Wireless Connection

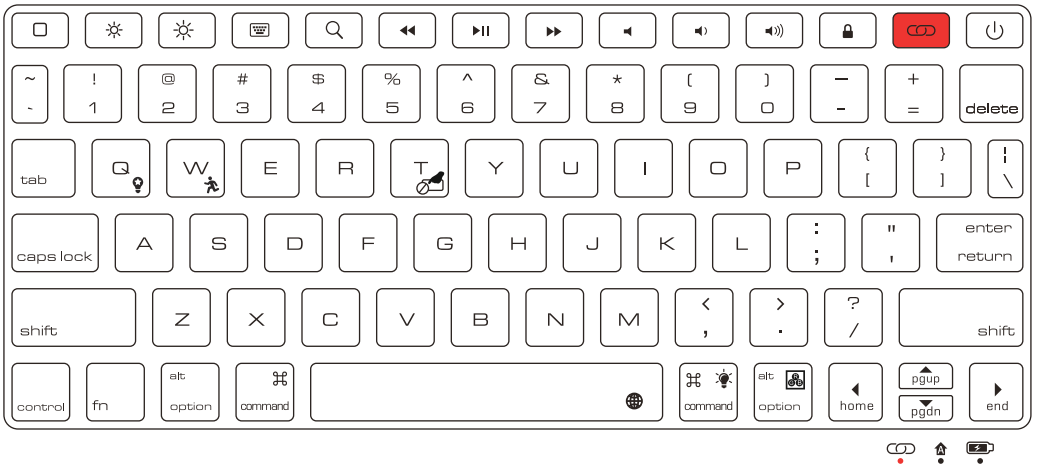

1.Make sure your iPad ios system up to 13.2.2 or above & iPad Assistive Touch toggle function on.
(Setting/Accessibility/Touch/AssistiveTouch/AssistiveTouch On)

2.(Below picture is for 10.2/10.5 inch, 10.9/11 inch, 11 inch keyboard) Press the power button for 3 sec to turn on the iPad keyboard (indicators will flash once and keyboard backlight will turn on, backlight will turn off automatically later).

The on/off button of 12.9 inch keyboard is on the right side of the gusset.

3.(Below picture is for 10.2/10.5 inch, 10.9/11 inch, 11 inch keyboard) Press pair button for 3 sec, blue indicator will flash which shows the keyboard is on pairing mode for 3 min.

For 12.9 inch keyboard, you need to press "fn" and "C" together, blue wireless indicator will flash which shows the keyboard is on pairing mode.

4.Turn on your iPad Bluetooth, and search the "ipad keyboard." on list, then tap it for connection.

5.Once the connection succeeds, blue wireless indicator won't flash and keeps on.

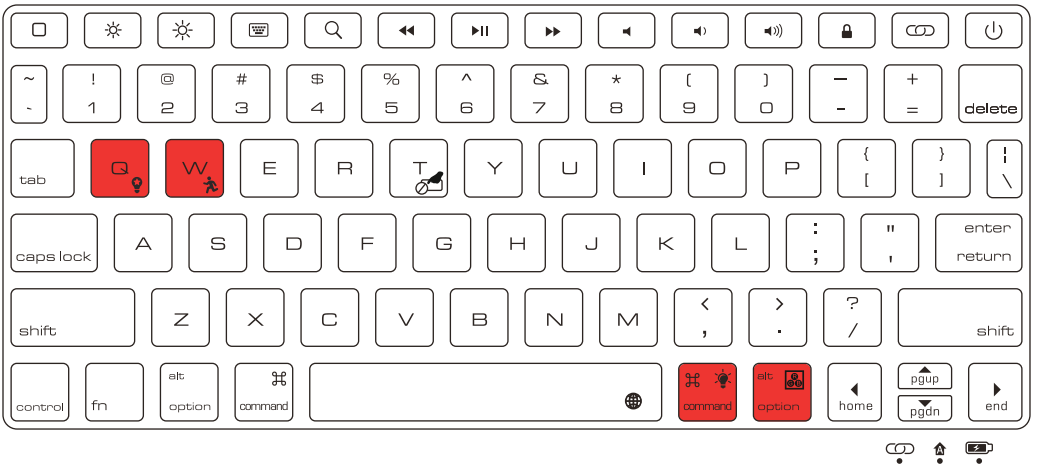

Backlight instruction

Press " fn" + command (right side of space bar) to turn on the backlight. Press them again to increase the brightness. Press the third time to maximize the brightness. And the press fourth time to turn off the backlight. There are three brightness in total.

Press " fn" + alt option to change different rainbow colors. There are various rainbow colors for you to choose.

Press " fn" + "Q" to turn on the breathing backlight, backlight will flash at a rate. By pressing"fn" + "W", you can change the rate of breathing backlight.

By the way, pressing" fn" + "Q" also can turn on the backlight, and pressing them again will turn the backlight off.

NOTICE:

1.Backlight will automatically turn off if there is no movement on keyboard over 5 sec, while it

will light up again when you press any key.

2.Blue backlight will turn on when you turn on the iPad keyboard, and it will turn off automatically within 1 min. It's a normal situation. Don't worry about that.

VERY IMPORTANT: Keyboard will be in sleep mode if it doesn't work over 10 min. In sleep mode, it will cut the connection between your iPad. The keyboard will wake up to back into work mode and connect to your iPad again when you press any key.

Touchpad instruction

Question about charging

When red flight flashes, it shows your keyboard is on low-battery status. You can find Type-C charging cable in package to charge for it. Red indicator will stay on when charging and turn green once fully charged.

NOTICE: If you don't use it normally, please charge the keyboard regularly, once in a month is advised by BABG.

Troubleshooting

1.Keyboard can't connect to your iPad when you first get it.
Charge keyboard case first until it's fully charged.
Please click "forget this device" to delete all the devices on your iPad Bluetooth list, then restart your iPad and keyboard. Connect them again.
If the problem is still alive, please kindly contact seller.

2.Touchpad doesn't work.
Make sure your iPad software version is 13.2.2 or above. Touchpad function just works with iPad 13.2.2 or above version.
Make sure iPad AssistiveTouch is on. It always be off in default status. Please go to the iPad accessibility setting to check if the iPad AssistiveTouch is on.
The touchpad can be locked by pressing "fn"+"T", you can press them again to check

whether touchpad is locked or not.
More details, please kindly check previous **"Touchpad instruction"**
If the problem is still alive, please kindly contact seller.

3.Some characters can't work.
Turn the keyboard off first and turn on it again.
If the problem is still alive, please kindly contact seller.

4.Why I press A but get a Z.
Go to Settings/Keyboard/Keyboards/English(US)/QWERTY

5.Space bar doesn't work.
You can try below settings first
Settings/Accessibility/Keyboards/Full Keyboard Access/Commands/
Then change settings for "Space" from "activate" to "Clear". If it comes back, then you can also turn OFF Full Keyboard Access.
Once it is cleared, the space bar would work fine

More info, please kindly check above **"Space bar problem-Space bar doesn't work or Insert period"**

6.If there is delay after you press keys, please kindly check one of iPad Settings as below:
Settings/Accessibility/Keyboards/Slow Keys Off
Settings/Accessibility/Keyboards/Slow Keys On 0.1 Seconds

7.If there is repeated characters after you press certain key, pleas kindly check one of iPad Settings as below:
Settings/Accessibility/Keyboards/Key Repeat On 0.1 Seconds
Settings/Accessibility/Keyboards/Key Repeat Off

8.Keyboard can't hold a charge. Please change another charging cable to test. If is still not workable, maybe there is problem with battery, please kindly contact after-sale team babgstore@hotmail.com with your order ID for a new replacement. May it help to you.

9.Can’t find charging cable in package, you can see below picture. If there is no charging cable in white box, just contact seller on Amazon or our after-sale email babgstore@hotmail.com.

10.Don’t know how to remove the case.
Please check the instruction video: https://youtu.be/hemjRHQBWsE
