Installation Overview

Parts List

A Handle **x1** 	B Latch **x1** 	C Strike **x1** 
D Dust Cover **x1 (optional)** 	E Handle Lever **x1** 	F Handle Lever & Handle Screws **x3** 
G Latch & Strike Screws **x4** 	H Spacer **x1** 	

TOOL REQUIRED:

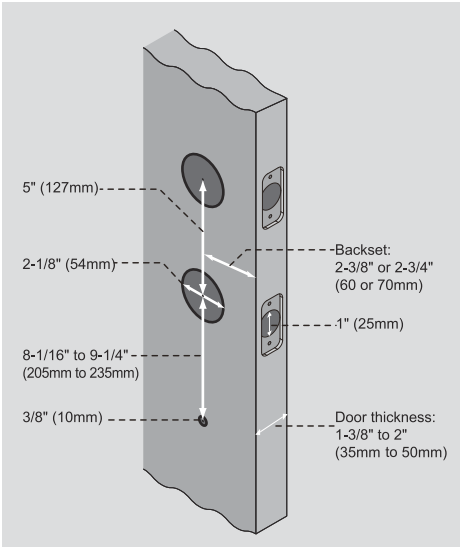

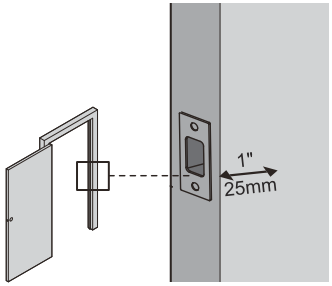

Do not use an electric screwdriver during installation.

Prepare the Door & Check Dimensions

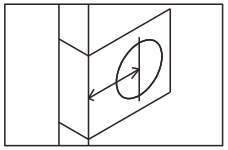

If your door already has the holes shown in the picture below, proceed to the next step; if your door does not have holes, use the mounting template to drill a new hole.

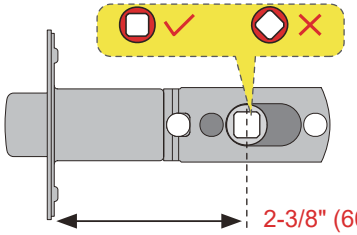

Latch Adjustment

Note: Be sure to use the provided Latch from the package, or it will not function properly.

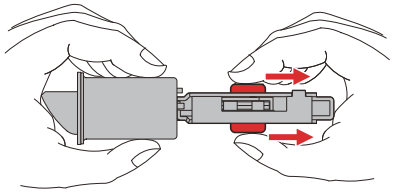

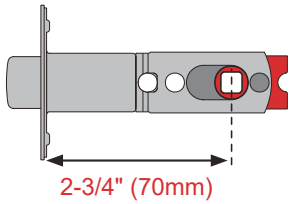

Backset is the distance from the door edge to the center of the hole in the door.

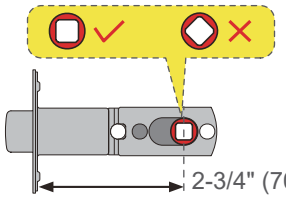

1 If the backset of your door is 2-3/8" (60mm), there is no need to adjust the Latch.

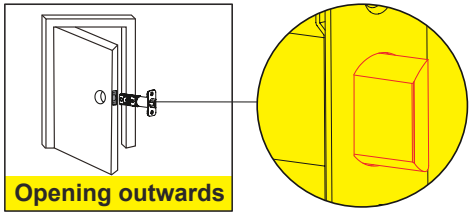

2 If the backset of your door is 2-3/4" (70mm), please adjust the Latch.

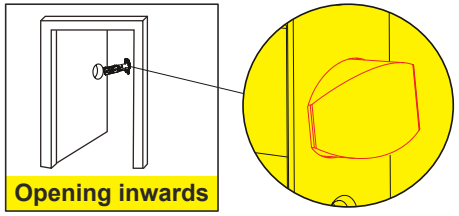

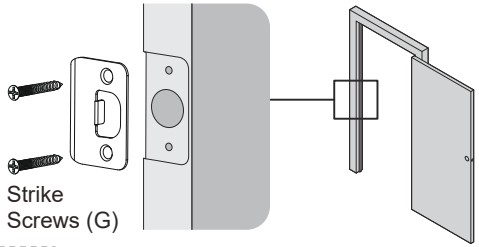

Install the Latch

Install the Strike

Note: The bevel of the Latch should be aligned with the bevel of the Strike.

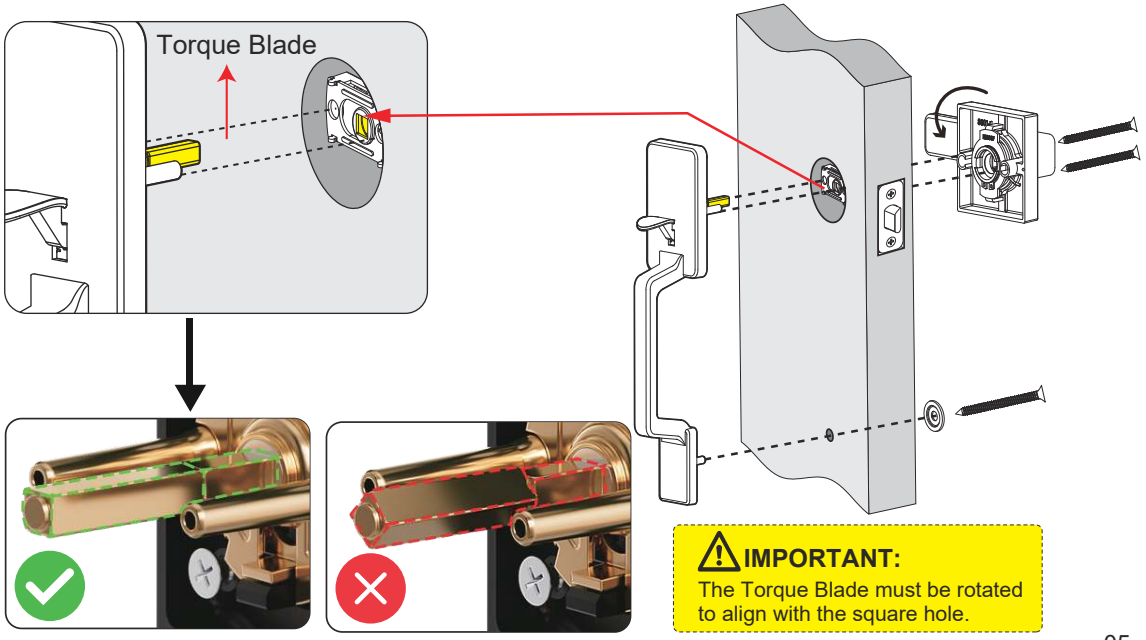

Opening outwards

Opening inwards

Install the Handle

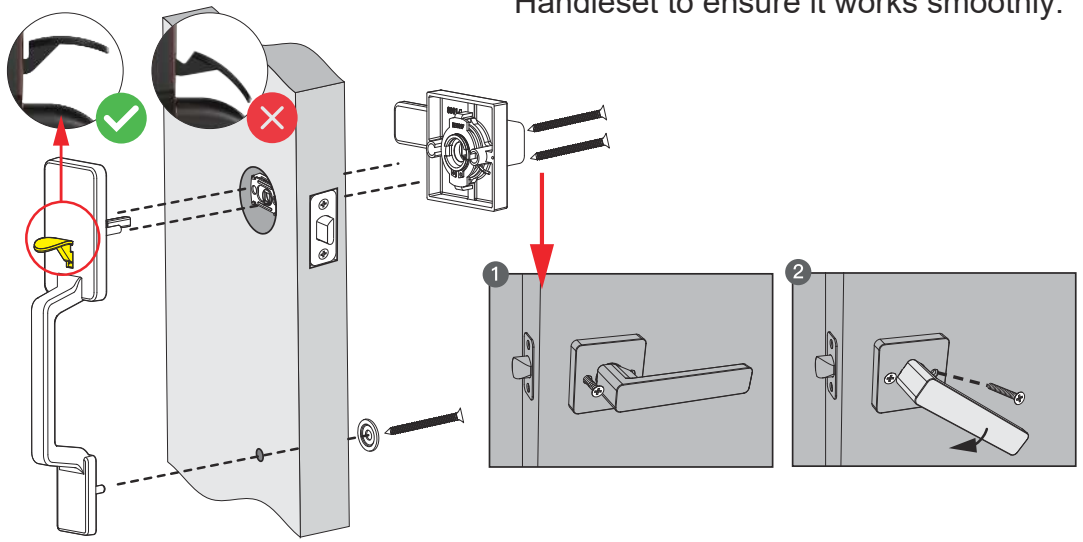

IMPORTANT:
The Torque Blade must be rotated to align with the square hole.

Install the Handle Lever

IMPORTANT:
Don't press the button during the installation of the handle.

Test the Handleset

Keep the door open and check the Handleset to ensure it works smoothly.
