02. ACCOUNT REGISTRATION

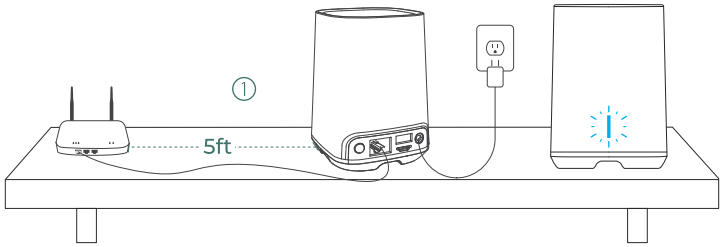

To create a Soliom Home account, you must register with a valic emai address.

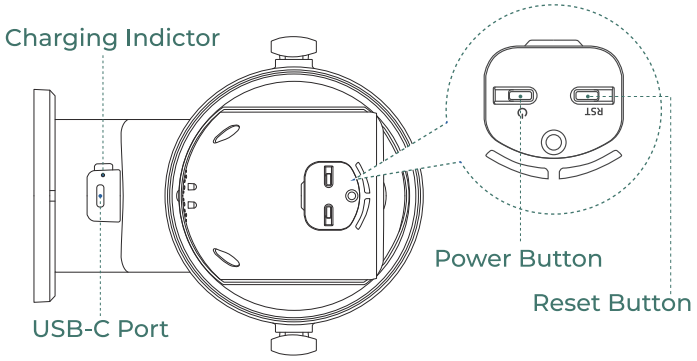

① Click "Register".
② Select your region, fill in your email address and create a password.
③ Verify your email.
④ Return to the app and log in to your new account.

03. CONNECT THE HOMEBASE

① Connect the base station to power. Connect the HomeBase to a router with an Ethernet cable until the indicator light turns from red to blue.
② Connect your phone to the same Wi-Fi network as the router connected to HomeBase.

04. POWER ON THE CAMERA

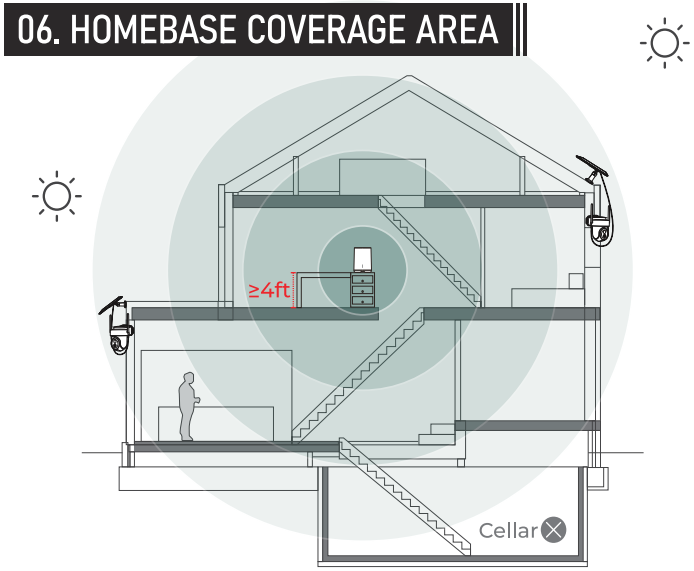

① Press and hold the power button for 3-5 seconds to turn on the camera

05. ADD A NEW DEVICE

① Click the " + "
② Scan the QR code on the base station with your mobile phone
③ When the HomeBase LED is blue, press and hold the SYNC Off button for over 3 seconds. The LED will then start flashing blue.
④ Connection successful

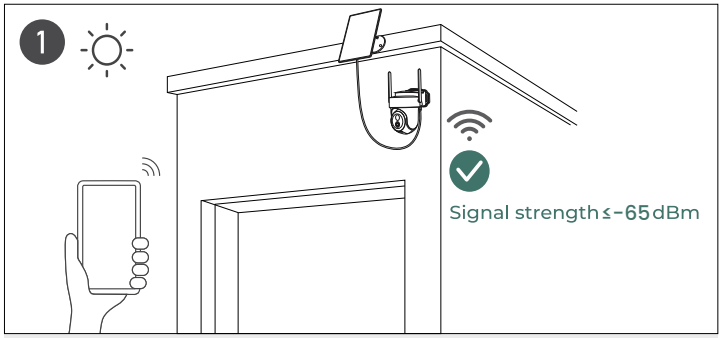

06. HOMEBASE COVERAGE AREA

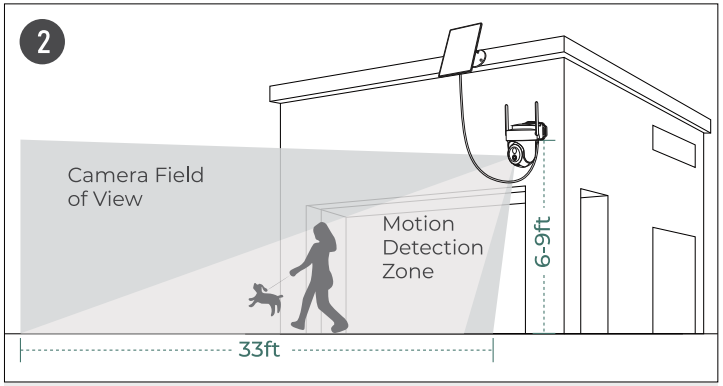

Positioning Requirements:
① Place the HomeBase on a tabletop at least 4ft high.
② Avoid basement placement.

Signal Optimization:
Maintain a minimum 5ft distance between the Home-Base and router to prevent signal interference.

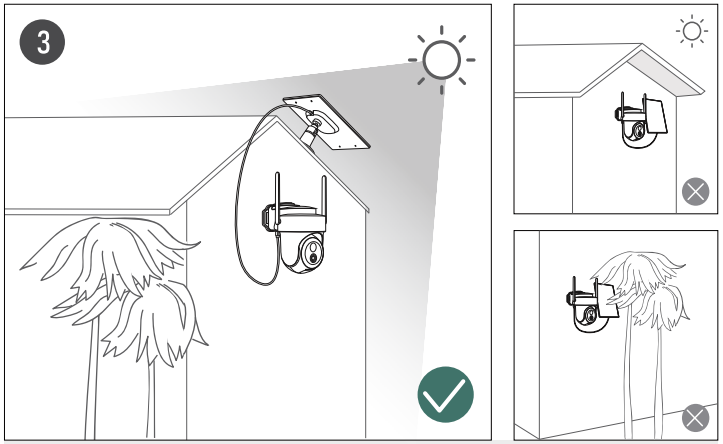

07. CAMERA INSTALLATION

Assess the Wi-Fi signal quality at this location.

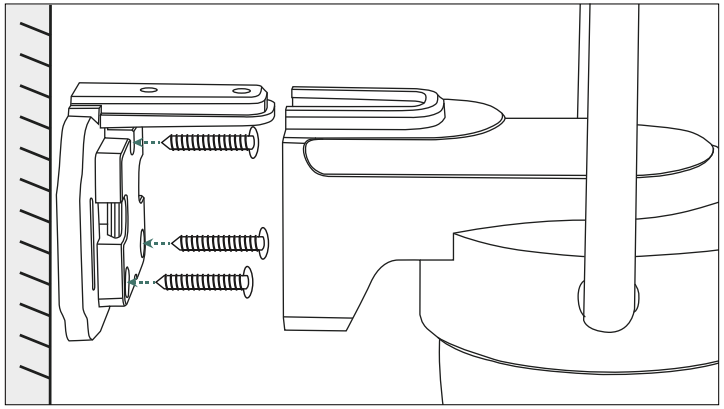

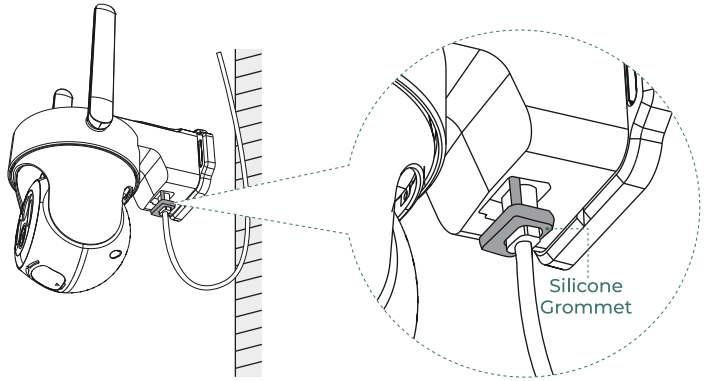

Hang camera 6-9 ft above the ground.

Avoid obstacles that may block its line of sight (e.g., eaves, tree branches).

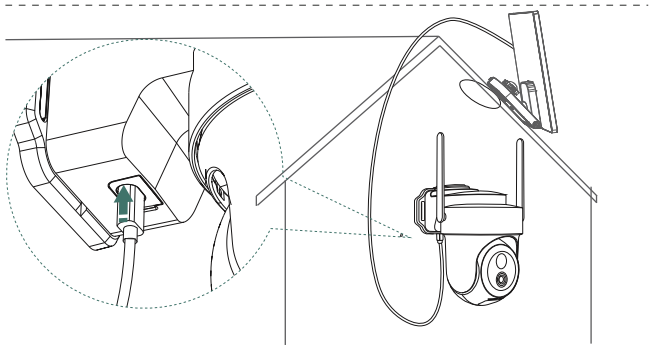

4 Installation on The Wall

2

Feed the Type-C connector through the silicone grommet and insert it into the camera's charging port.

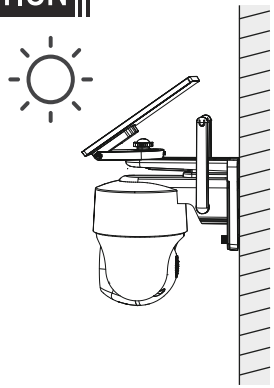

3

For optimal weather resistance, ensure the rubber plug fully seals the charging port.

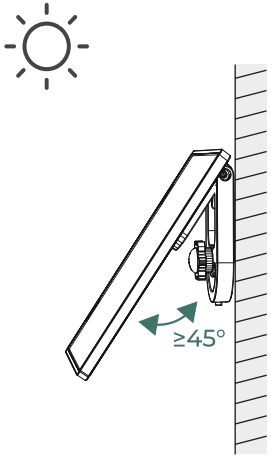

08. SOLAR PANEL INSTALLATION

Option 1

Secure the bracket to the wall with a drill and screws, then assemble the solar panel onto the bracket.

1

Option 2

Drill and screw the solar panel directly on the wall or roof
Ensure the panel faces direct sunlight
