law, any implied warranty or condition of merchantability or fitness for a particular purpose is limited in duration to the duration of the above warranty.

Sunbeam disclaims all other warranties, conditions or representations, express, implied, statutory or otherwise.

Sunbeam shall not be liable for any damages of any kind resulting from the purchase, use or misuse of, or inability to use the product including incidental, special, consequential or similar damages or loss of profits, or for any breach of contract, fundamental or otherwise, or for any claim brought against purchaser by any other party.

Some provinces, states or jurisdictions do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights that vary from province to province, state to state or jurisdiction to jurisdiction.

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons including the following:

1. Read all instructions before using this product.
2. This appliance generates heat during use. Do not touch hot surfaces. Use handles or knobs.
3. To protect against electric shock, do not place or immerse cord, plugs, or appliance in water or other liquid.
4. This appliance is not intended for use by children or by persons with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge. Close supervision is necessary when any appliance is used near children. Children should be supervised to ensure that they do not play with the appliance. Keep the appliance and its cord out of reach of children.
5. Unplug from outlet when not in use, before putting on or taking off parts and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning. To disconnect, turn any control to OFF, then unplug power cord from outlet. Do not disconnect by pulling on cord.
6. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner. Do not attempt to replace or splice a damaged cord. Return

appliance to the manufacturer (see warranty) for examination, repair or adjustment.

7. The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
8. Do not use outdoors or for commercial purposes.
9. Do not let cord hang over edge of table or counter, or touch hot surfaces.
10. Do not place on or near wet surfaces, or heat sources such as a hot gas or electric burner, or in a heated oven.
11. Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
12. The heating base is subject to residual heat from cooking cycle. Do not touch heating base immediately after removing stoneware. Allow to cool before handling.
13. Use caution when opening the lid during or after a cooking cycle. Escaping steam can cause burns.
14. Do not use appliance for other than intended use. Misuse can cause injuries.
15. Intended for household countertop use only. Keep 6 inches (152 mm) clear from the wall and on all sides. Always use appliance on a dry, stable, level surface.
16. Avoid sudden temperature changes, such as adding refrigerated foods or cold liquids into a heated pot.
17. The slow cooker lid is made of tempered glass. The lid is fragile and may crack or break if dropped. Handle with care. Always inspect the lid for chips, cracks or any other damage. Do not use the glass lid if it is damaged, as it may shatter during use.

SCCPAC608-P_19EM1.indd 2-3 9/16/19 10:53 AM

18. The ceramic stoneware is fragile and may crack or break if dropped. Handle with care and inspect for damage before using. Do not use your slow cooker with a damaged stoneware.
19. **CAUTION:** To protect again electrical shock and product damage, do not cook directly in the heating base. Cook only in the stoneware provided.
20. **WARNING:** Spilled food can cause serious burns. Keep appliance and cord away from children. Never drape cord over edge of counter, never use outlet below counter, and never use with an extension cord.

For appliances with locking lids (does not apply to Cook and Carry models):

21. Never attempt to lift or carry this appliance by the lid handle. Always use the handles located at each side on the base of the appliance.
22. Do not lock the lid while cooking. Locking the glass lid while cooking may lead to glass breakage, which can cause injuries.

SAVE THESE INSTRUCTIONS
HOUSEHOLD USE ONLY

NORTH AMERICAN MODELS WITH POLARIZED PLUGS:

POLARIZED PLUG

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way. If the plug fits loosely into the AC outlet or if the AC outlet feels warm do not use that outlet.

POWER CORD INSTRUCTIONS:

A short power-supply cord is used to reduce the risk resulting from it being grabbed by children, becoming entangled in, or tripping over a longer cord.

NOTICES:

1. Some countertop and table surfaces are not designed to withstand the prolonged heat generated by certain appliances. Do not set the heated unit on a finished wood table. We recommend placing a hot pad or trivet under your slow cooker to prevent possible damage to the surface.
2. During initial use of this appliance, some slight smoke and/or odor may be detected. This is normal with many heating appliances and will not recur after a few uses.
3. Please use caution when placing your stoneware on a ceramic or smooth glass cook top stove, countertop, table or other surface. Due to the nature of the stoneware, its rough bottom may scratch some surfaces if caution is not used. Always place heat resistant protective padding under the stoneware before setting on a table, countertop or other surface.

FCC STATEMENTS

Contains FCC ID: COFMT-52

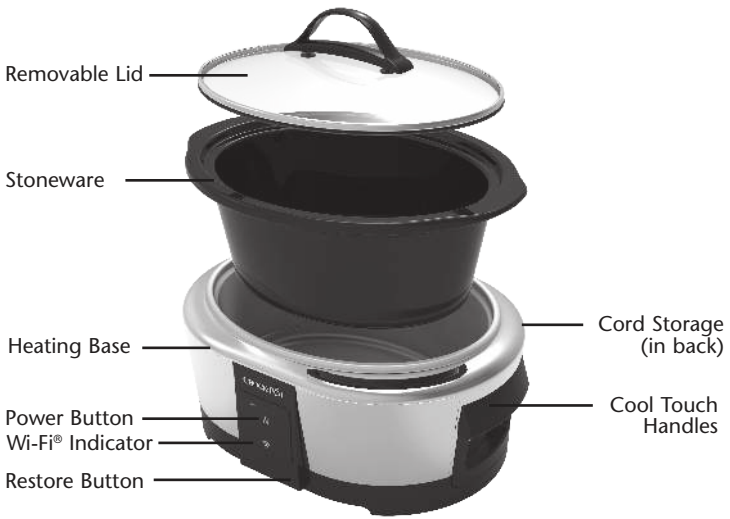

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/ TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Before you use your slow cooker, remove all packaging components and wash the lid and stoneware in warm, soapy water and dry thoroughly.

HOW TO DOWNLOAD AND SETUP THE ALEXA APP

With the new Crock-Pot® 6 Quart Connected Slow Cooker, you can now adjust your mealtime and ask Alexa for updates from anywhere, using any Alexa device or the mobile app.

To get started with device setup, you'll need:

- Crock-Pot® 6 Quart Connected Slow Cooker
- Apple smart device using iOS 11 or higher OR Android smart device using version 8.0 or higher
- The free Alexa App, which can be downloaded from the Apple App store, Google Play, or Amazon App store
- 2.4 GHZ Wi-Fi® and internet connection (Confirm your Wi-Fi® router is on and that your smart device (mobile phone or Echo device) is connected to your home Wi-Fi® network)
- Plug Crock-Pot® 6 Quart Connected Slow Cooker into electrical outlet
- Launch the app and login using your Amazon account credentials
- Follow these instructions to connect your device to your new Crock-Pot® 6 Quart Connected Slow Cooker.
- Amazon Help: http://www.amazon.com/alexasupport

SLOW COOKER AUTOMATIC SETUP

If the Crock-Pot® 6 Quart Connected Slow Cooker was purchased through Amazon.com, and Wi-Fi® credentials are stored in your Amazon Wi-Fi® locker, your slow cooker will setup automatically. See below for automatic setup details:

- Device is powered on within range of Wi-Fi® (same Wi-Fi® as connected on your mobile device)
- Ensure the Crock-Pot® is in range of an Echo family device
- The Wi-Fi® indicator on the Crock-Pot® should be blinking orange and green, meaning the slow cooker is in setup mode. If this does not occur, please hold down the restore button on the side of control panel for 5 seconds.
- You should receive an alert that the device is ready to use by: (1) Alexa Mobile App notification or an Alexa device voice prompt, once the device is connected; (2) Wi-Fi® indicator will turn solid green
- You may rename your Crock-Pot® within the Alexa App

SLOW COOKER MANUAL SETUP

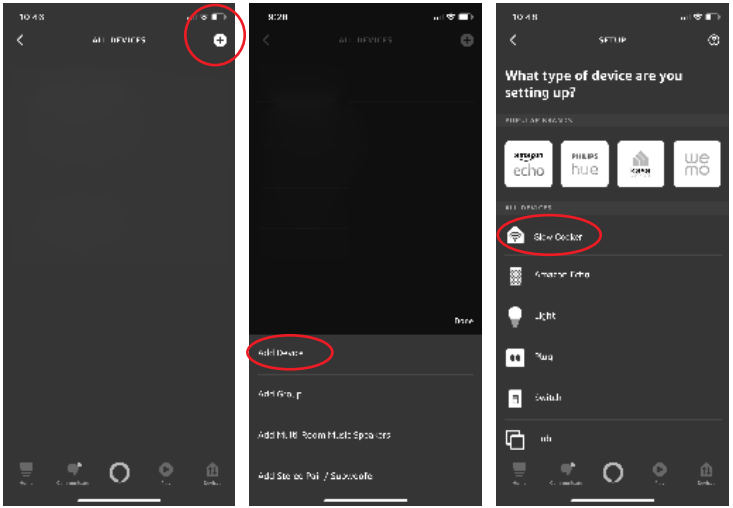

If the "Automatic Setup" fails, or the product was not purchased through Amazon.com, please follow the below “Manual Setup” instructions:

- Download the free Alexa App from the Apple App store, Google Play, or Amazon App store
- Device is powered on within range of Wi-Fi® (same Wi-Fi® as connected to mobile device)
- Ensure the Crock-Pot® is in range of an Echo family device
- The Wi-Fi® indicator on the Crock-Pot® should be blinking orange and green, meaning the slow cooker is in setup mode. If this does not occur, please hold down the restore button on side of control panel for 5 seconds

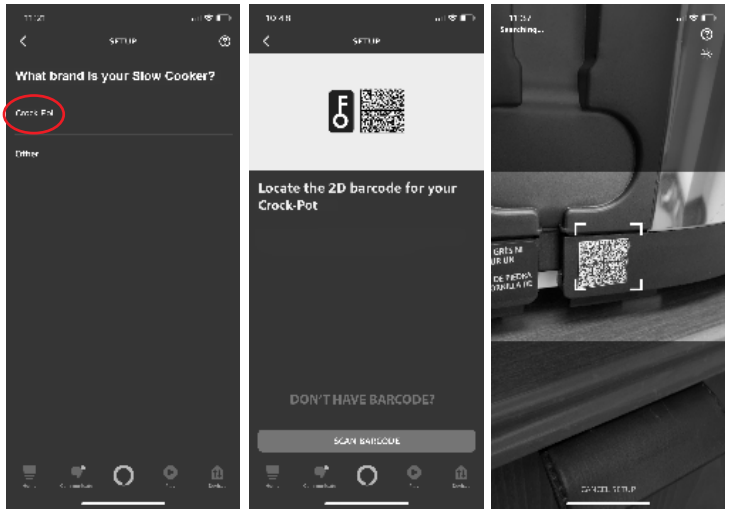

SCCPAC608-P_19EM1.indd 8-9 9/16/19 10:53 AM

SLOW COOKER MANUAL SETUP (CONT.)

- Open the Alexa mobile app, and ensure that you are signed in with your account credentials. Complete the “Manual Setup” flow (refer to images below), including device maker privacy policy
- If you are unable to set up the Crock-Pot® with the bar code, then you can continue with manual setup mode by selecting "Don't Have Bar Code" and following the on-screen instructions.
- You should receive an alert that the device is ready to use by: (1) Alexa Mobile App notification or an Alexa device voice prompt, once the device is connected; (2) Wi-Fi® indicator will turn solid green
- You may rename your Crock-Pot® within the Alexa App

NOTE: The device may be disabled within the Device Settings in the Alexa App

NOTE: The appliance can still be operated directly from the appliance control panel in case of a router/Wifi™ outage. Any pre-programmed schedules will not function in the event there is a router outage.

HOW TO USE YOUR SLOW COOKER WITHOUT THE ALEXA APP

Your Crock-Pot® 6 Quart Connected Slow Cooker does not need to be connected to a Wi-Fi® network to use. It can be used when not connected to your Wi-Fi® network, by using the Power button on the unit only. However, you will not be able to monitor or adjust the cook settings on the Alexa App or Echo device, if your slow cooker is not connected to a Wi-Fi® network. The following steps explain how to use your slow cooker with only the Power Button on the front of the unit.

1. Place the stoneware into the heating base, add your ingredients to the stoneware, and cover with the lid.
2. Plug in your Crock-Pot® slow cooker and select the temperature setting using the Power button on the base. Toggle the button to change the setting from LOW, HIGH, to WARM. LOW is recommended for slow "all-day" cooking. One hour on HIGH is equivalent to approximately 1½ to 2 hours on LOW. Refer to your specific recipe for more precise cook times. WARM is ONLY for keeping already cooked food at the perfect serving temperature until you are ready to eat. DO NOT cook on the WARM setting. NOTE: We do not recommend using the WARM setting for more than 4 hours.
3. When cooking has been activated using the Power button on the base, the slow cooker will continue cooking on the selected temperature setting until you press the Power button again to select a different setting, or until you unplug the unit. Your slow cooker will automatically switch to WARM after 4 hours if set on HIGH, or after 8 hours if set on LOW. The slow cooker will shut off after 4 hours on WARM setting. However, you can activate cooking with the Power button and then adjust the temperature or cook time using the Alexa App or Echo device, if your slow cooker is connected to a Wi-Fi® network. In this case, the slow cooker will automatically switch to WARM when the cook time, selected or spoken on the Alexa App or Echo device, has completed.

HOW TO USE YOUR SLOW COOKER (CONT.)

USAGE NOTES:

- If there is a power outage or slow cooker is unplugged, all settings will be cleared and must be reset. As a result, the food may be unsafe to eat. If you are unaware of how long the power was out, we suggest you discard the food inside.
- Once power is restored, slow cooker will automatically reconnect to the Wi-Fi® router.
- For recipes that require a range of times, select the time closest to the setting on your slow cooker. For example, to cook a recipe calling for a cooking time of 7 to 9 hours on LOW, cook for 8 hours.
- To avoid over or under-cooking, always fill the stoneware ½ to ¾ full and conform to recommended cook times.
- Do not overfill stoneware. To prevent spillover, do not fill stoneware higher than ¾ full.
- Always cook with the lid on for the recommended time. Do not remove the lid during the first two hours of cooking to allow the heat to build up efficiently.
- Always wear oven mitts when handling the lid or stoneware.
- Unplug when cooking is done and before cleaning.
- Removable stoneware is ovenproof and microwave safe. Do not use removable stoneware on gas or electric burner or under broiler. Refer to chart below.

Part	Dishwasher Safe	Oven Safe	Microwave Safe	Stovetop Safe
Lid	Yes	No	No	No
Stoneware	Yes	Yes, but not in the broiler	Yes	No

HOW TO CLEAN YOUR SLOW COOKER

- ALWAYS turn your slow cooker off, unplug it from the electrical outlet, and allow it to cool before cleaning.
- The lid and stoneware can be washed in the dishwasher or with hot, soapy water. Do not use abrasive cleaning compounds or scouring pads. A cloth, sponge, or rubber spatula will usually remove residue. To remove water spots and other stains, use a non-abrasive cleaner or vinegar.
- As with any fine ceramic, the stoneware and lid will not withstand sudden temperature changes. Do not wash the stoneware or lid with cold water when they are hot.
- The outside of the heating base may be cleaned with a soft cloth and warm, soapy water. Wipe dry. Do not use abrasive cleaners.

CAUTION: Never immerse the heating base in water or other liquid.

- No other servicing should be performed.
- This appliance has no user serviceable parts. Any servicing beyond that described in the Cleaning Section should be performed by an Authorized Service Representative only. See warranty available online.

HINTS AND TIPS

PASTA AND RICE

- For best rice results, use long grain converted rice or a specialty rice as the recipe suggests. If the rice is not cooked completely after the suggested time, add an extra 1 to 1½ cups of liquid per cup of cooked rice and continue cooking for 20 to 30 minutes.
- For best pasta results, first partially cook the pasta in a pot of boiling water until just tender. Add the pasta to the Crock-Pot® slow cooker during the last 30 minutes of cook time.

BEANS

- Beans must be softened completely before combining with sugar and/or acidic foods. Sugar and acid have a hardening effect on beans and will prevent softening.
- Dried beans, especially red kidney beans, should be boiled before adding to a recipe.
- Fully cooked canned beans may be used as a substitute for dried beans.

VEGETABLES

- Many vegetables benefit from slow cooking and are able to develop their full flavor. They tend not to overcook in your slow cooker as they might in your oven or on your stovetop.
- When cooking recipes with rooted vegetables and meat, place vegetables in slow cooker before meat. Vegetables usually cook slower than meat in the slow cooker.
- Place rooted vegetables near the sides or bottom of the stoneware to facilitate cooking.

HINTS AND TIPS (CONT.)

HERBS AND SPICES

- Fresh herbs add flavor and color, but should be added at the end of the cooking cycle as the flavor will dissipate over long cook times.
- Ground and/or dried herbs and spices work well in slow cooking and may be added at the beginning.
- The flavor power of all herbs and spices can vary greatly depending on their particular strength and shelf life. Use herbs sparingly, taste at end of cook cycle and adjust seasonings just before serving.

MILK

- Milk, cream, and sour cream break down during extended cooking. When possible, add during the last 15 to 30 minutes of cooking.
- Condensed soups may be substituted for milk and can cook for extended times.

SOUPS

- Some soup recipes call for large amounts of water. Add other soup ingredients to the slow cooker first then add water only to cover. If thinner soup is desired, add more liquid at serving time.

MEATS

- Trim fat, rinse well, and pat meat dry with paper towels.
- Browning meat in a separate skillet or broiler allows fat to be drained off before slow cooking and also adds greater depth of flavor.
- Meat should be positioned so that it rests in the stoneware without touching the lid.
- For smaller or larger cuts of meat, alter the amount of vegetables or potatoes so that the stoneware is always ½ to ¾ full.
- The size of the meat and the recommended cook times are just estimates and can vary depending upon the specific cut, type, and

SCCPAC608-P_19EM1.indd 20-21 9/16/19 10:53 AM

bone structure. Lean meats such as chicken or pork tenderloin tend to cook faster than meats with more connective tissue and fat such as beef chuck or pork shoulder. Cooking meat on the bone versus boneless will increase required cook times.

- Cut meat into smaller pieces when cooking with precooked foods such as beans or fruit, or light vegetables such as mushrooms, diced onion, eggplant, or finely minced vegetables. This enables all food to cook at the same rate.
- When cooking frozen meats, at least 1 cup of warm liquid must first be added. The liquid will act as a "cushion" to prevent sudden temperature changes. An additional 4 hours on LOW or 2 hours on HIGH is typically required. For larger cuts of frozen meat, it may take much longer to defrost and tenderize.

FISH

- Fish cooks quickly and should be added at the end of the cooking cycle during last fifteen minutes to hour of cooking.

LIQUID

- For best results and to prevent food from drying or burning, always ensure an adequate amount of liquid is used in the recipe.
- Ensure the stoneware is always filled a minimum of ½ full and a maximum of ¾ full, and conform to recommended cook times.

Visit the Crock-Pot® slow cooker website at www.crockpot.com for additional hints, tips and recipes or call 1-800-323-9519.

RECIPES

BABY BACK RIBS

Serves 6-10

2–4 racks of baby back ribs, cut into 3–4 pieces each
2–4 cups barbecue sauce
2–3 onions, chopped

1. Place ribs in Crock-Pot® slow cooker. Top with onion and barbecue sauce.
2. Cover and cook on Low for 7–9 hours or on High for 4–5 hours, or until meat is tender.
3. To serve, cut ribs between bones and coat with extra sauce as desired.

BBQ PULLED PORK

Serves 6–8

2½–5 pound pork loin, trimmed of fat
2–4 cups barbecue sauce
2–3 onions, chopped
6–8 hamburger buns or hard rolls

1. Place pork loin in Crock-Pot® slow cooker. Top with onion and barbecue sauce.
2. Cover and cook on Low for 7–9 hours or on High for 4–5 hours, or until meat is tender.
3. Remove pork from Crock-Pot® slow cooker and shred with a fork. Add pork back into Crock-Pot® slow cooker and coat with sauce.
4. Serve BBQ pulled pork on hamburger buns or hard rolls.

3 cloves garlic, minced
2 bay leaves
6 small potatoes, quartered
2–3 onions, chopped
3 celery stalks, sliced

1. Sprinkle flour, salt and pepper over meat. Place meat in Crock-Pot® slow cooker.
2. Add remaining ingredients and stir well.
3. Cover and cook on Low for 8–10 hours or on High for 5–6 hours, or until meat is tender. Stir thoroughly before serving.

EASY, HEALTHY FISH FILLET

Serves 4–6

Kosher salt and pepper
2–3 pounds white fish (cod, sea bass, tilapia or catfish), skinned
Fresh herbs (flat-leaf parsley, basil, tarragon, savory or a combination of all)
2–3 lemons, thinly sliced
Prepared salsa or olive tapenade to garnish

1. Salt and pepper both sides of the fish and place in Crock-Pot® slow cooker. Cover top of fish with herbs and lemon slices, and tuck some under fish.
2. Cover and cook on High for approximately 30–40 minutes, or until no longer translucent. Cook times vary depending on thickness of fish.
3. Remove lemon slices and top with salsa or tapenade.
