* For the best user experience, please update your phone to the latest software version.
** Burst photo mode is only available on smartphones with 4GB of RAM or more (iPhone 11 or newer).

1. Switching the front & back camera while recording in 4K 24/25fps is available for all models listed above. While recording in 4K 24/25/30fps, it is available for iPhone XS and above. While recording in 1080p/720p, it is available for all phone models in the above list.
2. Face Filter is only available on smartphones with 3GB of RAM or more.
3. Due to performance and system compatibility, some resolutions and frame rates cannot support Active Zoom Tracking. Please refer to the guide within the Insta360 App for specific details.
4. Using DockKit tracking requires an Apple device compatible with DockKit, specifically an iPhone 12 or later model (excludes iPhone SE 3rd generation and iPhone 16e) running iOS 17 or higher. We recommend iOS 18 and above.

Android

* This list of supported features is subject to change due to frequent updates from smartphone brands.
** Supported features may vary by region.

1. For phone camera control, please pair Flow 2 Pro with the phone's Bluetooth manually.
2. Switching the front & back camera while recording in 4K is only available in specific phone models. While recording in 1080p/720p, it is available for all phone models in the above list.

*Insta360 Flow 2 Pro is designed to be used with DockKit-compatible apps, such as iPhone's camera app and FaceTime®. The above are third-party iOS apps that Insta360 has tested and confirmed to support DockKit. Please check with Apple regarding further third-party app compatibility.
**Using DockKit tracking requires an Apple device compatible with DockKit, specifically an iPhone 12 or later model, running iOS 17 or higher (we recommend iOS 18 or higher.)
