Before We Start

1. This device supports both 2.4 GHz and 5 GHz Wi-Fi. Please make sure your home router and network equipment support the 5 GHz frequency band.
2. Ensure your phone is connected to a 2.4 GHz or 5 GHz Wi-Fi network, and have the Wi-Fi password ready.
3. Make sure Bluetooth is turned on.
4. Ensure your phone runs iOS 11+ or Android 6.0 for a smooth connection.

Download the GHome App

Scan the QR code or simply search for "GHome" in the App Store (iOS) or Google Play (Android) to download, and update to version 5.7.0 or above.

Note: Ensure your phone runs iOS 11+ or Android 6.0+ for a smooth connection.

Connecting the Smart Plug to the GHome App

A. Enter Network Pairing Mode

Ensure that your GHome App is update to version 5.7.0 or above.

1. Open the GHome App and create an account.
2. Plug the smart plug into a power socket near the router.
3. Enter network pairing mode: Press and hold the reset button for 5 seconds until the indecator light flashes slowly.

B. Add Device

1. Ensure your phone is connected to the Wi-Fi router.

2. Open the App, tap "+" at the top right corner and select "Add Device".

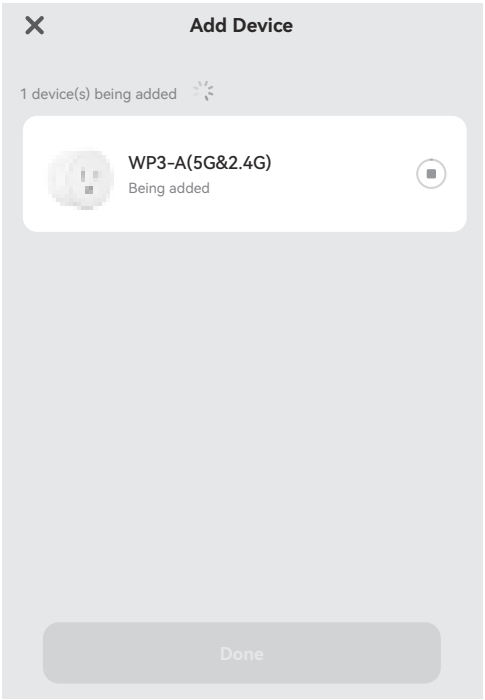

3. You can add the device in two ways:

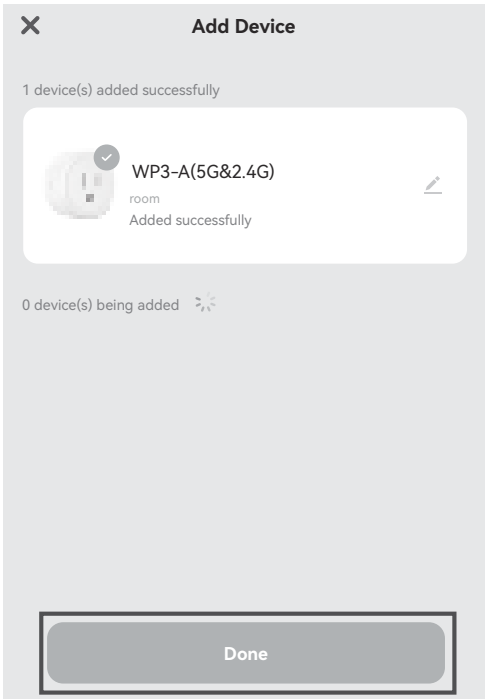

1) Automatic Pairing (Recommended)

a. The app will automatically discover the device. Then, tap "WP3-A (5G&2.4G)".

b. Follow the on-screen instructions and complete the configuration.

2) Manual Pairing (AP Mode)

If automatic pairing fails to discover the device:

a. Go to "Add Manually", select "**WP3-A (5GHz & 2.4GHz)**" under "**Sockets**".

Note: Make sure to select "**WP3-A (5GHz& 2.4GHz)**", not "WP3 (2.4GHz)".

b. Switch from "Bluetooth" to "Wi-Fi Mode" in the top right corner. Confirm the indicator light is blinking slowly, then tap "Next".

c. Select a Wi-Fi Network and enter the password.

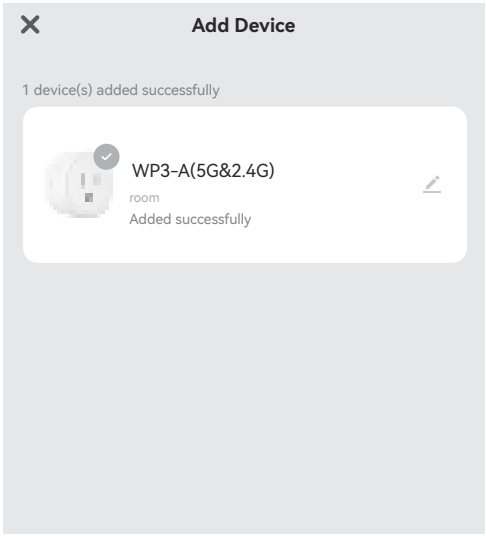

d. Connect your phone to the device hotspot "SmartLife-XXXX".

e. Return to the GHome App interface. It will automatically connect to the router and complete the configuration.

Reset

Turn on the power, hold the Reset button for 5 seconds until the indicator light starts blinking fast, the reset process is successful. When the socket is in a new network environment, you need to restore the factory settings, and then reconnect to the network.

Note:

To control the device via Amazon Alexa or Google Assistant, first add the device to the GHome App, then follow the Voice Assistant Setup Guide.

Warnings and Precautions

Important!

- Keep it out of the reach of children and pets.
- Do not use this product in humid environments or outdoors. It's for indoor use only.
- Do not place this product near heating devices, such as microwave ovens, stoves, or radiators.
- Protect the product from extreme temperatures, direct sunlight, strong jolts, high humidity, moisture, flammable gases, vapors and solvents.
- Do not disassemble, modify, or repair your device, and ask help from the authorized

professionals for device malfunction.

- Do not use the device when it is no longer working properly or visibly damaged.
- Do not store the device for extended periods in poor ambient conditions.
