

Q: Why I Connect All wire , the motor doesn't work?

A1: Please Check the hall wiring are correct connect?(Usually color to color)

A2: Please make sure that the "E-lock" wire is energized, otherwise the controller is not power, so it will not working.

Q: Why my controller can not work with the bluetooth?

A1: Please Make sure you have download the newest FARDRIVE app?

Download the APP:

1. Apple cellphone:
search"FARDRIVER"in apple store.

2. Android cellphone:
http://182.92.233.85:6868/FarDriverSigned.apk

3. upgrade your controller / other files:
http://182.92.233.85:6868

Note:

1. Change the wiring plugs, or cutting the wires, cannot be warranted.
2. If you need to program the controller, please buy the fardriver "Bluetooth'' alone.
