Exemption sheet for Battery and battery-powered products

Page 1

What are Dangerous Goods?

A product will be regulated as dangerous good if any of its components are classified as dangerous goods or substances or are otherwise regulated by any official organization that governs safe transport, storage, or handling of goods.
For more information on dangerous goods, please consult the Dangerous Goods Identification Guide in Seller Central Help.

Examples of Dar

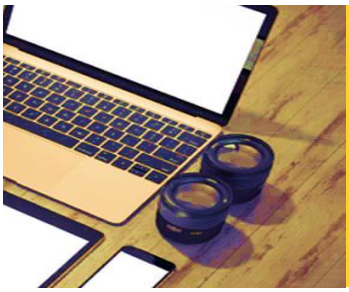

Important note: This exemption sheet is required and will be accepted only for **products that may** (even if the batteries are not included with the product or if the product is to be plugged-in) or tha
If your product does not belong to that category but is otherwise regulated as dangerous good or substances (e.g. cleaners, essential oils, paint related products), please provide a Safety Data Shee manufacturer) instead of a battery exemption sheet.
This exemption sheet must be **completely filled out** before being submitted: **all cells in red must b** pages (move to the right). For **complete instructions**, please go to the **Instructions tab of this Excel**

Date: 5/22/2023 **First name:** Allie **Last name:**

Please enter your first and last name. If a company name is enter be rejected

Disclaimer: By submitting this document to Amazon, you **hereby confirm** that you have **checked the** your product and that **the information you provide is correct**. In the case of **erroneous or incomplete** through this exemption sheet, **Amazon reserves its right to take the corresponding actions without p** may include but are not limited to: blocked purchase order placement, classification and inboundi existing inventory at your expense.
